THE OFFERING AND THE SECURITIES

The Offering

The Company is offering a minimum amount of \$25,000 (the “**Target Offering Amount**”) and up to a maximum amount of \$1,070,000 (the “**Maximum Offering Amount**”) of Crowd SAFE (Simple Agreement for Future Equity) (the “**Securities**”) on a best efforts basis as described in this Form C/A (this “**Offering**”). The Minimum Individual Subscription Amount is \$100 and the Maximum Individual Subscription Amount is \$250,000. The Company reserves the right to amend the Minimum Individual Subscription Amount and Maximum Individual Subscription Amount, in its sole discretion. In particular, the Company may elect to participate in one of the Intermediary’s special investment programs and may offer alternative Minimum Individual Subscription Amounts and Maximum Individual Subscription Amounts to Investors participating in such programs without notice. The Company must raise an amount equal to or greater than the Target Offering Amount by April 20, 2023 (the “**Offering Deadline**”). Unless the Company receives investment commitments, which are fully paid for and meet all other requirements set by this Offering, in an amount not less than the Target Offering Amount by the Offering Deadline, no Securities will be sold in this Offering, all investment commitments will be cancelled and all committed funds will be returned.

In addition to the Offering, the Company may seek to concurrently undertake to raise up to an additional \$1,000,000 by offering to sell up to \$1,000,000 in securities, including but not limited to common or preferred stock, SAFEs (Simple Agreement for Future Equity) or Convertible Notes, to accredited investors outside of this Offering (the “**Concurrent Offering**”).

The price of the Securities was determined arbitrarily, does not necessarily bear any relationship to the Company’s asset value, net worth, revenues or other objective established criteria of value, and should not be considered indicative of the actual value of the Securities.

In order to purchase the Securities, you must make a commitment to purchase by completing the subscription process hosted by the **Intermediary** (as defined above), including complying with the Intermediary’s know your customer (KYC) and anti-money laundering (AML) policies. **If an Investor makes an investment commitment under a name that is not their legal name, they may be unable to redeem their Security indefinitely, and neither the Intermediary nor the Company are required to correct any errors or omissions made by the Investor.**

Investor funds will be held in escrow with a qualified third party escrow agent meeting the requirements of Regulation CF (“**Escrow Agent**”) until the Target Offering Amount has been met or exceeded and one or more closings occur. Investors may cancel an investment commitment until up to 48 hours prior to the Offering Deadline or an intermediate close, using the cancellation mechanism provided by the Intermediary. **Investors using a credit card to invest must represent and warrant to cancel any investment commitment(s) by submitting a request through the Intermediary at least 48 hours prior to the Offering Deadline, instead of attempting to claim fraud or claw back their committed funds. If the investor does not cancel an investment commitment before the 48-hour period prior to the Offering Deadline, the funds will be released to the Issuer and the investor will receive their Securities.**

The Company will notify Investors when the Target Offering Amount has been reached through the Intermediary. If the Company reaches the Target Offering Amount prior to the Offering Deadline, it may close the Offering early *provided* (i) the expedited Offering Deadline must be twenty-one (21) days from the time the Offering was opened, (ii) the Intermediary must provide at least five (5) business days’ notice prior to the expedited Offering Deadline to the Investors and (iii) the Company continues to meet or exceed the Target Offering Amount on the date of the expedited Offering Deadline.

The Deal Page

A description of our products, services and business plan can be found on the Company’s profile page on the Intermediary’s website under <https://republic.com/superphone> (the “**Deal Page**”). The Deal Page can be used by prospective Investors to ask the Company questions and for the Company to post immaterial updates to this Form C/A as well as make general announcements. You should view the Deal Page at the time you consider making an investment commitment. Updates on the status of this Offering can also be found on the Deal Page.

Material Changes

If any material change occurs related to the Offering prior to the current Offering Deadline the Company will provide notice to Investors and receive reconfirmations from Investors who have already made commitments. If an Investor does not reconfirm their investment commitment after a material change is made to the terms of the Offering within five (5) business days of receiving notice, the Investor's investment commitment will be cancelled and the committed funds will be returned without interest or deductions.

Intermediate Closings

In the event an amount equal to two (2) times the Target Offering Amount is committed and meets all required terms of the Offering prior to the Offering Deadline on such date or such later time the Company designates pursuant to Rule 304(b) of Regulation CF, the Company may conduct the first of multiple closings of the Offering early, *provided* (i) the early closing date must be twenty-one (21) days from the time the Offering opened and (ii) that all Investors will receive notice of such early closing date at least five (5) business days prior to such new offering deadline (absent a material change that would require an extension of the Offering and reconfirmation of all investment commitments). Investors who committed on the date such notice is provided or prior to the issuance of such notice will be able to cancel their investment commitment until 48 hours before such early closing date.

If the Company conducts an initial closing (the "**Initial Closing**"), the Company agrees to only withdraw seventy percent (70%) of the proceeds that are in escrow and will only conduct such Initial Closing if there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of the Initial Closing. The Company may only conduct another close (a "**Subsequent Closing**") before the Offering Deadline if the amount of investment commitments made as of the date of such Subsequent Closing exceeds two times the Target Offering Amount as of the date of the Initial Closing and there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of such Subsequent Closing.

Any investment commitments received after an intermediate closing will be released to the Company upon a subsequent closing and the Investor will receive evidence of the Securities via electronic certificate/PDF in exchange for their investment commitment as soon as practicable thereafter.

The Company has agreed to return all funds to Investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of whether multiple closings are conducted.

Investment commitments are not binding on the Company until they are accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any investment commitment. If the Company rejects all or a portion of any investment commitment, the applicable prospective Investor's funds will be returned without interest or deduction.

The Securities

We request that you please review this Form C/A and the Instrument attached as Exhibit B, in conjunction with the following summary information.

Transfer Agent and Registrar

The Company will act as transfer agent and registrar for the Securities.

Not Currently Equity Interests

The Securities are not currently equity interests in the Company and merely provide a right to receive equity at some point in the future upon the occurrence of certain events (which may or may not occur).

Dividends and/or Distributions

The Securities do not entitle Investors to any dividends.

Nominee

The Nominee (as defined below) will act on behalf of the Investors as their agent and proxy in all respects. The Nominee will be entitled, among other things, to exercise any voting rights (if any) conferred upon the holder of Securities or any securities acquired upon their conversion, to execute on behalf of an investor all transaction documents related to the transaction or other corporate event causing the conversion of the Securities, and as part of the conversion process the Nominee has the authority to open an account in the name of a qualified custodian, of the Nominee's sole discretion, to take custody of any securities acquired upon conversion of the Securities. The Nominee will take direction from a pre-disclosed party selected by the Company and designated below on any matter in which affects the Investors' economic rights. The Nominee is not a fiduciary to the Investors and the Investors agree to indemnify the Nominee per the terms of the Security.

Conversion

Upon the next sale (or series of related sales) by the Company of its Capital Stock to one or more third parties resulting in gross proceeds to the Company of not less than \$5,000,000 cash and cash equivalent (each an "**Equity Financing**"), the Securities are convertible into shares of the securities issued in said Equity Financing, at the option of the Company.

Conversion Upon the First Equity Financing

If the Company elects to convert the Securities upon the first Equity Financing following the issuance of the Securities, the Investor will receive the number of securities equal to the greater of the quotient obtained by dividing the amount the Investor paid for the Securities (the "**Subscription Amount**") by (a) or (b) immediately below:

(a) the quotient of \$30,000,000 ("**Valuation Cap**") divided by the aggregate number of issued and outstanding shares of capital stock, assuming full conversion or exercise of all convertible and exercisable securities then outstanding, including shares of convertible preferred stock and all outstanding vested or unvested options or warrants to purchase capital stock, but excluding (i) shares of capital stock reserved for future issuance under any equity incentive or similar plan, (ii) convertible promissory notes, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, "**SAFEs**"), and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or **SAFEs**;

OR

(b) if the pre-money valuation of the Company immediately prior to the First Equity Financing is less than or equal to the Valuation Cap, the lowest price per share of the securities sold in such Equity Financing.

Such conversion price shall be deemed the "**First Equity Financing Price**".

Conversion After the First Equity Financing

If the Company elects to convert the Securities upon an Equity Financing other than the first Equity Financing following the issuance of the Securities, at the Nominee's discretion the Investor will receive, the number of converted securities equal to the quotient obtained by dividing (a) the Subscription Amount by (b) the First Equity Financing Price.

Conversion Upon a Liquidity Event Prior to an Equity Financing

In the case of the Company's undergoing an **IPO** (as defined below) of its Capital Stock (as defined in the Security) or a **Change of Control** (as defined below) of the Company (either of these events, a "**Liquidity Event**") prior to any Equity Financing, the Investor will receive, at the option of the Nominee and within thirty (30) days of receiving notice (whether actual or constructive), either (i) a cash payment equal to the Subscription Amount subject to the following paragraph (the "**Cash Out Option**") or (ii) a number of shares of Common Stock of the Company equal to the Subscription Amount divided by the quotient of (a) \$30,000,000 divided by (b) the number, as of immediately prior to the Liquidity Event, of shares of the Company's capital stock outstanding (on an as-converted basis), assuming the exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (w) shares of capital stock reserved for future issuance under any equity incentive or similar plan; (x) any **SAFEs**; (y) convertible promissory notes; and (z) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or **SAFEs**.

In connection with the Cash Out Option, the Subscription Amount (or a lesser amount as described below) will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investors and the holders of other SAFEs (collectively, the “**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Subscription Amounts.

“**Change of Control**” as used above, means (i) a transaction or series of related transactions in which any person or group becomes the beneficial owner of more than fifty percent (50%) of the outstanding voting securities entitled to elect the Company’s board of directors, (ii) any reorganization, merger or consolidation of the Company, in which the outstanding voting security holders of the Company fail to retain at least a majority of such voting securities following such transaction or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Company.

“**IPO**” as used above, means: (A) the completion of an underwritten initial public offering of Capital Stock by the Company pursuant to: (I) a final prospectus for which a receipt is issued by a securities commission of the United States or of a province of Canada, or (II) a registration statement which has been filed with the United States Securities and Exchange Commission and is declared effective to enable the sale of Capital Stock by the Company to the public, which in each case results in such equity securities being listed and posted for trading or quoted on a recognized exchange; (B) the Company’s initial listing of its Capital Stock (other than shares of Capital Stock not eligible for resale under Rule 144 under the Securities Act) on a national securities exchange by means of an effective registration statement on Form S-1 filed by the Company with the SEC that registers shares of existing capital stock of the Company for resale, as approved by the Company’s board of directors, where such listing shall not be deemed to be an underwritten offering and shall not involve any underwriting services; or (C) the completion of a reverse merger or take-over whereby an entity (I) whose securities are listed and posted for trading or quoted on a recognized exchange, or (II) is a reporting issuer in the United States or the equivalent in any foreign jurisdiction, acquires all of the issued and outstanding Capital Stock of the Company.

Conversion Upon a Liquidity Event Following an Equity Financing

In the case of a Liquidity Event following any Equity Financing, the Investor will receive, at the option of the Nominee and within thirty (30) days of receiving notice (whether actual or constructive), either (i) the Cash Out Option or (ii) a number of shares of the most recently issued capital stock equal to the Subscription Amount divided by the First Equity Financing Price. Shares of capital stock granted in connection therewith shall have the same liquidation rights and preferences as the shares of capital stock issued in connection with the Company’s most recent Equity Financing.

If there are not enough funds to pay the Investors and the other Cash-Out Investors in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Subscription Amounts.

If the Company’s board of directors (or other applicable governing body if the Company is a limited liability company) determines in good faith that delivery of equity securities to the Investor pursuant to Liquidity Event paragraphs above would violate applicable law, rule or regulation, then the Company shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such capital stock, as determined in good faith by the Company’s board of directors (or other applicable governing body if the Company is a limited liability company).

Dissolution

If there is a **Dissolution Event** (as defined below) before the Securities terminate, subject to the preferences applicable to any series of preferred stock then outstanding, the Company will distribute all proceeds legally available for distribution with equal priority among the (i) holders of the Securities (on an as converted basis based on a valuation of Common Stock as determined in good faith by the Company’s board of directors at the time of the Dissolution Event), (ii) all other holders of instruments sharing in the distribution of proceeds of the Company at the same priority as holders of Common Stock upon a Dissolution Event and (iii) all holders of Common Stock.

A “**Dissolution Event**” means (i) a voluntary termination of operations by the Company, (ii) a general assignment for the benefit of the Company’s creditors or (iii) any other liquidation, dissolution or winding up of the Company (excluding a Liquidity Event), whether voluntary or involuntary.

Termination

The Securities terminate (without relieving the Company of any obligations arising from a prior breach of or non-compliance with the Securities) upon the earlier to occur of: (i) the issuance of shares in the converted securities to the Investor pursuant to the conversion provisions of the Crowd SAFE agreement or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to a Liquidity Event or a Dissolution Event.

Voting and Control

Neither the Securities **nor the securities issuable upon the conversion** of the Securities have voting rights unless otherwise provided for by the Company. In addition, to facilitate the Offering Crowd SAFE Investors being able to act together and cast a vote as a group, to the extent any securities acquired upon conversion of the Securities confer the holder with voting rights (whether provided by the Company's governing documents or by law), the Nominee (as defined above) will act on behalf of the holders as agent and proxy in all respects. The Nominee will vote consistently at the direction of the Chief Executive Officer of the Company.

The Company also is a party to a certain Amended and Restated Investors' Rights Agreement, dated as of September 27, 2017, under which the Company and certain investors agreed to provide (i) registration rights, (ii) restrictions on transfer; (iii) certain rights to receive or inspect information pertaining to the Company, (iv) right of first offer; and (v) effects of changes in the Company's capital structure.

The Company also is a party to a certain Right of First Refusal and Co-Sale Agreement, dated as of September 27, 2017, under which the Company and certain investors agreed to, among other things (i) a right of first refusal over shares held by Common Stock holders by the Company and Major Investors, (ii) a right of co-sale, (iii) prohibited and exempt transfers, and (iv) a lock-up period with respect to any initial public offering of the Company's securities.

The Company has also entered into Management Rights letters, dated September 27, 2017, with certain key investors in which the Company has agreed to provide such key investors certain contractual management rights.

Anti-Dilution Rights

The Securities do not have anti-dilution rights, which means that future equity issuances and other events will dilute the ownership percentage that Investors may eventually have in the Company.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Investor of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: (1) to the Company; (2) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act; (3) as part of an IPO; or (4) to a member of the family of the Investor or the equivalent, to a trust controlled by the Investor, to a trust created for the benefit of a member of the family of the Investor or the equivalent, or in connection with the death or divorce of the Investor or other similar circumstances. "Member of the family" as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Each Investor should be aware that although the Securities may legally be able to be transferred, there is no guarantee that another party will be willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any capital stock into which they are convertible, such transferring Investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel reasonably satisfactory to the Company stating that a registration statement is not necessary to effect such transfer.

In addition, the Investor may not transfer the Securities or any capital stock into which they are convertible to any of the Company's competitors, as determined by the Company in good faith.

Furthermore, upon the event of an IPO, the capital stock into which the Securities are converted will be subject to a lock-up period and may not be lent, offered, pledged, or sold for up to 180 days following such IPO.

If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distributee, as

relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the Terms of the Securities, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Securities, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services.

Other Material Terms

- The Company does not have the right to repurchase the Securities.
- The Securities do not have a stated return or liquidation preference.
- The Company cannot determine if it currently has enough capital stock authorized to issue upon the conversion of the Securities, because the amount of capital stock to be issued is based on the occurrence of future events.

COMMISSION AND FEES

Cash Commission

At the conclusion of the Offering, the issuer shall pay a cash fee of six percent (6%) of the amount raised in the Offering to the Intermediary.

Other Compensation

The Intermediary will also receive compensation in the form of the Securities equal to two percent (2%) of the total number of the Securities sold in the offering. The total number of Securities outstanding after the Offering is subject to increase in an amount equal to the Intermediary's fee of two percent (2%) of the Securities issued in this Offering.

RISK FACTORS

Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C/A. In addition to the risks specified below, the Company is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

The Company is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early-stage companies. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

Global crises, such as COVID-19, can have a significant effect on our business operations and revenue projections.

The Company's revenue was adversely affected related to the COVID-19 crisis. Conditions have eased. If another significant outbreak of COVID-19 or another contagious disease were to occur, we may lose a significant portion of our revenue.

In addition, a significant outbreak of contagious diseases in the human population could result in a widespread health crisis. Additionally, geopolitical events, such as wars or conflicts, could result in global disruptions to supplies, political uncertainty and displacement. Each of these crises could adversely affect the economies and financial markets of many countries, including the United States where we principally operate, resulting in an economic downturn that could reduce the demand for our products and services and impair our business prospects, including as a result of being unable to raise additional capital on acceptable terms to us, if at all.

The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital.

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenues from sales, as well as the inherent business risks associated with our Company and present and future market conditions. Our business currently has limited sales and future sources of revenue may not be sufficient to meet our future capital requirements. We will require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

We may implement new lines of business or offer new products and services within existing lines of business.

As an early-stage company, we may implement new lines of business at any time. There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved, and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

We rely on other companies to provide components and services for our products.

We depend on suppliers and contractors to meet our contractual obligations to our customers and conduct our operations. Our ability to meet our obligations to our customers may be adversely affected if suppliers or contractors do not provide the agreed-upon supplies or perform the agreed-upon services in compliance with customer requirements and in a timely and cost-effective manner. Likewise, the quality of our products may be adversely impacted if companies to whom we delegate manufacture of major components or subsystems for our products, or from whom we acquire such items, do not provide components which meet required specifications and perform to our, and our customers', expectations. Our suppliers may also be unable to quickly recover from natural disasters and other events beyond their control and may be subject to additional risks such as financial problems that limit their ability to conduct their operations. The risk of these adverse effects may be greater in circumstances where we rely on only one or two contractors or suppliers for a particular component. Our products may utilize custom components available from only one source. Continued availability of those components at acceptable prices, or at all, may be affected for any number of reasons, including if those suppliers decide to concentrate on the production of common components instead of components customized to meet our requirements. The supply of components for a new or existing product could be delayed or constrained, or a key manufacturing vendor could delay shipments of completed products to us adversely affecting our business and results of operations.

We rely on various intellectual property rights, including trademarks, in order to operate our business.

The Company relies on certain intellectual property rights to operate its business. The Company's intellectual property rights may not be sufficiently broad or otherwise may not provide us a significant competitive advantage. In addition, the steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations. We also rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights. As we expand our business, protecting our intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our intellectual property rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

The Company's success depends on the experience and skill of its executive officers, its board of directors, and key employees.

We are dependent on our executive officers, board of directors and key employees. These persons may not devote their full time and attention to the matters of the Company. The loss of any or all of our executive officers, board of directors and key employees could harm the Company's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Company does not have any key person life insurance policies on any such people.

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and our operations. We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

In order for the Company to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management and other personnel to develop additional expertise. We face intense competition for personnel, making recruitment time-consuming and expensive. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us, which could further delay or disrupt our product development and growth plans.

We need to rapidly and successfully develop and introduce new products in a competitive, demanding and rapidly changing environment.

To succeed in our intensely competitive industry, we must continually improve, refresh and expand our product and service offerings to include newer features, functionality or solutions, and keep pace with changes in the industry.

Shortened product life cycles due to changing customer demands and competitive pressures may impact the pace at which we must introduce new products or implement new functions or solutions. In addition, bringing new products or solutions to the market entails a costly and lengthy process, and requires us to accurately anticipate changing customer needs and trends. We must continue to respond to changing market demands and trends or our business operations may be adversely affected.

The development and commercialization of our products is highly competitive.

We face competition with respect to any products that we may seek to develop or commercialize in the future. Our competitors include major companies worldwide. Many of our competitors have significantly greater financial, technical and human resources than we have and superior expertise in research and development and marketing approved products and thus may be better equipped than us to develop and commercialize products. These competitors also compete with us in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our competitors may commercialize products more rapidly or effectively than we are able to, which would adversely affect our competitive position, the likelihood that our products will achieve initial market acceptance, and our ability to generate meaningful additional revenues from our products.

If we are unsuccessful in adding users to our platform or if our platform users decrease their level of engagement, our revenue, financial results, and business may be significantly harmed.

We have launched a platform for SMS communications messaging. The size of our user base on the platform and our users' level of engagement will be critical to our success. Our financial performance will be significantly determined by our success in adding, retaining, and engaging active users of our platform and the services offered. If people do not perceive our platform or services to be useful, reliable, and trustworthy, we may not be able to attract or retain users or otherwise maintain or increase the frequency and duration of their engagement. There is no guarantee that we will not experience an erosion of our active user base or engagement levels in the future.

Industry consolidation may result in increased competition, which could result in a loss of customers or a reduction in revenue.

Some of our competitors have made or may make acquisitions or may enter into partnerships or other strategic relationships to offer more comprehensive services than they individually had offered or achieve greater economies of scale. In addition, new entrants not currently considered to be competitors may enter our market through acquisitions, partnerships or strategic relationships. We expect these trends to continue as companies attempt to strengthen or maintain their market positions. The potential entrants may have competitive advantages over us, such as greater name recognition, longer operating histories, more varied services and larger marketing budgets, as well as greater financial, technical and other resources. The companies resulting from combinations or that expand or vertically integrate their business to include the market that we address may create more compelling service offerings and may offer greater pricing flexibility than we can or may engage in business practices that make it more difficult for us to compete effectively, including on the basis of price, sales and marketing programs, technology or service functionality. These pressures could result in a substantial loss of our customers or a reduction in our revenue.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success in existing markets and will be critical to our success as we enter new markets. Any incident that erodes consumer loyalty for our brand could significantly reduce its value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correction.

We have not prepared any audited financial statements.

The financial statements attached as Exhibit A to this Form C have been "reviewed" only and such financial statements have not been verified with outside evidence as to management's amounts and disclosures. Additionally, tests on

internal controls have not been conducted. Therefore, you will have no audited financial information regarding the Company's capitalization or assets or liabilities on which to make your investment decision.

Our business could be negatively impacted by cyber security threats, attacks and other disruptions.

We may face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including "bugs" and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

Security breaches of confidential customer information, in connection with our electronic processing of credit and debit card transactions, or confidential employee information may adversely affect our business.

Our business requires the collection, transmission and retention of personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that data is critical to us. The information, security and privacy requirements imposed by governmental regulation are increasingly demanding. Our systems may not be able to satisfy these changing requirements and customer and employee expectations, or may require significant additional investments or time in order to do so. A breach in the security of our information technology systems or those of our service providers could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss or misappropriation of, or access to, customers' or other proprietary data or other breach of our information technology systems could result in fines, legal claims or proceedings.

The use of individually identifiable data by our business, our business associates and third parties is regulated at the state, federal and international levels.

The regulation of individual data is changing rapidly, and in unpredictable ways. A change in regulation could adversely affect our business, including causing our business model to no longer be viable. Costs associated with information security – such as investment in technology, the costs of compliance with consumer protection laws and costs resulting from consumer fraud – could cause our business and results of operations to suffer materially. Additionally, the success of our online operations depends upon the secure transmission of confidential information over public networks, including the use of cashless payments. The intentional or negligent actions of employees, business associates or third parties may undermine our security measures. As a result, unauthorized parties may obtain access to our data systems and misappropriate confidential data. There can be no assurance that advances in computer capabilities, new discoveries in the field of cryptography or other developments will prevent the compromise of our customer transaction processing capabilities and personal data. If any such compromise of our security or the security of information residing with our business associates or third parties were to occur, it could have a material adverse effect on our reputation, operating results and financial condition. Any compromise of our data security may materially increase the costs we incur to protect against such breaches and could subject us to additional legal risk.

The Company is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.

The Company may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) Company, the Company is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Company's financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the

Company of such compliance could be substantial and could have a material adverse effect on the Company's results of operations.

Changes in federal, state or local laws and government regulation could adversely impact our business.

The Company is subject to legislation and regulation at the federal and local levels and, in some instances, at the state level. New laws and regulations may impose new and significant disclosure obligations and other operational, marketing and compliance-related obligations and requirements, which may lead to additional costs, risks of non-compliance, and diversion of our management's time and attention from strategic initiatives. Additionally, federal, state and local legislators or regulators may change current laws or regulations which could adversely impact our business. Further, court actions or regulatory proceedings could also change our rights and obligations under applicable federal, state and local laws, which cannot be predicted. Modifications to existing requirements or imposition of new requirements or limitations could have an adverse impact on our business.

We operate in a highly regulated environment, and if we are found to be in violation of any of the federal, state, or local laws or regulations applicable to us, our business could suffer.

We are also subject to a wide range of federal, state, and local laws and regulations. The violation of these or future requirements or laws and regulations could result in administrative, civil, or criminal sanctions against us, which may include fines, a cease and desist order against the subject operations or even revocation or suspension of our license to operate the subject business. As a result, we may incur capital and operating expenditures and other costs to comply with these requirements and laws and regulations.

Changes in employment laws or regulation could harm our performance.

Various federal and state labor laws govern our relationship with our employees and affect operating costs. These laws include minimum wage requirements, overtime pay, healthcare reform and the implementation of the Patient Protection and Affordable Care Act, unemployment tax rates, workers' compensation rates, citizenship requirements, union membership and sales taxes. A number of factors could adversely affect our operating results, including additional government-imposed increases in minimum wages, overtime pay, paid leaves of absence and mandated health benefits, mandated training for employees, increased tax reporting and tax payment requirements for employees who receive tips, a reduction in the number of states that allow tips to be credited toward minimum wage requirements, changing regulations from the National Labor Relations Board and increased employee litigation including claims relating to the Fair Labor Standards Act.

Affiliates of the Company, including officers, directors and existing shareholders of the Company, may invest in this Offering and their funds will be counted toward the Company achieving the Minimum Amount.

There is no restriction on affiliates of the Company, including its officers, directors and existing shareholders, investing in the Offering. As a result, it is possible that if the Company has raised some funds, but not reached the Minimum Amount, affiliates can contribute the balance so that there will be a closing. The Minimum Amount is typically intended to be a protection for investors and gives investors confidence that other investors, along with them, are sufficiently interested in the Offering and the Company and its prospects to make an investment of at least the Minimum Amount. By permitting affiliates to invest in the offering and make up any shortfall between what non-affiliate investors have invested and the Minimum Amount, this protection is largely eliminated. Investors should be aware that no funds other than their own and those of affiliates investing along with them may be invested in this Offering.

Risks Related to the Offering

State and federal securities laws are complex, and the Company could potentially be found to have not complied with all relevant state and federal securities law in prior offerings of securities.

The Company has conducted previous offerings of securities and may not have complied with all relevant state and federal securities laws. If a court or regulatory body with the required jurisdiction ever concluded that the Company may have violated state or federal securities laws, any such violation could result in the Company being required to offer rescission rights to investors in such offering. If such investors exercised their rescission rights, the Company would have to pay to such investors an amount of funds equal to the purchase price paid by such investors plus interest from the date of any such purchase. No assurances can be given the Company will, if it is required to offer such

investors a rescission right, have sufficient funds to pay the prior investors the amounts required or that proceeds from this Offering would not be used to pay such amounts.

In addition, if the Company violated federal or state securities laws in connection with a prior offering and/or sale of its securities, federal or state regulators could bring an enforcement, regulatory and/or other legal action against the Company which, among other things, could result in the Company having to pay substantial fines and be prohibited from selling securities in the future.

The U.S. Securities and Exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C/A is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C/A, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C/A and the accompanying exhibits.

The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

The Company has the right to extend the Offering Deadline.

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Offering Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Target Offering Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Offering Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

The Company may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering – it also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, an intermediate close (also known as a rolling close) of the Offering can occur, which will allow the Company to draw down on seventy percent (70%) of Investor proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

Risks Related to the Securities

Investors will not have voting rights, even upon conversion of the Securities and will grant a third-party nominee broad power and authority to act on their behalf.

In connection with investing in this Offering to purchase a Crowd SAFE ((Simple Agreement for Future Equity) investors will designate Republic Investment Services LLC (f/k/a NextSeed Services, LLC) (the “**Nominee**”) to act on their behalf as agent and proxy in all respects. The Nominee will be entitled, among other things, to exercise any voting rights (if any) conferred upon the holder of the Securities or any securities acquired upon their conversion, to execute on behalf of an investor all transaction documents related to the transaction or other corporate event causing the conversion of the Securities, and as part of the conversion process the Nominee has the authority to open an account in the name of a qualified custodian, of the Nominee’s sole discretion, to take custody of any securities acquired upon conversion of the Securities. Thus, by participating in the Offering, investors will grant broad discretion to a third party (the Nominee and its agents) to take various actions on their behalf, and investors will essentially not be able to vote upon matters related to the governance and affairs of the Company nor take or effect actions that might otherwise be available to holders of the Securities and any securities acquired upon their conversion. Investors should not participate in the Offering unless he, she or it is willing to waive or assign certain rights that might otherwise be afforded to a holder of the Securities to the Nominee and grant broad authority to the Nominee to take certain actions on behalf of the investor, including changing title to the Security.

The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof. If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distribute, as relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the Terms of the Securities, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Securities, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services.

Investors will not become equity holders until the Company decides to convert the Securities or until there is a change of control or sale of substantially all of the Company’s assets. The Investor may never directly hold equity in the Company.

Investors will not have an ownership claim to the Company or to any of its assets or revenues for an indefinite amount of time and depending on when and how the Securities are converted, the Investors may never become equity holders

of the Company. Investors will not become equity holders of the Company unless the Company receives a future round of financing great enough to trigger a conversion and the Company elects to convert the Securities. The Company is under no obligation to convert the Securities. In certain instances, such as a sale of the Company or substantially all of its assets, an initial public offering or a dissolution or bankruptcy, the Investors may only have a right to receive cash, to the extent available, rather than equity in the Company. Further, the Investor may never become an equity holder, merely a beneficial owner of an equity interest, should the Company or the Nominee decide to move the Crowd SAFE or the securities issuable thereto into a custodial relationship.

Investors will not have voting rights, even upon conversion of the Securities.

Investors will not have the right to vote upon matters of the Company even if and when their Securities are converted (the occurrence of which cannot be guaranteed). Under the terms of the Securities, a third-party designated by the Company will exercise voting control over the Securities. Upon conversion, the Securities will **continue** to be voted in line with the designee identified or pursuant to a voting agreement related to the equity securities the Security is converted into. For example, if the Securities are converted in connection with an offering of Series B Preferred Stock, Investors would directly or beneficially receive securities in the form of shares of Series B-CF Preferred Stock and such shares would be required to be subject to the terms of the Securities that allows a designee to vote their shares of Series B-CF Preferred Stock consistent with the terms of the Security. Thus, Investors will essentially never be able to vote upon any matters of the Company unless otherwise provided for by the Company.

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C/A and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

Investors will be unable to declare the Security in “default” and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any “default” provisions upon which Investors will be able to demand repayment of their investment. The Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Investors have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may Investors demand payment and even then, such payments will be limited to the amount of cash available to the Company.

The Company may never elect to convert the Securities or undergo a liquidity event and Investors may have to hold the Securities indefinitely.

The Company may never conduct a future equity financing or elect to convert the Securities if such future equity financing does occur. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an initial public offering. If neither the conversion of the Securities nor a liquidity event occurs, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distribute, as relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the terms of the Securities, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Securities, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services. The Securities are not equity interests, have no ownership rights, have no rights to the Company’s assets or profits and have no voting rights or ability to direct the Company or its actions.

Any equity securities acquired upon conversion of the Securities may be significantly diluted as a consequence of subsequent equity financings.

The Company's equity securities will be subject to dilution. The Company intends to issue additional equity to employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of equity securities resulting from the conversion of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor's control and economic interests in the Company.

The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Company's needs, the Company may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

In addition, the Company has certain equity grants and convertible securities outstanding. Should the Company enter into a financing that would trigger any conversion rights, the converting securities would further dilute the equity securities receivable by the holders of the Securities upon a qualifying financing.

Any equity securities issued upon conversion of the Securities may be substantially different from other equity securities offered or issued by the Company at the time of conversion.

In the event the Company decides to exercise the conversion right, the Company will convert the Securities into equity securities that are materially different from the equity securities being issued to new investors at the time of conversion in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. Additionally, any equity securities issued at the First Equity Financing Price (as defined in the Crowd SAFE agreement) shall have only such preferences, rights, and protections in proportion to the First Equity Financing Price and not in proportion to the price per share paid by new investors receiving the equity securities. Upon conversion of the Securities, the Company may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Company.

The forgoing paragraph is only a summary of a portion of the conversion feature of the Securities; it is not intended to be complete, and is qualified in its entirety by reference to the full text of the Crowd SAFE agreement, which is attached as Exhibit B.

There is no present market for the Securities and we have arbitrarily set the price.

The Offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our asset value, net worth, revenues or other established criteria of value. We cannot guarantee that the Securities can be resold at the Offering price or at any other price.

In the event of the dissolution or bankruptcy of the Company, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.

In the event of the dissolution or bankruptcy of the Company, the holders of the Securities that have not been converted will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred stock, have been paid in full. No holders of any of the Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Company.

While the Securities provide mechanisms whereby holders of the Securities would be entitled to a return of their subscription amount upon the occurrence of certain events, if the Company does not have sufficient cash on hand, this obligation may not be fulfilled.

Upon the occurrence of certain events, as provided in the Securities, holders of the Securities may be entitled to a return of the principal amount invested. Despite the contractual provisions in the Securities, this right cannot be guaranteed if the Company does not have sufficient liquid assets on hand. Therefore, potential Investors should not assume a guaranteed return of their investment amount.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C/A and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C/A, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

BUSINESS

The Company's Products and/or Services

Product / Service	Description	Current Market
SuperPhone Account	High-Volume SMS messaging CRM Platform	Retail sales organizations and e-commerce brands.

Competition

The markets in which our products are sold are highly competitive. Our products compete against similar products of many large and small companies, including well-known global competitors. Product quality, performance and value are also important differentiating factors.

There are strong SMS API services that developers can integrate to apps they are building. SuperPhone focuses on making SMS customization simple for non-developers. Other solutions target e-commerce brands of various sizes looking for a one-way, mass marketing platform to extend their communication infrastructure. Our Company, while able to service these needs as well, has found success by enabling retail sales associates with our uniquely dynamic inbox for any volume of texts.

Our main competitors are (i) Attentive Mobile; (ii) Community; (iii) Postscript; and (iv) Emotive.

Customer Base

We license our platform to the business-to-business market. We assist brands in reaching and communicating with their most engaged client base.

Supply Chain

Although the Company is dependent upon certain third party vendors, mainly Twilio and Amazon Web Services, the Company has access to alternate service providers in the event its current third-party vendors are unable to provide services or any issues arise with its current vendors where a change is required to be made. The Company does not believe the loss of a current third-party vendor or service provider would cause a major disruption to its business, although it could cause short-term limitations or disruptions.

INDEPENDENT ACCOUNTANT'S REVIEW REPORT

To the Board of Directors
Disruptive Multimedia, Inc.
New York, New York

We have reviewed the accompanying financial statements of Disruptive Multimedia, Inc., which comprise the balance sheet as of December 31, 2021, and the related statement of income, statement of equity and statement of cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion. We are required to be independent of Disruptive Multimedia, Inc. and to meet our ethical responsibilities, in accordance with relevant ethical requirements related to our review.

Accountant's Conclusion

Based on our review, we are not aware of any material modification that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 7, certain conditions raise an uncertainty about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our conclusion is not modified with respect to this matter.

1. Summary of Significant Accounting Policies

The Company

Disruptive Multimedia, Inc. dba SuperPhone (the "Company") was incorporated in the State of Delaware on March 4, 2014. The Company is a communication platform that integrates with multiple applications to increase customer awareness for e-commerce and retail brands. The Company's headquarters are located in New York, New York.

Going Concern

Since Inception, the Company has relied on SAFE obligations and stock issuances to fund its operations. As of December 31, 2021, the Company will likely incur losses prior to generating positive working capital. These matters raise substantial concern about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent on the Company's ability to raise short term capital, as well as the Company's ability to generate funds through revenue producing activities.

Fiscal Year

The Company operates on a December 31st year-end.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles (US GAAP).

Use of Estimates

The preparation of the financial statement in conformity with accounting principles generally accepted in the United States of America requires the use of management's estimates. These estimates are subjective in nature and involve judgments that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at fiscal year-end. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid financial instruments purchased with maturities of three months or less to be cash equivalents. As of December 31, 2021, the Company held no cash equivalents.

Risks and Uncertainties

The Company has a limited operating history. The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could cause fluctuations in these conditions.

The Coronavirus Disease of 2019 (COVID-19) has recently affected global markets, supply chains, employees of companies, and our communities. Specific to the Company, COVID-19 may impact various parts of its 2022 operations and financial results including shelter in place orders, material supply chain interruption, economic hardships affecting funding for the Company's operations, and affects the Company's workforce. Management believes the Company is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as of December 31, 2021.

See independent accountant's review report.

1. Summary of Significant Accounting Policies (continued)

Accounts Receivable

The Company's trade receivables are recorded when billed and represent claims against third parties that will be settled in cash. The carrying value of the Company's receivables, net of the allowance for doubtful accounts, represents their estimated net realizable value.

The Company evaluates the collectability of accounts receivable on a customer-by-customer basis. The Company records a reserve for bad debts against amounts due to reduce the net recognized receivable to an amount the Company believes will be reasonably collected. The reserve is a discretionary amount determined from the analysis of the aging of the accounts receivables, historical experience and knowledge of specific customers. As of December 31, 2021, the Company believed all amounts in accounts receivable were collectable.

Software Development Costs

Software development costs are expensed as incurred until technological feasibility has been established, at which time, such costs are capitalized until the product is available for general release to customers. To date, the Company's software has been available for general release concurrent with the establishment of technological feasibility and, accordingly, no development costs have been capitalized.

Intangible Assets

The Company accounts for intangible assets (including trademarks and patents) in accordance with ASC 350 "Intangibles-Goodwill and Other" ("ASC 350"). ASC 350 requires that goodwill and other intangibles with indefinite lives be tested for impairment annually or on an interim basis if events or circumstances indicate that the fair value of an asset has decreased below its carrying value. In addition, ASC 350 requires that goodwill be tested for impairment at the reporting unit level (operating segment or one level below an operating segment) on an annual basis and between annual tests when circumstances indicate that the recoverability of the carrying amount of goodwill may be in doubt. Application of the goodwill impairment test requires judgment, including the identification of reporting units; assigning assets and liabilities to reporting units; assigning goodwill to reporting units; and determining the fair value. Significant judgments required to estimate the fair value of reporting units include estimating future cash flows, determining appropriate discount rates and other assumptions. Changes in these estimates and assumptions or the occurrence of one or more confirming events in future periods could cause the actual results or outcomes to materially differ from such estimates and could also affect the determination of fair value and/or goodwill impairment at future reporting dates.

The Company amortizes the cost of our intangible assets over the 15-year estimated useful life on a straight-line basis. Amortization expense amounted to \$497 for the year ended December 31, 2021.

Property and Equipment

Property and equipment is stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Office equipment is depreciated over three years, while vehicles are depreciated over five years. Repair and maintenance costs are charged to operations as incurred and major improvements are capitalized. The Company reviews the carrying amount of fixed assets whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable.

See independent accountant's review report.

1. Summary of Significant Accounting Policies (continued)

Income Taxes

The Company complies with FASB ASC 740 for accounting for uncertainty in income taxes recognized in a company's financial statements, which prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. FASB ASC 740 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Based on the Company's evaluation, it has been concluded that there are no significant uncertain tax positions requiring recognition in the Company's financial statements. The Company believes that its income tax positions would be sustained on audit and does not anticipate any adjustments that would result in a material change to its financial position.

The Company is subject to tax filing requirements as a C Corporation in the federal jurisdiction of the United States. The Company sustained net operating losses for tax purposes during prior fiscal years. Net operating losses will be carried forward to reduce taxable income in future years. Under current law, net operating losses may be carried forward indefinitely.

The Company is subject to franchise and income tax filing requirements in the States of Delaware and New York.

Fair Value of Financial Instruments

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants as of the measurement date. Applicable accounting guidance provides an established hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability and are developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the factors that market participants would use in valuing the asset or liability. There are three levels of inputs that may be used to measure fair value:

- | | |
|---------|--|
| Level 1 | - Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets. |
| Level 2 | - Include other inputs that are directly or indirectly observable in the marketplace. |
| Level 3 | - Unobservable inputs which are supported by little or no market activity. |

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

Fair-value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of Inception. Fair values were assumed to approximate carrying values because of their short term in nature or they are payable on demand.

See independent accountant's review report.

1. Summary of Significant Accounting Policies (continued)

Concentrations of Credit Risk

From time-to-time cash balances, held at a major financial institution may exceed federally insured limits of \$250,000. Management believes that the financial institution is financially sound, and the risk of loss is low.

Revenue Recognition

Effective January 1, 2019, the Company adopted Accounting Standards Codification 606, Revenue from Contracts with Customers ("ASC 606"). Revenue is recognized when performance obligations under the terms of the contracts with our customers are satisfied. Prior to the adoption of ASC 606, the Company recognized revenue when persuasive evidence of an arrangement existed, delivery of products had occurred, the sales price was fixed or determinable and collectability was reasonably assured. The Company generates revenues by selling communication services. The Company's payments are generally collected upfront. For the year ending December 31, 2021, the Company recognized \$1,954,546 in revenue.

Stock Compensation Expense

ASC 718, Compensation – Stock Compensation, prescribes accounting and reporting standards for all share-based payment transactions. Transactions include incurring liabilities, or issuing or offering to issue shares, options, and other equity instruments such as employee stock ownership plans and stock appreciation rights. Share-based payments to employees and non-employees, including grants of employee stock options, are recognized as compensation expense in the financial statements based on their fair values at the grant date. That expense is recognized over the period during which an employee is required to provide services in exchange for the award, known as the requisite service period (usually the vesting period).

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of ASC 505-50, Equity – Based Payments to Non-Employees. Measurement of share-based payment transactions with non-employees is based on the fair grant date FV of equity instruments. The fair value of the share-based payment transaction is determined at the earlier of performance commitment date or performance completion date. Share-based compensation expense for the year ended December 31, 2021, was \$4,822.

Advertising Expenses

The Company expenses advertising costs as they are incurred.

Organizational Costs

In accordance with FASB ASC 720, organizational costs, including accounting fees, legal fee, and costs of incorporation, are expensed as incurred.

New Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board, or FASB, or other standard setting bodies and adopted by the Company as of the specified effective date. Unless otherwise discussed, the Company believes that the impact of recently issued standards that are not yet effective will not have a material impact on its financial position or results of operations upon adoption.

In August 2020, the FASB issued ASU 2020 – 06, *Debt, Debt with conversion and other options (Subtopic 470-20) and derivatives and hedging – contracts in an entity's own equity (Subtopic 815-40: Accounting for convertible instruments and contracts in an entity's own equity*. preferred stock. Limiting the accounting models results in fewer embedded conversion features being separately recognized from the host contract as compared with current GAAP. ASU 2020 – 06 is effective for fiscal years beginning after December 15, 2023. Early adoption is permitted, but no earlier than fiscal years beginning after December 15, 2020.

In August 2018, amendments to existing accounting guidance were issued through Accounting Standards Update 2018-15 to clarify the accounting for implementation costs for cloud computing arrangements. The amendments specify that existing guidance for capitalizing implementation costs incurred to develop or obtain internal-use software also applies to implementation costs incurred in a hosting arrangement that is a service contract. The guidance is effective for fiscal years beginning after December 15, 2020, and interim periods within fiscal years beginning after December 15, 2021, and early application is permitted. The adoption of ASU 2018-15 had no material impact on the Company's financial statements and related disclosures.

2. Commitments and Contingencies

The Company is not currently involved with and does not know of any pending or threatening litigation against the Company or its members.

The Company entered into an office lease arrangement for an office in New York City. The arrangement is an at will lease. The Lease expense for the year ended December 31, 2021 and totaled \$41,412.

3. Property and Equipment

Property and equipment consisted of the following at December 31, 2021:

Property and equipment at cost:

Office Equipment	\$ 26,007
Motor Vehicles	<u>41,714</u>
	67,721

4. SAFE Obligations

Since inception, the Company issued Simple Agreements for Future Equity ("SAFE"). The SAFE agreements have no maturity date and bear no interest. The SAFE agreements provide a right to the holder to future equity in the Company in the form of SAFE Preferred Stock. SAFE Preferred Stock are shares of a series of Preferred Stock issued to the investor in an equity financing, having identical rights, privileges, preferences and restrictions as the shares of standard Preferred Stock

offered to non-holders of SAFE agreements other than with respect to: (i) the per share liquidation preference and the conversion price for purposes of price-based anti-dilution protection, which will equal the conversion price; and (ii) the basis for any dividend rights, which will be based on the conversion price. The number of shares issued to the holder is determined by either (1) the face value of the SAFE agreement divided by the price per share of the standard preferred stock issued, if the pre-money valuation is less than or equal to the valuation cap; or (2) a number of shares of SAFE Preferred Stock equal to the face value of the SAFE agreement divided by the price per share equal to the valuation cap divided by the total capitalization of the company immediately prior to an equity financing event. Total capitalization of the company includes all shares of capital stock issued and outstanding and outstanding vested and unvested options as if converted.

If there is a liquidity event (as defined in the SAFE agreements), the investor will, at their option, either (i) receive a cash payment equal to the face value of the SAFE agreement ("Purchase Amount") or (ii) automatically receive from the Company a number of shares of common stock equal to the Purchase Amount divided by the price per share equal to the valuation cap divided by the Liquidity Capitalization ("Liquidity Price") (as defined in the SAFE agreements). If there are not enough funds to pay the holders of SAFE agreements in full, then all of the Company's available funds will be distributed with equal priority and pro-rata among the SAFE agreement holders in proportion to their Purchase Amounts and they will automatically receive the number of shares of common stock equal to the remaining unpaid Purchase Amount divided by the Liquidity Price.

If there is a dissolution event (as defined in the SAFE agreements), the Company will pay an amount equal to the Purchase Amount, due and payable to the investor immediately prior to, or concurrent with, the consummation of the dissolution event. The Purchase Amount will be paid prior and in preference to any distribution of any of the assets of the Company to holders of outstanding capital stock. If immediately prior to the consummation of the dissolution event, the assets of the Company legally available for distribution to all SAFE holders, are insufficient to permit the payment to their respective Purchase Amounts, then all of the assets of the Company legally available for distribution will be distributed with equal priority and pro-rata among the SAFE holders as a single class.

The SAFE agreements will expire and terminate upon either (i) the issuance of shares to the investor pursuant to an equity financing event or (ii) the payment, or setting aside for payment, of amounts due to the investor pursuant to a liquidity or dissolution event.

As of December 31, 2021, no SAFE agreements had been converted into equity, nor had any terminated or expired based on the terms of the agreements. As of December 31, 2021, the Company had \$250,000 of SAFE obligations outstanding, with a valuation cap of \$15,000,000 and discount rates of 80%.

The Company accounts for the SAFE agreements under ASC 480 (Distinguishing Liabilities from Equity), which requires that they be recorded at fair value as of the balance sheet date. Any changes in fair value are to be recorded in the statement of income.

See independent accountant's review report.

INDEPENDENT ACCOUNTANT'S REVIEW REPORT

To the Board of Directors
Disruptive Multimedia, Inc.
New York, New York

We have reviewed the accompanying financial statements of Disruptive Multimedia, Inc., which comprise the balance sheets as of December 31, 2020, and 2019, and the related statements of income, statements of equity and statements of cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

1. Summary of Significant Accounting Policies

The Company

Disruptive Multimedia, Inc. dba SuperPhone (the "Company") was incorporated in the State of Delaware on March 4, 2014. The Company is a communication platform that integrates with multiple applications to increase customer awareness for e-commerce and retail brands. The Company's headquarters are located in New York, New York.

Going Concern

Since Inception, the Company has relied on SAFE obligations and stock issuances to fund its operations. As of December 31, 2020, the Company will likely incur losses prior to generating positive working capital. These matters raise substantial concern about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent on the Company's ability to raise short term capital, as well as the Company's ability to generate funds through revenue producing activities.

Fiscal Year

The Company operates on a December 31st year-end.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles (US GAAP).

Use of Estimates

The preparation of the financial statement in conformity with accounting principles generally accepted in the United States of America requires the use of management's estimates. These estimates are subjective in nature and involve judgments that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at fiscal year-end. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid financial instruments purchased with maturities of three months or less to be cash equivalents. As of December 31, 2020, and 2019, the Company held no cash equivalents.

Risks and Uncertainties

The Company has a limited operating history. The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could cause fluctuations in these conditions.

The Coronavirus Disease of 2019 (COVID-19) has recently affected global markets, supply chains, employees of companies, and our communities. Specific to the Company, COVID-19 may impact various parts of its 2021 operations and financial results including shelter in place orders, material supply chain interruption, economic hardships affecting funding for the Company's operations, and affects the Company's workforce. Management believes the Company is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as of December 31, 2020.

See independent accountant's review report.

1. Summary of Significant Accounting Policies (continued)

Accounts Receivable

The Company's trade receivables are recorded when billed and represent claims against third parties that will be settled in cash. The carrying value of the Company's receivables, net of the allowance for doubtful accounts, represents their estimated net realizable value.

The Company evaluates the collectability of accounts receivable on a customer-by-customer basis. The Company records a reserve for bad debts against amounts due to reduce the net recognized receivable to an amount the Company believes will be reasonably collected. The reserve is a discretionary amount determined from the analysis of the aging of the accounts receivables, historical experience and knowledge of specific customers. As of December 31, 2020, and 2019, the Company recorded \$9,062 and \$10,012, respectively, as an allowance for doubtful accounts.

Software Development Costs

Software development costs are expensed as incurred until technological feasibility has been established, at which time, such costs are capitalized until the product is available for general release to customers. To date, the Company's software has been available for general release concurrent with the establishment of technological feasibility and, accordingly, no development costs have been capitalized.

Software development costs incurred and charged to research and development expense totaled \$397,500 and \$310,892 for the years ended December 31, 2020, and December 31, 2019, respectively.

Property and Equipment

Property and equipment is stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Office equipment is depreciated over three years, while vehicles are depreciated over five years. Repair and maintenance costs are charged to operations as incurred and major improvements are capitalized. The Company reviews the carrying amount of fixed assets whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable.

Income Taxes

The Company complies with FASB ASC 740 for accounting for uncertainty in income taxes recognized in a company's financial statements, which prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. FASB ASC 740 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Based on the Company's evaluation, it has been concluded that there are no significant uncertain tax positions requiring recognition in the Company's financial statements. The Company believes that its income tax positions would be sustained on audit and does not anticipate any adjustments that would result in a material change to its financial position.

The Company is subject to tax filing requirements as a C Corporation in the federal jurisdiction of the United States. The Company sustained net operating losses for tax purposes during prior fiscal years. Net operating losses will be carried forward to reduce taxable income in future years. Under current law, net operating losses may be carried forward indefinitely.

See independent accountant's review report.

1. Summary of Significant Accounting Policies (continued)

Income Taxes (continued)

The Company is subject to franchise and income tax filing requirements in the States of Delaware and New York.

Fair Value of Financial Instruments

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants as of the measurement date. Applicable accounting guidance provides an established hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability and are developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the factors that market participants would use in valuing the asset or liability. There are three levels of inputs that may be used to measure fair value:

- | | |
|---------|--|
| Level 1 | - Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets. |
| Level 2 | - Include other inputs that are directly or indirectly observable in the marketplace. |
| Level 3 | - Unobservable inputs which are supported by little or no market activity. |

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

Fair-value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of Inception. Fair values were assumed to approximate carrying values because of their short term in nature or they are payable on demand.

Concentrations of Credit Risk

From time-to-time cash balances, held at a major financial institution may exceed federally insured limits of \$250,000. Management believes that the financial institution is financially sound, and the risk of loss is low.

Revenue Recognition

Effective January 1, 2019, the Company adopted Accounting Standards Codification 606, Revenue from Contracts with Customers ("ASC 606"). Revenue is recognized when performance obligations under the terms of the contracts with our customers are satisfied. Prior to the adoption of ASC 606, the Company recognized revenue when persuasive evidence of an arrangement existed, delivery of products had occurred, the sales price was fixed or determinable and collectability was reasonably assured. The Company generates revenues by selling communication services. The Company's payments are generally collected upfront. For years ending December 31, 2020, and 2019 the Company recognized \$1,380,769 and \$742,253 in revenue, respectively.

1. Summary of Significant Accounting Policies (continued)

Stock Compensation Expense

ASC 718, Compensation – Stock Compensation, prescribes accounting and reporting standards for all share-based payment transactions. Transactions include incurring liabilities, or issuing or offering to issue shares, options, and other equity instruments such as employee stock ownership plans and stock appreciation rights. Share-based payments to employees and non-employees, including grants of employee stock options, are recognized as compensation expense in the financial statements based on their fair values at the grant date. That expense is recognized over the period during which an employee is required to provide services in exchange for the award, known as the requisite service period (usually the vesting period).

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of ASC 505-50, Equity – Based Payments to Non-Employees. Measurement of share-based payment transactions with non-employees is based on the fair grant date FV of equity instruments. The fair value of the share-based payment transaction is determined at the earlier of performance commitment date or performance completion date. Share-based compensation expense for the years ended December 31, 2020 and 2019 was \$15,980 and \$23,485, respectively.

Advertising Expenses

The Company expenses advertising costs as they are incurred.

Organizational Costs

In accordance with FASB ASC 720, organizational costs, including accounting fees, legal fee, and costs of incorporation, are expensed as incurred.

New Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board, or FASB, or other standard setting bodies and adopted by the Company as of the specified effective date. Unless otherwise discussed, the Company believes that the impact of recently issued standards that are not yet effective will not have a material impact on its financial position or results of operations upon adoption.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, or ASU 2016-02, which supersedes the guidance in ASC 840, *Leases*. The new standard requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. This guidance is effective for annual reporting periods beginning after December 15, 2021 for non-public entities. Management is still evaluating the adoption of ASU 2016-02 and if it will have a material impact on the Company's financial statements and related disclosures.

In August 2020, the FASB issued ASU 2020 – 06, *Debt, Debt with conversion and other options (Subtopic 470-20) and derivatives and hedging – contracts in an entity's own equity (Subtopic 815-40: Accounting for convertible instruments and contracts in an entity's own equity)*. ASU 2020-06 reduces the number of accounting models for convertible debt instruments and convertible

preferred stock. Limiting the accounting models results in fewer embedded conversion features being separately recognized from the host contract as compared with current GAAP. ASU 2020 – 06 is effective for fiscal years beginning after December 15, 2023. Early adoption is permitted, but no earlier than fiscal years beginning after December 15, 2020.

In August 2018, amendments to existing accounting guidance were issued through Accounting Standards Update 2018-15 to clarify the accounting for implementation costs for cloud computing arrangements. The amendments specify that existing guidance for capitalizing implementation costs incurred to develop or obtain internal-use software also applies to implementation costs incurred in a hosting arrangement that is a service contract. The guidance is effective for fiscal years beginning after December 15, 2020, and interim periods within fiscal years beginning after December 15, 2021, and early application is permitted. The adoption of ASU 2018-15 had no material impact on the Company's financial statements and related disclosures.

2. Commitments and Contingencies

The Company is not currently involved with and does not know of any pending or threatening litigation against the Company or its members.

3. Property and Equipment

Property and equipment consisted of the following at December 31, 2020 and 2019:

Property and equipment at cost:	<u>2020</u>	<u>2019</u>
Office Equipment	\$ 15,518	\$ 15,518

Less: Accumulated depreciation	<u>45,657</u>	<u>32,406</u>
Total	<u>\$ 11,575</u>	<u>\$ 24,826</u>

4. SAFE Obligations

Since inception, the Company issued Simple Agreements for Future Equity ("SAFE"). The SAFE agreements have no maturity date and bear no interest. The SAFE agreements provide a right to the holder to future equity in the Company in the form of SAFE Preferred Stock. SAFE Preferred Stock are shares of a series of Preferred Stock issued to the investor in an equity financing, having identical rights, privileges, preferences and restrictions as the shares of standard Preferred Stock offered to non-holders of SAFE agreements other than with respect to: (i) the per share liquidation preference and the conversion price for purposes of price-based anti-dilution protection, which will equal the conversion price; and (ii) the basis for any dividend rights, which will be based on the conversion price. The number of shares issued to the holder is determined by either (1) the face

value of the SAFE agreement divided by the price per share of the standard preferred stock issued, if the pre-money valuation is less than or equal to the valuation cap; or (2) a number of shares of SAFE Preferred Stock equal to the face value of the SAFE agreement divided by the price per share equal to the valuation cap divided by the total capitalization of the company immediately prior to an equity financing event. Total capitalization of the company includes all shares of capital stock issued and outstanding and outstanding vested and unvested options as if converted.

If there is a liquidity event (as defined in the SAFE agreements), the investor will, at their option, either (i) receive a cash payment equal to the face value of the SAFE agreement ("Purchase Amount") or (ii) automatically receive from the Company a number of shares of common stock equal to the Purchase Amount divided by the price per share equal to the valuation cap divided by the Liquidity Capitalization ("Liquidity Price") (as defined in the SAFE agreements). If there are not enough funds to pay the holders of SAFE agreements in full, then all of the Company's available funds will be distributed with equal priority and pro-rata among the SAFE agreement holders in proportion to their Purchase Amounts and they will automatically receive the number of shares of common stock equal to the remaining unpaid Purchase Amount divided by the Liquidity Price.

If there is a dissolution event (as defined in the SAFE agreements), the Company will pay an amount equal to the Purchase Amount, due and payable to the investor immediately prior to, or concurrent with, the consummation of the dissolution event. The Purchase Amount will be paid prior and in preference to any distribution of any of the assets of the Company to holders of outstanding capital stock. If immediately prior to the consummation of the dissolution event, the assets of the Company legally available for distribution to all SAFE holders, are insufficient to permit the payment to their respective Purchase Amounts, then all of the assets of the Company legally available for distribution will be distributed with equal priority and pro-rata among the SAFE holders as a single class.

The SAFE agreements will expire and terminate upon either (i) the issuance of shares to the investor pursuant to an equity financing event or (ii) the payment, or setting aside for payment, of amounts due to the investor pursuant to a liquidity or dissolution event.

As of December 31, 2020, and 2019, no SAFE agreements had been converted into equity, nor had any terminated or expired based on the terms of the agreements. As of December 31, 2020, and 2019, the Company had \$250,000 and nil of SAFE obligations outstanding, with a valuation cap of \$15,000,000 and discount rates of 80%.

The Company accounts for the SAFE agreements under ASC 480 (Distinguishing Liabilities from Equity), which requires that they be recorded at fair value as of the balance sheet date. Any changes in fair value are to be recorded in the statement of income. The Company has determined that the fair value at the date of issuance, and as of December 31, 2020 and 2019 are both consistent with the proceeds received at issuance, and therefore there is no mark-to-market fair value adjustments required, or reflected in income for the years ended December 31, 2020 and 2019.

5. SBA PPP Loan

In 2020, the Company received loan proceeds of \$41,673 under the Paycheck Protection Program ("PPP"). The PPP, established as part of the Coronavirus Aid, Relief and Economic Security Act, provides for loans to qualifying businesses for amounts up to 2.5 times the average monthly payroll expenses of the qualifying business. The PPP Loan and accrued interest are forgivable after twenty-four weeks, as long as the borrower uses the loan proceeds for eligible purposes, including payroll, benefits, rent and utilities, and maintains its payroll levels. The amount of loan forgiveness will be reduced if the borrower terminates employees or reduces salaries during twenty-four-week period.

The PPP Loan is evidenced by a promissory note, between the Company, as Borrower, and The Small Business Association, as Lender. The interest rate on the Note is 1% per annum, with interest accruing on the unpaid principal balance computed on the basis of the actual number of days elapsed in a year of 360 days. No payments of principal or interest are due during the six-month period beginning on the date of the Note.

As noted above, the principal and accrued interest under the Note evidencing the PPP Loan are forgivable after twenty-four weeks as long the Company has used the loan proceeds for eligible purposes, including payroll, benefits, rent and utilities, and maintains its payroll levels. The amount of loan forgiveness will be reduced if the Company terminates employees or reduces salaries during the twenty-four-week period. The Company used the proceeds for purposes consistent with the PPP loan. In order to obtain full or partial forgiveness of the PPP Loan, the Company must request forgiveness and must provide satisfactory documentation in accordance with applicable Small Business Administration ("SBA") guidelines. Interest payable on the Note may be forgiven only if the SBA agrees to pay such interest on the forgiven principal amount of the Note. The Company will be obligated to repay any portion of the principal amount of the Note that is not forgiven, together with interest accrued and accruing thereon at the rate set forth above, until such unforgiven portion is paid in full.

As of December 31, 2020, the Company believes that the PPP funds were used appropriately for all funds to be forgiven once the SBA processes the loan forgiveness application.

EXHIBIT A

Nominee Rider and Waiver

Republic Investment Services LLC (f/k/a NextSeed Services, LLC) (the “**Nominee**”) is hereby appointed to act on behalf of the Investor as agent and proxy in all respects under the Crowd SAFE Series 2022 issued by DISRUPTIVE MULTIMEDIA, INC. (the “**Security**”). The Nominee shall receive all notices and communications on behalf of the Investor, and cause the Security, or any securities which may be acquired upon conversion thereof (the “**Conversion Securities**”) to be custodied with a qualified custodian of the Nominee’s sole discretion (“**Custodial Conversion**”). The Nominee is authorized and empowered to undertake Custodial Conversion at any point after issuance of the Securities. To the extent the holders of Securities or Conversion Securities are entitled to vote at any meeting or take action by consent, Nominee is authorized and empowered to vote and act on behalf of Investor in all respects thereto (without prior or subsequent notice to the Investor) until the expiry of the Term (as defined below) (collectively the “**Nominee Services**”). Defined terms used in this Nominee Rider are controlled by the Security unless otherwise defined.

Nominee shall vote all such Securities and Conversion Securities consistently at the direction of the Chief Executive Officer of Disruptive Multimedia, Inc. Neither Nominee nor any of its affiliates nor any of their respective officers, partners, equity holders, managers, officers, directors, employees, agents or representatives shall be liable to Investor for any action taken or omitted to be taken by it hereunder, or in connection herewith or therewith, except for damages caused by its or their own recklessness or willful misconduct.

Upon any conversion of the Securities into Conversion Securities of the Company, in accordance with the terms of the Securities, Nominee will execute and deliver to the Issuer all transaction documents related to such transaction or other corporate event causing the conversion of the Securities in accordance therewith; *provided*, that such transaction documents are the same documents to be entered into by all holders of other Securities of the same class issued by the Company that will convert in connection with the equity financing or corporate event and being the same as the subscribers in the equity financing or corporate transaction. The Investor acknowledges and agrees, as part of the process, the Nominee may open an account in the name of the Investor with a qualified custodian and allow the qualified custodian to take custody of the Conversion Securities in exchange for a corresponding beneficial interest held by the Investor. Upon any such conversion or changing of title, Nominee will take reasonable steps to send notice to the Investor, including by e-mail, using the last known contact information of such Investor.

The “**Term**” the Nominee Services will be provided will be the earlier of the time which the Securities or any Conversion Securities are (i) terminated, (ii) registered under the Exchange Act, or (iii) the time which the Nominee, the Investor and the Company mutually agree to terminate the Nominee Services.

To the extent you provide the Issuer with any personally identifiable information (“**PII**”) in connection with your election to invest in the Securities, the Issuer and its affiliates may share such information with the Nominee, the Intermediary, and the appointed transfer agent for the Securities solely for the purposes of facilitating the offering of the Securities and for each party to provide services with respect to the ownership and administration of the Securities. Investor irrevocably consents to such uses of Investor’s PII for these purposes during the Term and Investor acknowledges that the use of such PII is necessary for the Nominee to provide the Nominee Services.
