THE OFFERING AND THE SECURITIES

The Offering

The Issuer is offering a minimum amount of 7,836 shares of common stock of the Issuer, par value \$0.0001, (the “**Common Stock**” or “**Securities**”) at a price per share of \$3.19 for \$24,996.84 (the “**Target Offering Amount**”) and up to a maximum amount of 783,699 shares of Common Stock at a price per share of \$3.19 for \$2,499,999.81 (the “**Maximum Offering Amount**”) on a best efforts basis as described in this Form C (this “**Offering**”). The Minimum Individual Purchase Amount is \$250, and the Maximum Individual Purchase Amount is \$500,000. The Issuer reserves the right to amend the Minimum Individual Purchase Amount and Maximum Individual Purchase Amount, in its sole discretion. In particular, the Issuer may elect to participate in one of the Intermediary’s special investment programs and may offer alternative Minimum Individual Purchase Amounts and Maximum Individual Purchase Amounts to Investors participating in such programs without notice. The Issuer must raise an amount equal to or greater than the Target Offering Amount by April 30, 2023 (the “**Offering Deadline**”). Unless the Issuer receives investment commitments, which are fully paid for and meet all other requirements set by this Offering, in an amount not less than the Target Offering Amount by the Offering Deadline, no Securities will be sold in this Offering, all investment commitments will be canceled and all committed funds will be returned.

The price of the Securities was determined arbitrarily, does not necessarily bear any relationship to the Issuer’s asset value, net worth, revenues or other objective established criteria of value, and should not be considered indicative of the actual value of the Securities.

In order to purchase the Securities, you must make a commitment to purchase by completing the subscription process hosted by the **Intermediary** (as defined above), including complying with the Intermediary’s know your customer (KYC) and anti-money laundering (AML) policies. **If an Investor makes an investment commitment under a name that is not their legal name, they may be unable to redeem their Security indefinitely, and neither the Intermediary nor the Issuer are required to correct any errors or omissions made by the Investor.**

Investor funds will be held in escrow with a qualified third-party escrow agent meeting the requirements of Regulation CF (“**Escrow Agent**”) until the Target Offering Amount has been met or exceeded and one or more closings occur. Investors may cancel an investment commitment up to 48 hours prior to the Offering Deadline or an intermediate close, using the cancellation mechanism provided by the Intermediary. **Investors using a credit card to invest must represent and warrant to cancel any investment commitment(s) by submitting a request through the Intermediary at least 48 hours prior to the Offering Deadline, instead of attempting to claim fraud or claw back their committed funds. If the investor does not cancel an investment commitment before the 48-hour period prior to the Offering Deadline, the funds will be released to the Issuer and the investor will receive their Securities.**

The Issuer will notify Investors when the Target Offering Amount has been reached through the Intermediary. If the Issuer reaches the Target Offering Amount prior to the Offering Deadline, it may close the Offering early *provided* (i) the expedited Offering Deadline must be twenty-one (21) days from the time the Offering was opened, (ii) the Intermediary must provide at least five (5) business days’ notice prior to the expedited Offering Deadline to the Investors and (iii) the Issuer continues to meet or exceed the Target Offering Amount on the date of the expedited Offering Deadline.

The Deal Page

A description of our products, services and business plan can be found on the Issuer’s profile page on the Intermediary’s website under <https://www.republic.co/guac-app> (the “**Deal Page**”). The Deal Page can be used by prospective Investors to ask the Issuer questions and for the Issuer to post immaterial updates to this Form C as well as make general announcements. You should view the Deal Page at the time you consider making an investment commitment. Updates on the status of this Offering can also be found on the Deal Page.

Material Changes

If any material change occurs related to the Offering prior to the current Offering Deadline the Issuer will provide notice to Investors and receive reconfirmations from Investors who have already made commitments. If an Investor does not reconfirm their investment commitment after a material change is made to the terms of the Offering within

five (5) business days of receiving notice, the Investor's investment commitment will be canceled and the committed funds will be returned without interest or deductions.

Intermediate Closings

In the event an amount equal to two (2) times the Target Offering Amount is committed and meets all required terms of the Offering prior to the Offering Deadline on such date or such later time the Issuer designates pursuant to Rule 304(b) of Regulation CF, the Issuer may conduct the first of multiple closings of the Offering early, *provided* (i) the early closing date must be twenty-one (21) days from the time the Offering opened and (ii) that all Investors will receive notice of such early closing date at least five (5) business days prior to such new offering deadline (absent a material change that would require an extension of the Offering and reconfirmation of all investment commitments). Investors who committed on the date such notice is provided or prior to the issuance of such notice will be able to cancel their investment commitment until 48 hours before such early closing date.

If the Issuer conducts an initial closing (the "**Initial Closing**"), the Issuer agrees to only withdraw seventy percent (70%) of the proceeds that are in escrow and will only conduct such Initial Closing if there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of the Initial Closing. The Issuer may only conduct another close (a "**Subsequent Closing**") before the Offering Deadline if the amount of investment commitments made as of the date of such Subsequent Closing exceeds two times the Target Offering Amount as of the date of the Initial Closing and there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of such Subsequent Closing.

Any investment commitments received after an intermediate closing will be released to the Issuer upon a subsequent closing and the Investor will receive evidence of the Securities via electronic certificate/PDF in exchange for their investment commitment as soon as practicable thereafter.

The Issuer has agreed to return all funds to Investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of whether multiple closings are conducted.

Investment commitments are not binding on the Issuer until they are accepted by the Issuer, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any investment commitment. If the Issuer rejects all or a portion of any investment commitment, the applicable prospective Investor's funds will be returned without interest or deduction.

The Securities

We request that you please review this Form C and the Instrument attached as Exhibit B, in conjunction with the following summary information.

Transfer Agent and Registrar

Colonial Stock Transfer Company, Inc., 66 Exchange Place, Suite 100, Salt Lake City, Utah 84111, (801) 355-5740, acts as the Issuer's transfer agent and registrar.

Dividends

The Securities do not entitle Investors to any dividends.

Dissolution

If there is a **Dissolution Event** (as defined below) before the Securities terminate, subject to the preferences applicable to any series of capital stock then outstanding, the Issuer will distribute all proceeds in accordance with the priority of distribution as outlined in the issuer's corporate charter.

A "**Dissolution Event**" means (i) a voluntary termination of operations by the Issuer, (ii) a general assignment for the benefit of the Issuer's creditors or (iii) any other liquidation, dissolution or winding up of the Issuer (excluding a Liquidity Event), whether voluntary or involuntary.

Voting and Control

Each share of Common Stock is entitled to one (1) vote.

The Issuer does not have any voting agreements in place.

The Issuer does not have any shareholder or equity holder agreements in place.

Anti-Dilution Rights

The Securities do not have anti-dilution rights, which means that future equity issuances and other events will dilute the ownership percentage that Investors may eventually have in the Issuer.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Investor of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: (1) to the Issuer; (2) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act; (3) as part of an IPO; or (4) to a member of the family of the Investor or the equivalent, to a trust controlled by the Investor, to a trust created for the benefit of a member of the family of the Investor or the equivalent, or in connection with the death or divorce of the Investor or other similar circumstances. "Member of the family" as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Each Investor should be aware that although the Securities may legally be able to be transferred, there is no guarantee that another party will be willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities, such transferring Investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Issuer with an opinion of counsel reasonably satisfactory to the Issuer stating that a registration statement is not necessary to effect such transfer.

In addition, the Investor may not transfer the Securities to any of the Issuer's competitors, as determined by the Issuer in good faith.

Furthermore, upon the event of an IPO, the Securities will be subject to a lock-up period and may not be lent, offered, pledged, or sold for up to 180 days following such IPO.

Other Material Terms

- The Issuer does not have the right to repurchase the Securities.
- The Securities do not have a stated return or liquidation preference.

COMMISSION AND FEES

Cash Commission

At the conclusion of the Offering, the Issuer shall pay the Intermediary a fee of six percent (6%) of the dollar amount raised in the Offering.

Other Compensation

The Intermediary will also receive compensation in the form of the Securities equal to two percent (2%) of the total number of the Securities sold in the Offering. The total number of Securities outstanding after the Offering is subject to increase in an amount equal to the Intermediary's fee of two percent (2%) of the Securities issued in this Offering.

RISK FACTORS

Investing in Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C. In addition to the risks specified below, the Issuer is subject to the same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Issuer's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

The Issuer is still in an early phase, and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early-stage companies. The Issuer may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

The amount of capital the Issuer is attempting to raise in this Offering may not be enough to sustain the Issuer's current business plan.

In order to achieve the Issuer's near and long-term goals, the Issuer may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Issuer will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital.

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenues from sales and our limited operating history, as well as the inherent business risks associated with our company and present and future market conditions. Our business currently has limited sales and future sources of revenue may not be sufficient to meet our future capital requirements. We will require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

Our app is based on new technologies and is subject to the risks of failure inherent in the development of a new product.

Because our app is based on new technologies, it is subject to risks of failure that are particular to new technologies, including the possibility that: (i) our new approach will not result in a product that gains market acceptance; (ii) our app and the technology powering it may unfavorably interact with other types of commonly used applications and services, thus restricting the circumstances in which it may be used; (iii) proprietary rights of third parties may preclude us from marketing our app; (iv) or third parties may market a superior product. As a result, our activities may not result in a commercially viable product and our sales, revenue and financial condition would be materially adversely affected.

If we are unable to maintain a good relationship with the markets where our app is distributed, our business will suffer.

Apple's "App Store" and Google's "Google Play" will be the primary distribution, marketing, and promotional platforms for our app. Our app and related service is only made available through these platforms and any deterioration in our relationship with Apple or Google would harm our business and adversely affect the value of our stock. We are subject to Apple's and Google's standard terms and conditions for application developers, which govern the promotion, distribution and operation of apps on their platforms. Our business would be harmed if: (i) Apple or Google

discontinues or limits access to its platform by us and other app developers; (ii) Apple or Google modifies its terms of service or other policies, including fees charged to, or other restrictions on, us or other application developers, or Apple or Google changes how the personal information of its users is made available to application developers on their respective platforms or shared by users; (iii) Apple or Google establishes more favorable relationships with one or more of our competitors; (iv) or Apple or Google develops its own competitive offerings.

We could benefit from Apple and Google's strong brand recognition and large user base. If Apple or Google loses its market position or otherwise falls out of favor with users, we would need to identify alternative channels for marketing, promoting and distributing our app, which would consume substantial resources and may not be effective. In addition, Apple and Google have broad discretion to change their terms of service and other policies with respect to us and other developers, and those changes may be unfavorable to us. Any such changes in the future could significantly alter how our app users experience our app or interact within our app, which may harm our business.

Major network failures could have an adverse effect on our business.

Our technology infrastructure is critical to the performance of our app and customer satisfaction. Our app runs on a complex distributed system, or what is commonly known as cloud computing. We own, operate and maintain the primary elements of this system, but third parties that we do not control and which would require significant time to replace operate some elements of this system. We expect this dependence on third parties to continue. Major equipment failures, natural disasters, including severe weather, terrorist acts, acts of war, cyber attacks or other breaches of network or information technology security that affect third-party networks, communications switches, routers, microwave links, cell sites or other third-party equipment on which we rely, could cause major network failures and/or unusually high network traffic demands that could have a material adverse effect on our operations or our ability to provide service to our customers. These events could disrupt our operations, require significant resources to resolve, result in a loss of customers or impair our ability to attract new customers, which in turn could have a material adverse effect on our business, prospects, results of operations and financial condition.

If we experience significant service interruptions, which could require significant resources to resolve, it could result in a loss of customers or impair our ability to attract new customers, which in turn could have a material adverse effect on our business, prospects, results of operations and financial condition.

In addition, with the growth of wireless data services, enterprise data interfaces and Internet-based or Internet Protocol enabled applications, wireless networks and devices are exposed to a greater degree to third-party data or applications over which we have less direct control. As a result, the network infrastructure and information systems on which we rely, as well as our customers' wireless devices, may be subject to a wider array of potential security risks, including viruses and other types of computer-based attacks, which could cause lapses in our service or adversely affect the ability of our customers to access our service. Such lapses could have a material adverse effect on our business, prospects, results of operations and financial condition.

We may implement new lines of business or offer new products and services within existing lines of business.

As an early-stage company, we may implement new lines of business at any time. There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved, and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

We rely on other companies to provide components and services for our products.

We depend on third party vendors to meet our contractual obligations to our customers and conduct our operations. Our ability to meet our obligations to our customers may be adversely affected if vendors do not provide the agreed-upon services in compliance with customer requirements and in a timely and cost-effective manner. Likewise, the quality of our services may be adversely impacted if companies to whom we delegate certain services do not perform to our, and our customers', expectations. Our vendors may also be unable to quickly recover from natural disasters and other events beyond their control and may be subject to additional risks such as financial problems that limit their

ability to conduct their operations. The risk of these adverse effects may be greater in circumstances where we rely on only one or two vendors for a particular service.

If our proposed technologies are not accepted by the market our business prospects will suffer.

To support our business plan, we must develop technologies, develop strong brands and make significant capital investments. Should we invest in or design technologies that are not accepted in the marketplace, or if our technologies are not brought to the market in a timely manner, this could materially and adversely impact our company. There is no assurance that there is a market for our technologies, the size of the market, or the market's acceptance of our applications. Sales outcomes are based upon a variety of factors which cannot be assured. If we fail to successfully develop and commercialize our applications, or if the applications are not accepted by the market, our business prospects will suffer.

Our business model is dependent on user growth and developing strategic partnerships to fuel user growth. If we are not successful in developing these partnerships our business plan will fail and our financial condition, operations and prospects will be adversely affected.

We depend on establishing and maintaining licensing, co-brand and revenue sharing relationships with high-traffic web sites and other technology providers. Increasing the number of these relationships is a key element of our strategic plan. Our business could be adversely affected if we do not establish and maintain additional strategic relationships on commercially reasonable terms or if any of our strategic relationships do not result in increased use of our web sites or additional revenues. We currently have only nominal verbal commitments from strategic partners that could engage in our marketplace or on whose platform or application we can engage. If we are not able to convert these verbal commitments into binding agreements and expand the number of such agreements, we may have significant difficulty in expanding our user base. Failure to expand our user base would result in our inability to generate any significant level of revenues and our financial condition, operations and prospects would be materially adversely affected. Accordingly, there is no guarantee that we will generate any material level of revenues from advertising or through strategic partnerships.

Defects in our app and the technology powering our technological platform may adversely affect our business.

Tools, code, subroutines and processes contained within our app may contain defects when introduced and also when updates and new versions are released. If our app or an update to our app contains defects or quality problems, we may become subject to adverse publicity, reduced use of our app, product redevelopment costs, loss of or delay in market acceptance of our product or claims by customers or others against us. Such problems or claims may have a material and adverse effect on our business, prospects, financial condition and results of operations.

We rely on various intellectual property rights, including trademarks, in order to operate our business.

The Issuer relies on certain intellectual property rights to operate its business. The Issuer's intellectual property rights may not be sufficiently broad or otherwise may not provide us a significant competitive advantage. In addition, the steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations. We also rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights. As we expand our business, protecting our intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our intellectual property rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

The Issuer's success depends on the experience and skill of its executive officers, its board of directors, and key employees.

We are dependent on our executive officers, board of directors and key employees. These persons may not devote their full time and attention to the matters of the Issuer. The loss any or all of our executive officers, board of directors and key employees could harm the Issuer's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Issuer does not have any key person life insurance policies on any such people.

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Issuer has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Issuer will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Issuer and our operations. We have no way to guarantee key personnel will stay with the Issuer, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

In order for the Issuer to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management and other personnel to develop additional expertise. We face intense competition for personnel, making recruitment time-consuming and expensive. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us, which could further delay or disrupt our product development and growth plans.

We need to rapidly and successfully develop and introduce new products in a competitive, demanding and rapidly changing environment.

To succeed in our intensely competitive industry, we must continually improve, refresh and expand our product and service offerings to include newer features, functionality or solutions, and keep pace with changes in the industry. Shortened product life cycles due to changing customer demands and competitive pressures may impact the pace at which we must introduce new products or implement new functions or solutions. In addition, bringing new products or solutions to the market entails a costly and lengthy process, and requires us to accurately anticipate changing customer needs and trends. We must continue to respond to changing market demands and trends or our business operations may be adversely affected.

The development and commercialization of our products is highly competitive.

We face competition with respect to any products that we may seek to develop or commercialize in the future. Our competitors include major companies worldwide. Many of our competitors have significantly greater financial, technical and human resources than we have and superior expertise in research and development and marketing approved products and thus may be better equipped than us to develop and commercialize products. These competitors also compete with us in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our competitors may commercialize products more rapidly or effectively than we are able to, which would adversely affect our competitive position, the likelihood that our products will achieve initial market acceptance, and our ability to generate meaningful additional revenues from our products.

Industry consolidation may result in increased competition, which could result in a loss of customers or a reduction in revenue.

Some of our competitors have made or may make acquisitions or may enter into partnerships or other strategic relationships to offer more comprehensive services than they individually had offered or achieve greater economies of scale. In addition, new entrants not currently considered to be competitors may enter our market through acquisitions, partnerships or strategic relationships. We expect these trends to continue as companies attempt to

strengthen or maintain their market positions. The potential entrants may have competitive advantages over us, such as greater name recognition, longer operating histories, more varied services and larger marketing budgets, as well as greater financial, technical and other resources. The companies resulting from combinations or that expand or vertically integrate their business to include the market that we address may create more compelling service offerings and may offer greater pricing flexibility than we can or may engage in business practices that make it more difficult for us to compete effectively, including on the basis of price, sales and marketing programs, technology or service functionality. These pressures could result in a substantial loss of our customers or a reduction in our revenue.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success in existing markets and will be critical to our success as we enter new markets. Any incident that erodes consumer loyalty for our brand could significantly reduce its value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correction.

Our business could be negatively impacted by cyber security threats, attacks and other disruptions.

We may face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including “bugs” and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

Security breaches of confidential customer information, in connection with our electronic processing of credit and debit card transactions, or confidential employee information may adversely affect our business.

Our business requires the collection, transmission and retention of personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that data is critical to us. The information, security and privacy requirements imposed by governmental regulation are increasingly demanding. Our systems may not be able to satisfy these changing requirements and customer and employee expectations or may require significant additional investments or time in order to do so. A breach in the security of our information technology systems or those of our service providers could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss or misappropriation of, or access to, customers’ or other proprietary data or other breach of our information technology systems could result in fines, legal claims or proceedings.

The use of individually identifiable data by our business, our business associates and third parties is regulated at the state, federal and international levels.

The regulation of individual data is changing rapidly, and in unpredictable ways. A change in regulation could adversely affect our business, including causing our business model to no longer be viable. Costs associated with information security – such as investment in technology, the costs of compliance with consumer protection laws and costs resulting from consumer fraud – could cause our business and results of operations to suffer materially. Additionally, the success of our online operations depends upon the secure transmission of confidential information over public networks, including the use of cashless payments. The intentional or negligent actions of employees,

business associates or third parties may undermine our security measures. As a result, unauthorized parties may obtain access to our data systems and misappropriate confidential data. There can be no assurance that advances in computer capabilities, new discoveries in the field of cryptography or other developments will prevent the compromise of our customer transaction processing capabilities and personal data. If any such compromise of our security or the security of information residing with our business associates or third parties were to occur, it could have a material adverse effect on our reputation, operating results and financial condition. Any compromise of our data security may materially increase the costs we incur to protect against such breaches and could subject us to additional legal risk.

The Issuer is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.

The Issuer may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately held (non-public) Issuer, the Issuer is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Issuer's financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Issuer of such compliance could be substantial and could have a material adverse effect on the Issuer's results of operations.

Changes in federal, state or local laws and government regulation could adversely impact our business.

The Issuer is subject to legislation and regulation at the federal and local levels and, in some instances, at the state level. New laws and regulations may impose new and significant disclosure obligations and other operational, marketing and compliance-related obligations and requirements, which may lead to additional costs, risks of non-compliance, and diversion of our management's time and attention from strategic initiatives. Additionally, federal, state and local legislators or regulators may change current laws or regulations which could adversely impact our business. Further, court actions or regulatory proceedings could also change our rights and obligations under applicable federal, state and local laws, which cannot be predicted. Modifications to existing requirements or imposition of new requirements or limitations could have an adverse impact on our business.

We operate in a highly regulated environment, and if we are found to be in violation of any of the federal, state, or local laws or regulations applicable to us, our business could suffer.

We are also subject to a wide range of federal, state, and local laws and regulations. The violation of these or future requirements or laws and regulations could result in administrative, civil, or criminal sanctions against us, which may include fines, a cease-and-desist order against the subject operations or even revocation or suspension of our license to operate the subject business. As a result, we may incur capital and operating expenditures and other costs to comply with these requirements and laws and regulations.

Affiliates of the Issuer, including officers, directors and existing shareholders of the Issuer, may invest in this Offering and their funds will be counted toward the Issuer achieving the Minimum Amount.

There is no restriction on affiliates of the Issuer, including its officers, directors and existing shareholders, investing in the Offering. As a result, it is possible that if the Issuer has raised some funds, but not reached the Minimum Amount, affiliates can contribute the balance so that there will be a closing. The Minimum Amount is typically intended to be a protection for investors and gives investors' confidence that other investors, along with them, are sufficiently interested in the Offering and the Issuer and its prospects to make an investment of at least the Minimum Amount. By permitting affiliates to invest in the offering and make up any shortfall between what non-affiliate investors have invested and the Minimum Amount, this protection is largely eliminated. Investors should be aware that no funds other than their own and those of affiliates investing along with them may be invested in this Offering.

Risks Related to the Offering and Ownership of our Securities

We are a party to a lawsuit involving a claim that we must issue 250,000 shares of Class A Stock. If we are not successful in defending this Claim or if we settle this matter, we may be required to issue all or some of such 250,000 shares of Class A Stock and, as a result, your ownership interest in our company will be diluted and we will not have received any equivalent value.

On July 14, 2021, Steep Axis LLC, Scott Armstrong, Ryan Armstrong and New World Savings, Inc., (collectively, the "Plaintiffs") filed a Complaint in the Superior Court of the State of California, County of Orange, against Gangsta Breakout, LLC, PhD Labs, Inc., John Driscoll, and Naked Apps, LLC (collectively, the "Defendants") to recover certain monies and to confirm the rightful cancellation of 250,000 shares of our Class A Common Stock that had been held by the Defendants which were paid to them under a series of contracts under which Defendants were supposed to develop a mobile application for Plaintiffs and did not perform under such contracts. The Issuer is seeking various remedies, including confirmation of the cancellation and/or return of the 250,000 shares of our Class A Common Stock. The action is in its early stages and the Issuer cannot predict the outcome of such litigation at this time. If we are not successful in defending this Claim or if we settle this matter, we may be required to issue all or some of such 250,000 shares of Class A Stock and, as a result, your ownership interest in our company will be diluted and we will not have received any equivalent value.

State and federal securities laws are complex, and the Issuer could potentially be found to have not complied with all relevant state and federal securities law in prior offerings of securities.

The Issuer has conducted previous offerings of securities and may not have complied with all relevant state and federal securities laws. If a court or regulatory body with the required jurisdiction ever concluded that the Issuer may have violated state or federal securities laws, any such violation could result in the Issuer being required to offer rescission rights to investors in such offering. If such investors exercised their rescission rights, the Issuer would have to pay to such investors an amount of funds equal to the purchase price paid by such investors plus interest from the date of any such purchase. No assurances can be given the Issuer will, if it is required to offer such investors a rescission right, have sufficient funds to pay the prior investors the amounts required or that proceeds from this Offering would not be used to pay such amounts.

In addition, if the Issuer violated federal or state securities laws in connection with a prior offering and/or sale of its securities, federal or state regulators could bring an enforcement, regulatory and/or other legal action against the Issuer which, among other things, could result in the Issuer having to pay substantial fines and be prohibited from selling securities in the future.

The U.S. Securities and Exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C and the accompanying exhibits.

The Issuer's management may have broad discretion in how the Issuer uses the net proceeds of the Offering.

Unless the Issuer has agreed to a specific use of the proceeds from the Offering, the Issuer's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Issuer has the right to limit individual Investor commitment amounts based on the Issuer's determination of an Investor's sophistication.

The Issuer may prevent any Investor from committing more than a certain amount in this Offering based on the Issuer's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Issuer's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Issuer's determination.

The Issuer has the right to extend the Offering Deadline.

The Issuer may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Issuer attempts to raise the Target Offering Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Issuer extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Issuer receiving the Target Offering Amount, at which time it will be returned to you without interest or deduction, or the Issuer receives the Target Offering Amount, at which time it will be released to the Issuer to be used as set forth herein. Upon or shortly after the release of such funds to the Issuer, the Securities will be issued and distributed to you.

The Issuer may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Issuer can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner may prevent you from being able to invest in this Offering – it also means the Issuer may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Issuer has the right to conduct multiple closings during the Offering.

If the Issuer meets certain terms and conditions, an intermediate close of the Offering can occur, which will allow the Issuer to draw down on half of the proceeds committed and captured in the Offering during the relevant period. The Issuer may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

Risks Related to the Securities

The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Issuer. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

Your ownership of the shares will be subject to dilution.

If we conduct subsequent offerings of securities, issue shares pursuant to a compensation or distribution reinvestment plan or otherwise issues additional shares, investors who purchase securities in this offering who do not participate in those other stock issuances will experience dilution in their percentage ownership of our company's outstanding shares. Furthermore, shareholders may experience a dilution in the value of their underlying shares depending on the terms and pricing of any future share issuances (including the underlying shares being sold in this offering) and the value of our assets at the time of issuance.

The securities will be equity interests in our company and will not constitute indebtedness.

The securities will rank junior to all existing and future indebtedness and other non-equity claims on our company with respect to assets available to satisfy claims on the Issuer, including in a liquidation of our company. Additionally, unlike indebtedness, for which principal and interest would customarily be payable on specified due dates, there will be no specified payments of dividends with respect to the securities and dividends are payable only if, when and as authorized and declared by us and depend on, among other matters, our historical and projected results of operations, liquidity, cash flows, capital levels, financial condition, debt service requirements and other cash needs, financing covenants, applicable state law, federal and state regulatory prohibitions and other restrictions and any other factors our board of directors deems relevant at the time. In addition, there is no limit on the amount of debt or other obligations we may incur in the future. Accordingly, we may incur substantial amounts of additional debt and other obligations that will rank senior to the securities, which are the most junior securities of our company.

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Issuer or to receive financial or other information from the Issuer, other than as required by law. Other security holders of the Issuer may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Issuer can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Issuer such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

There can be no assurance that we will ever provide liquidity to investors through either a sale of our company or a registration of the securities.

There can be no assurance that any form of merger, combination, or sale of our company will take place, or that any merger, combination, or sale would provide liquidity for investors. Furthermore, we may be unable to register the securities for resale by investors for legal, commercial, regulatory, market-related or other reasons. In the event that we are unable to effect a registration, investors could be unable to sell their securities unless an exemption from registration is available.

The offering price in this offering may not represent the value of our securities.

The price of the securities being sold in this offering has been determined based on a number of factors and does not necessarily bear any relationship to our book value, assets, operating results or any other established criteria of value. Prices for our securities may not be indicative of the fair market value of our securities now or in the future.

There is no present market for the Securities and we have arbitrarily set the price.

The Offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our asset value, net worth, revenues or other established criteria of value. We cannot guarantee that the Securities can be resold at the Offering price or at any other price.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

BUSINESS

Description of the Business

Our corporate name is New World Savings, Inc. and we do business as Guac. We are a California corporation that was incorporated on August 21, 2017, for the purpose of developing and commercializing a mobile app called Guac that creates a new way to help users save for short-term goals and buy experiences.

The Issuer expects to generate revenue in three primary ways: (1) interest earned on user funds held on account; (2) application advertising and marketing; and (3) funds generated from partners through the Guac marketplace where we earn 10% on transactions conducted through the marketplace. We have developed a downloadable personal finance mobile application and marketplace called Guac that offers users a unique way to save money by triggering the deposit of a specified amount of each debit card transaction into separate accounts that we refer to as the Guac Fund Accounts. Guac is an easy-to-use application that transfers a user's specified cash amounts based on his debit card purchases, allowing a user to "save while he spends." The application allows users to determine how the amount transferred is calculated and applies those savings to short or long-term goals. Funds can be saved in a standard savings account or be earmarked in a specified account for specific events such as general investing, saving for a vacation, a car, or a wedding. The user can have unlimited separate Guac Fund Accounts, with each Guac Fund Account linked to the user's personal bank account(s). Users may also transfer funds from their Guac Fund Accounts to their checking account or to other Guac users. They can also utilize their saved funds in the Guac Marketplace to purchase from our partners. A user may trigger saving to their account(s) by either selecting a certain percentage of their transactions or rounding up transactions to the nearest dollar. Either way, the user can specify an absolute limit per transaction (i.e., stop calculating a percentage to transfer once the purchase amount is above \$20). The application, which utilizes Q2 CorePro and Plaid to access and execute ACH checking account pre-set instructions, automatically transfers the funds real-time as purchases are made. We believe that our app appeals to a market of consumers who grew up on the web and rely on technology such as Uber, Instacart, and Venmo. They trust technology to make their daily lives more efficient.

The Guac Fund Accounts are held as ledger accounts under a master Guac bank account. Each master account containing user funds are insured to \$250,000 using insurance from the Federal Deposit Insurance Corporation. Guac has selected National Bank of Kansas City as its launch bank.

Business Plan

The Issuer plans to significantly expand its business by increasing sales and marketing, investing in technology and product research, development, and investing in operations and infrastructure. The Issuer aims to achieve profitability by the third quarter of 2024. The capital we raise here will empower us to expand our product development, increase sales and marketing efforts and grow out our infrastructure and operations as we continue to aggressively grow and expand our business.

The Issuer's Products and/or Services

Product / Service	Description	Current Market
Guac	Personal finance application	B2C primarily Millennials, Gen Z and secondary to Baby Boomers.

Competition

The key competitors to our business are:

- (i) Acorns, which is a smartphone app that "rounds up" your spending to the nearest dollar and invests that rounded difference. It is a micro savings service that allows the user to invest only pennies at a time. Acorns does not offer the user the opportunity to create a goal (or multiple goals) to save and does not offer money transfers or bill payments. Acorns simply rounds up user's debit card purchases to purchase products from a number of retail partners or invest saved funds into the Acorns managed investment funds. Acorns currently has 3,500,000 members and raised nearly \$63,000,000. In addition, Acorns

- charges \$1.00 per month for accounts under \$5,000 and 0.25% for accounts with a value of over of \$5,000;
- (ii) Qapital, which is an app designed to allocate small amounts of everyday purchases to user's Qapital account. Qapital was launched in May 2015 and, within five months, acquired users in all 50 U.S. states and has since raised \$26 million in a new early-stage round of funding. This app has 750,000 active users, adding 10,000 new accounts each week. Qapital charges its users a monthly fee of \$3.99. We offer a similar method of saving money but believe our Guac app is more efficient and easier to use with its percentage-based savings model. Qapital does not offer user-to-user money transfers;
 - (iii) Hello Digit is a micro-savings app designed to help users save small amounts of money over time. Similar to the Acorns app, it offers a first step towards consistent savings. Digit evaluates user spending habits and transfers money out of a linked bank account(s) into a Digit account using an algorithm. Contrarily, we allow the user to decide how much to save, when to save and create savings goals. However, Digit's algorithm limits the user's control and interaction with user's method of saving. Furthermore, Digit does not allow users to create separate funds with differing saving plans to reach your goal.

Based on market analysis, we believe that our products and services offer a focused user experience that is simple to use and marketable to the user. Our research indicates that other apps may be overwhelming to the average user with too many options to "micro-save", while other competitors only allow user to invest in securities or managed funds within the application. We, on the other hand, allow users to be in control of how much they save, how often, and what they would like to do with the money they save. In sum, we believe that we offer the user a very simple "save while you spend" micro savings application, user-to-user money transfers (think Venmo) and bill pay option in one simple, interactive handheld application.

We operate in the highly competitive financial technology, or fintech, market and compete with other fintech companies and software and mobile application developers. Specifically, we face competition from other technology companies that provide event driven micro saving applications to consumers. Our products compete against similar products of many large and small companies, including well-known global competitors. In many of the markets and industry segments in which we sell our products, we compete against other branded products as well as retailers' private-label brands. Many of our competitors have substantially greater financial, technical, research, marketing, sales, service, and other resources than us, and may develop processes or software applications that are superior to those of our company.

Customer Base

We operate in the fintech (financial technology) sector of the mobile applications market. Financial statistics indicate that this segment continues to have steady growth and investment at all stages. Specifically, we are targeting the Millennial and Gen Z users to create a community of users. There are 83.1 million Millennials in America. ("Millennial Spending Habits and Why They Buy," May 1, 2019). By 2025, Millennials will own the largest share of personal income of \$8.3 trillion. ("Cracking the Code on Millennial Consumers," March 18, 2017). At such time, Millennials will represent 75% of the workforce and 46% of total U.S. household income. ("10 Key Facts and Statistics about Millennials in the Workplace," September 1, 2021). Studies have indicated that 74% of Millennials believe that technology makes life easier; two recessions have affected Millennials' trust and confidence in traditional financial institutions. ("Millennials: Technology = Social Connection," February 2014). In 2015, a survey by Chime showed that 67% of Millennials say that they would prefer to use a debit card than a credit card ("This is Why Millennials are Choosing Debit Over Credit," July 13, 2017). In 2014, the Wells Fargo Millennial Study showed that while 8 in 10 Millennials say the recession taught them the importance of saving for the future, only 55% of the 1,639 Millennials surveyed have started saving for retirement. Those who currently are not saving say they won't be able to start until age 35. We believe we are the solution for "simple, effortless savings" that do not threaten to change a user's lifestyle.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
New World Savings, Inc.

Opinion

We have audited the accompanying financial statements of **New World Savings, Inc.** which comprise the balance sheet as of **December 31, 2021 and 2020**, the related statements of income, stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of **New World Savings, Inc.** as of December 31, 2021 and 2020, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with the auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of New World Savings, Inc. and to meet our ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Substantial Doubt about the Company's Ability to Continue as a Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 10 to the financial statements, the Company has suffered recurring losses from operations and has a net capital deficiency. Management's evaluation of the events and conditions and management's plans to mitigate those matters are also described in Note 10. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about New World Savings, Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risk. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of New World Savings, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about New World Savings, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

U.S. GAAP defines fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level One inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level Two inputs consist of observable inputs other than quoted prices for identical assets, and Level Three inputs have the lowest priority.

The carrying amounts of stock issued and convertible debt reported in the balance sheet approximate their fair value.

(iii) the representations and warranties of the Company contained in Section 7 hereof and of the undersigned contained in Section 5 hereof shall be true and correct as of the Closing in all respects with the same effect as though such representations and warranties had been made as of the Closing.

4. Termination of the Offering; Other Offerings. The undersigned understands that the Company may terminate the Offering at any time. The undersigned further understands that during and following termination of the Offering, the Company may undertake offerings of other securities, which may or may not be on terms more favorable to an investor than the terms of this Offering.

5. Investor Representations. The undersigned represents and warrants to the Company and the Company’s agents as follows:

(a) The undersigned understands and accepts that the purchase of the Shares involves various risks, including the risks outlined in the Form C and in this Agreement. The undersigned can bear the economic risk of this investment and can afford a complete loss thereof; the undersigned has sufficient liquid assets to pay the full purchase price for the Shares; and the undersigned has adequate means of providing for its current needs and possible contingencies and has no present need for liquidity of the undersigned’s investment in the Company.

(b) The undersigned acknowledges that at no time has it been expressly or implicitly

represented, guaranteed or warranted to the undersigned by the Company or any other person that a percentage of profit and/or amount or type of gain or other consideration will be realized because of the purchase of the Shares.

(c) Including the amount set forth on the signature page hereto, in the past 12-month period, the undersigned has not exceeded the investment limit as set forth in Rule 100(a)(2) of Regulation Crowdfunding.

(d) The undersigned has received and reviewed a copy of the Form C. With respect to information provided by the Company, the undersigned has relied solely on the information contained in the Form C to make the decision to purchase the Shares.

(e) The undersigned confirms that it is not relying and will not rely on any communication (written or oral) of the Company, the Portal, the escrow agent, or any of their respective affiliates, as investment advice or as a recommendation to purchase the Shares. It is understood that information and explanations related to the terms and conditions of the Shares provided in the Form C or otherwise by the Company, the Portal or any of their respective affiliates shall not be considered investment advice or a recommendation to purchase the Shares, and that neither the Company, the Portal nor any of their respective affiliates is acting or has acted as an advisor to the undersigned in deciding to invest in the Shares. The undersigned acknowledges that neither the Company, the Portal nor any of their respective affiliates have made any representation regarding the proper characterization of the Shares for purposes of determining the undersigned's authority or suitability to invest in the Shares.

(f) The undersigned is familiar with the business and financial condition and operations of the Company, all as generally described in the Form C. The undersigned has had access to such information concerning the Company and the Shares as it deems necessary to enable it to make an informed investment decision concerning the purchase of the Shares.

(g) The undersigned understands that, unless the undersigned notifies the Company in writing to the contrary at or before the Closing, each of the undersigned's representations and warranties contained in this Agreement will be deemed to have been reaffirmed and confirmed as of the Closing, taking into account all information received by the undersigned.

(h) The undersigned acknowledges that the Company has the right in its sole and absolute discretion to abandon this Offering at any time prior to the completion of the Offering. This Agreement shall thereafter have no force or effect and the Company shall return any previously paid subscription price of the Shares, without interest thereon, to the undersigned.

(i) The undersigned understands that no federal or state agency has passed upon the merits or risks of an investment in the Shares or made any finding or determination concerning the fairness or advisability of this investment.

(j) The undersigned has up to 48 hours before the Offering end date to cancel the purchase and get a full refund.

(k) The undersigned confirms that the Company has not (i) given any guarantee or representation as to the potential success, return, effect or benefit (either legal, regulatory, tax, financial, accounting or otherwise) of an investment in the Shares or (ii) made any representation to the undersigned regarding the legality of an investment in the Shares under applicable legal investment or similar laws or regulations. In deciding to purchase the Shares, the undersigned is not relying on the advice or recommendations of the Company and the undersigned has made its own independent decision, alone or in

consultation with its investment advisors, that the investment in the Shares is suitable and appropriate for the undersigned.

(l) The undersigned has such knowledge, skill and experience in business, financial and investment matters that the undersigned is capable of evaluating the merits and risks of an investment in the Shares. With the assistance of the undersigned's own professional advisors, to the extent that the undersigned has deemed appropriate, the undersigned has made its own legal, tax, accounting and financial evaluation of the merits and risks of an investment in the Shares and the consequences of this Agreement. The undersigned has considered the suitability of the Shares as an investment in light of its own circumstances and financial condition and the undersigned is able to bear the risks associated with an investment in the Shares and its authority to invest in the Shares.

(m) The undersigned is acquiring the Shares solely for the undersigned's own beneficial account, for investment purposes, and not with a view to, or for resale in connection with, any distribution of the Shares. The undersigned understands that the Shares have not been registered under the Securities Act or any state securities laws by reason of specific exemptions under the provisions thereof which depend in part upon the investment intent of the undersigned and of the other representations made by the undersigned in this Agreement. The undersigned understands that the Company is relying upon the representations and agreements contained in this Agreement (and any supplemental information provided by the undersigned to the Company or the Portal) for the purpose of determining whether this transaction meets the requirements for such exemptions.

(n) The undersigned understands that the Shares are restricted from transfer for a period of time under applicable federal securities laws and that the Securities Act and the rules of the SEC provide in substance that the undersigned may dispose of the Shares only pursuant to an effective registration statement under the Securities Act, an exemption therefrom or as further described in Rule 501 of Regulation Crowdfunding, after which certain state restrictions may apply. The undersigned understands that the Company has no obligation or intention to register any of the Shares, or to take action so as to permit sales pursuant to the Securities Act. Even if and when the Shares become freely transferable, a secondary market in the Shares may not develop. Consequently, the undersigned understands that the undersigned must bear the economic risks of the investment in the Shares for an indefinite period of time.

(o) The undersigned agrees that the undersigned will not sell, assign, pledge, give, transfer or otherwise dispose of the Shares or any interest therein or make any offer or attempt to do any of the foregoing, except pursuant to Rule 501 of Regulation Crowdfunding.

(p) If the undersigned is not a United States person (as defined by Section 7701(a)(30) of the Internal Revenue Code of 1986, as amended), the undersigned hereby represents and warrants to the Company that it has satisfied itself as to the full observance of the laws of its jurisdiction in connection with any invitation to subscribe for the Shares or any use of this Agreement, including (i) the legal requirements within its jurisdiction for the purchase of the Shares, (ii) any foreign exchange restrictions applicable to such purchase, (iii) any governmental or other consents that may need to be obtained, and (iv) the income tax and other tax consequences, if any, that may be relevant to the purchase, holding, redemption, sale, or transfer of the Shares. The undersigned's subscription and payment for and continued beneficial ownership of the Shares will not violate any applicable securities or other laws of the undersigned's jurisdiction.

(q) The undersigned has full legal capacity, power and authority to execute and deliver this instrument and to perform its obligations hereunder. This instrument constitutes a valid and binding obligation of the undersigned, enforceable in accordance with its terms, except as limited by bankruptcy, insolvency or other laws of general application relating to or affecting the enforcement of creditors' rights generally and general principles of equity.

(r) The undersigned has been advised that this instrument and the underlying securities have not been registered under the Securities Act or any state securities laws and are offered and sold hereby pursuant to Section 4(a)(6) of the Securities Act. The undersigned understands that neither this instrument nor the underlying securities may be resold or otherwise transferred unless they are registered under the Securities Act and applicable state securities laws or pursuant to Rule 501 of Regulation CF, in which case certain state transfer restrictions may apply.

(s) The undersigned understands that no public market now exists for any of the securities issued by the Company, and that the Company has made no assurances that a public market will ever exist for this instrument and the securities to be acquired by the undersigned hereunder.

(t) The undersigned is not (i) a citizen or resident of a geographic area in which the subscription of or holding of the Subscription Agreement and the underlying securities is prohibited by applicable law, decree, regulation, treaty, or administrative act, (ii) a citizen or resident of, or located in, a geographic area that is subject to U.S. or other applicable sanctions or embargoes, or (iii) an individual, or an individual employed by or associated with an entity, identified on the U.S. Department of Commerce's Denied Persons or Entity List, the U.S. Department of Treasury's Specially Designated Nationals List, the U.S. Department of State's Debarred Parties List or other applicable sanctions lists. The undersigned further represents and warrants that it will not knowingly sell or otherwise transfer any interest in the Subscription Agreement or the underlying securities to a party subject to U.S. or other applicable sanctions.

Ryan Armstrong: Next you will hear from Ryan Ruff our newest strategic partner from ASA Financial as he is the head of fintech.

Ryan is going to share with you what they see and why they partnered with Guac and how they are changing the financial landscape.

We are providing our financial technology to banks, credit union and major banks who are looking to utilize it. This agreement allows for Guac free user acquisition from these major banks and credit unions by providing our tool.

Ryan's going to speak to these partnerships and the 100M members they project for 2023. Based on their initial guidance, Asa believes Guac will have a 50% conversion on their ASA Members I'll allow you do that math to show what that growth can mean.

Ryan Ruff ASA:

I just want you guys to be ready and prepared.

One of the things that we love about the Guac App is how it hits the widest demographic of our customers out any of the other apps that are being added into the ASA vault.

So your messaging that allows our partnership institutions to save money while they spend by automatically tipping themselves is going to resonate very well given the traction you already have with your current customers.

Obviously, we don't know for sure but we are thinking that 50% of our users or more are going to find value in the Guac app and that is why we are so excited.

Ryan Armstrong:

Finally, I'd like to introduce you to our new CFO John Blucher. John has aligned with Guac as he is preparing us for the IPO and acquisition market.

John has successful track record as an SEC attorney focused on helping companies go public and exit.

John Blucher Guac:

Hello everyone, my name is John Blucher and I've just started as the new Chief Financial Officer for New World Savings, which has launched the app Guac.

It's the app that helps save as you spend money, great new concept. So excited to be here, I love the technology and I love what's been put together. And I like what it does for people as they are spending money and saving for their goals.

It's a great opportunity for me to get involved in a small company that really to break into the market, and I couldn't be more excited.

What's going on out there? Rad Nation, quick little shout out this morning to all of the rad investors that came over to us from the Guac Financial app, which also as a lot of you know, is not just a channel partner and client of ours. With somebody that we are very excited to continue working with and expanding with, I just wanted to say a fun little fact here. I've been using the app with my daughter who's 10 years old, and the idea of putting a little bit of money aside when you spend it, it's not just a little, it's not just fun. There's some. There's some inherent value there, but it's also a teaching. Teaching the little one some lessons with respect to savings. So, I'm really not just enjoying it from a personal level, but we've got 130 Guac users that are part of our overarching community of 3000 rad AI investors. So big shout out to you, Ryan, for starting a company that needs to happen. Always excited to expand on these types of partnerships here at RAD. And sending some love to the users that are both using your platform and now have become a part of our investor community here. At RAD AI. Take care of yourself this morning. Have a good weekend, guys.
