This Private Placement Memorandum (this “**Private Placement Memorandum**” or “**Memorandum**”) has been prepared by Fondation Massa., dba Massa Foundation, a Swiss Foundation incorporated under the laws of Switzerland on October 2, 2023 (“**We**”, “**we**”, “**Massa**,” or the “**Company**”, interchangeably), for use by certain prospective qualified purchasers (each, a “**Purchaser**” and collectively, the “**Purchasers**”) to whom the Company is offering (the “**Offering**”) the opportunity to purchase Massa tokens, the native unit of value built upon the Massa protocol (“**Massa Tokens**” or “**Tokens**”), for use on the Massa blockchain (“**Massa Blockchain**”) and its associated website and services (collectively, the “**Massa Platform**”). The foregoing right to acquire Massa Tokens will be embodied in, and documented by, a Token Purchase Agreement with respect to the Massa Tokens (as may be amended, restated and/or otherwise modified from time to time, a “**TPA**”; and together with the Massa Tokens, the “**Interests**”) to be entered into between the Company and the qualified purchasers purchasing such Interests in the Offering.

The Company is the sole issuer of any Interests (defined above) being offered and sold pursuant to this Memorandum.

No public market for the Massa Tokens currently exists or may ever develop, or, if a public market in Massa Tokens develops, it may do so without the involvement of the Company.

The Massa Tokens purchased may be subject to restrictions on transferability and resale, and generally may not be transferred or resold except as specified herein and in the applicable Offering Document. For purposes of this Memorandum, “**Offering Document**” means this Memorandum, TPA, and the Massa Token Terms and Conditions (as defined below). Purchasers of Massa Tokens should be aware that they will be required to bear the financial risks of this purchase for an indefinite period of time.

Unless otherwise indicated herein, all references to the number of Massa Tokens set forth in this Private Placement Memorandum refers to the initial minted supply of 1,000,000,000 Massa Tokens. The actual number of Massa Tokens is subject to inflation and may change from time to time and at any time via any forks to the Massa Tokens or similar events.

Unless otherwise provided by the Company, all purchases must be made via the offering platform at <https://republic.com/massa> (the “**Offering Platform**”) in accordance with the instructions and terms of sale set forth therein. Purchases may be made in US dollars (via credit card), USD Coin (USDC), and USD Tether (USDT) during the Offering Period (as defined in “**Terms of the Offering**”); provided that the Company may elect to accept other forms of payment on an as-converted to USD basis in its sole discretion and subject to acceptance by Stripe, Inc., the financial institution providing cryptocurrency payment processing services to the Offering. The Company reserves the right to discontinue accepting any type of consideration in its sole discretion. The USD exchange rate for USDC and USDT or other forms of payment shall be determined solely by the Company or its assignee or agent in accordance with reasonable and accepted market practices. Such currencies are subject to fluctuations

in the rate of exchange and, in the case of digital assets, the exchange valuations. Such fluctuations may have an adverse effect on the value, price or returns of a purchase. Purchasers may receive a number of Massa Tokens rounded down to two (2) decimal places.

THE COMPANY WILL NOT BE REQUIRED TO, NOR DO THEY CURRENTLY INTEND TO, OFFER TO EXCHANGE THE MASSA TOKENS FOR ANY SECURITIES REGISTERED UNDER OR EXEMPT FROM THE SECURITIES ACT OF ANY OTHER LAW, OR REGISTER THE MASSA TOKENS FOR RESALE UNDER THE SECURITIES ACT.

This overview does not contain all of the information you should consider before participating in the Offering contemplated by this Private Placement Memorandum. You should carefully read this Memorandum in its entirety before purchasing any Massa Tokens, including the sections titled “Risk Factors” and “Special Note Regarding Forward-Looking Statements.” Some of the statements in this Memorandum constitute forward-looking statements. See the section titled “Special Note Regarding Forward-Looking Statements.” Unless the context otherwise requires, the terms “the Company,” “we,” “us,” and “our” in this Private Placement Memorandum refer to the Company. Company and Massa Platform Overview

According to a 2023 report by Fortune Business Insights, the global blockchain market is set to grow from \$17.57 billion in 2023 to \$469.49 billion by 2030.¹ The Company targets growing decentralized applications (“DApps”) in the global blockchain market, focusing on scalable and secure blockchain solutions. The Company operates to address common challenges in blockchain technology such as decentralization, scalability, and security (the “Blockchain Trilemma”), and accessibility. The Massa Blockchain employs the Nakamoto consensus mechanism adapted to a parallel graph of blocks, together with a proof-of-stake selection of block producers. With this technology the Massa Blockchain can support thousands of operations per second in a decentralized network where thousands of nodes actively contribute to the consensus mechanism and process.

The Company addresses the Blockchain Trilemma through:

(1) Parallel Block Architecture:

The Company’s parallel block architecture allows nodes, when selected by the proof-of-stake mechanism, to create blocks in parallel and still make them all compatible with each other. The Massa Blockchain employs a consensus mechanism, the Nakamoto consensus, to determine the final blocks, allowing blocks to be generated simultaneously, in parallel, to scale the number of operations per second. The Massa Blockchain has been shown to support 4,000+ transactions per second with over 8,000+ nodes in the testnet. The Massa Blockchain aims to reach a Nakamoto coefficient above 1000.

(2) Autonomous Smart Contracts:

The Massa Blockchain’s autonomous smart contracts function asynchronously and self-wake, without the need for explicit off-chain human or bot interactions.

(3) On-Chain Web and Massa Station:

Massa Station is an on-chain web access tool built for the Massa Blockchain and provides a platform for creating and interacting with DApps entirely on-chain. There are four key features: (1) domain registrations; (2) back-end hosting in smart contracts; (3) on-chain front-end hosting; and (4) seamless transition between web2 and web3.

Terms of Offering

The Company plans to deliver Massa Tokens after the “Token Integration Event” or “TIE” defined as the date when the Massa Tokens are initially broadly publicly released by the Company for use on the Massa Platform, if ever. It is anticipated that the Token Integration Event will occur on or before the March 31, 2024 (the “**Deadline Date**”). If there is no Token Integration Event on or before the Deadline Date, the Company shall repay Purchasers an amount equal to the Purchase Amount set forth in their applicable TPA (the “**Returned Purchase Amount**”), as soon as reasonably practicable after the Deadline Date, to the extent funds are available for such lawful repayment at that time. If there is an insufficient amount of capital available to refund Purchasers on the Deadline Date, the Company will repay Purchasers with equal priority and on a pro-rata basis among the TPA Purchasers based on the relative value of their respective Purchase Amount on the date of receipt by the Company of such

Below are examples of how fees may impact the total purchase price paid by Purchaser for Massa Tokens:

Example 1: Purchaser wants to purchase 1,000 Massa Tokens at \$0.10 per Massa Token using a credit card. The purchase price will be \$100. Purchaser will also incur an administrative fee from ODB, for payments made via credit card, that is the greater of 3.0% or \$7—here, it will be \$7 for this transaction because 3.0% is lower, meaning the Purchaser will pay \$107 total for the 1,000 Massa Tokens. Note that this total is independent of any fee that the Purchaser’s financial institution may impose on the method of payment, e.g., a credit card fee.

Example 2: Purchaser wants to purchase 25,000 Massa Tokens at \$0.12 per Massa Token using a credit card. The purchase price will be \$3,000. Purchaser will also incur an administrative fee from ODB, for payments made via credit card, that is the greater of 3.0% or \$7—here, it will be 3.0% for this transaction because \$7 is lower, meaning the Purchaser will pay \$3,090 total for the 25,000 Massa Tokens. Note that this total is independent of any fee that the Purchaser’s financial institution may impose on the method of payment, e.g., a credit card fee.

Example 3: Purchaser wants to purchase 25,000 Massa Tokens at \$0.10 per Massa Token using cryptocurrency. The purchase price will be \$2,500. Purchaser will not incur an administrative fee from ODB for payments made via cryptocurrency. Note that this total is independent of (1) any gas fees that may be incurred if the Purchaser pays via cryptocurrency.

Dissolution Event:

Any of the following events shall be deemed to be a “**Dissolution Event**”: (i) a voluntary termination of the operations of the Company, (ii) a general assignment of all or substantially all the Company’s assets for the benefit of the Company’s creditors, or (iii) any other liquidation, dissolution or winding up of the Company, whether voluntary or involuntary.

Upon the occurrence of either (a) a Dissolution Event prior to the Deadline Date, or (b) the transfer of any Massa Tokens purchased hereunder pursuant to the Restricted Period, the Company shall pay, after the payment of all other creditors, the Returned Purchase Amount due and payable to the Purchaser immediately prior to, or concurrent with, the occurrence of the Dissolution Event, to the extent funds are lawfully available and prior to paying any amounts to any equity holders of the Company. If immediately prior to the occurrence of the Dissolution Event, the assets of the Company that remain lawfully available for payment to the Purchaser and all holders of all other TPAs (collectively, the “**TPA Parties**”), as determined in good faith by the Company’s Council, are insufficient to permit the payment to the TPA Parties of their respective Returned Purchase Amounts, then the remaining assets of the Company lawfully available for payment shall be paid with equal priority and pro rata among the TPA Parties based on the relative value (in the Purchase Price currency of the Tokens as set out herein) of each TPA Party’s respective Purchase Amount on the date of receipt by the Company of such Purchase Amount and calculated by reference, as applicable, to the applicable exchange rate as at such date (and the claims of the Purchaser against the Company shall abate accordingly and any further claims of the Purchaser on the Company shall be extinguished). The Company will make commercially reasonable efforts but shall not be required to pay the Returned Purchase Amount to the Purchaser in the original currency of the Purchase Amount.

Documentation:

In order to complete the closing process in this Offering, each Purchaser will be required to complete such documentation as may be requested by ODB on behalf of the Company, which may include, without limitation: (1) the execution and delivery of a TPA; (2) completion of Purchaser qualification requirements (such as accreditation status verification, if applicable); (3) completion of KYC/AML or KYB (if applicable) screening requirements; and (4) confirmation by ODB of receipt of funds by Stripe (collectively, the “**Closing Requirements**”).

Governing Law

The TPAs and the underlying Massa Tokens will be governed by the law of Switzerland.

Use of Proceeds:

See “Use of Proceeds”.

Republic Service Providers

The cash fee paid to ODB from the proceeds of this Offering will be determined pursuant to the following schedule: (a) For the dollar value of the securities sold to Purchasers pursuant to Offering and the Concurrent Offering, up to but not in excess of \$1,000,000: (i) six percent (6.0%) to ODB and (b)

For the dollar value of the securities sold to Purchasers pursuant to this Offering greater than \$1,000,000: (i) five percent (5.0%) to ODB (collectively the “Cash Commission”). Neither the Memorandum nor the TPA creates any obligations in respect of these commissions and fees, which are covered in the relevant negotiated engagement agreement and/or advisory agreement (as the case may be). Neither ODB nor any of its affiliates have independently verified any of the information provided or makes any assurances as to the completeness, accuracy or reliability of any such information provided by the Company.

Graphical Representation of Purchase

For sales in the Offerings up to but not in excess of \$1,000,000 in the aggregate, a purchase of \$1,000 in this Offering would result in approximately \$930 to the Company, \$50 in cash commission to ODB, and \$20 in securities commission to ODB.

When sales in the Offerings exceed \$1,000,000 in the aggregate, an incremental \$1,000 purchase in this Offering would result in approximately \$920 to the Company, \$60 in cash commission to ODB, and \$20 in securities commission to ODB.

RISK FACTORS

A purchase of Massa Tokens, involves a high degree of risk. You should consider carefully the risks described below, together with all of the other information contained in this Private Placement Memorandum and the Offering Documents, before making a decision to participate in this Offering. The following risks entail circumstances under which the Massa Platform, the Massa Tokens, and their related operations and prospects could suffer. They may also be harmed by additional risks and uncertainties not currently known or that we currently do not believe to be material.

UNLESS EXPRESSLY SET OUT HEREIN, THE COMPANY SPECIFICALLY DOES NOT REPRESENT AND WARRANT AND EXPRESSLY DISCLAIMS ANY REPRESENTATION OR WARRANTY WITH RESPECT TO THE INFORMATION MATERIALS, THE MASSA TOKENS, EXPRESS, IMPLIED, OR STATUTORY, INCLUDING WITHOUT LIMITATION, ANY REPRESENTATIONS OR WARRANTIES OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY, USAGE, SUITABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE, OR AS TO THE WORKMANSHIP OR TECHNICAL CODING THEREOF, OR THE ABSENCE OF ANY DEFECTS THEREIN, WHETHER LATENT OR PATENT. THE COMPANY DOES NOT REPRESENT OR WARRANT THAT MASSA TOKENS ARE RELIABLE, CURRENT, OR ERROR-FREE, MEET YOUR REQUIREMENTS, OR THAT DEFECTS IN THE MASSA TOKENS WILL BE CORRECTED. THE COMPANY CANNOT AND DOES NOT REPRESENT OR WARRANT THAT MASSA TOKENS OR THE DELIVERY MECHANISM FOR THE MASSA TOKENS IS FREE OF VIRUSES OR OTHER HARMFUL COMPONENTS.

A significant amount of further work may be required in order for the Company to integrate the Massa Tokens into the Massa Platform and much of that work may be subject to regulatory approval and otherwise reliant on the input or consent of other persons not under the control of the Company. The success of the Massa Tokens is reliant upon the Company (i) raising sufficient resources to fund the ongoing development of the Massa Tokens; and (ii) complying with ongoing funding, reserve and/or regulatory requirements (as relevant) related to the proposed creation and operation of the Massa Tokens (collectively, the “**Regulatory and Funding Requirements**”).

There is a significant risk that the Massa Tokens are not developed as envisaged herein. The Company, in the sole and absolute discretion of the Council, reserves the right to modify, extend, reduce, eliminate, add and/or substitute the scale, scope, business lines, operations, and any other characteristics of the Massa Tokens in order to address any actual or perceived commercial, legal, regulatory or other matters that the Council, in its sole and absolute discretion, considers relevant at any time.

The Company may issue Massa Tokens even if there are material changes to the scale, scope, business lines, operations, and any other characteristics of the Massa Tokens or the Massa Platform or if the Company or its affiliates have not satisfied (or are unlikely to satisfy) any regulatory and funding requirements or any other regulatory, commercial or legal requirements with respect to the Massa Tokens. No promises of future performance or value are or will be made with respect to the Massa Tokens, including no promise of inherent value, no promise of continuing payments, and no guarantee that the Massa Tokens will hold any particular value.

The Company is developing the Massa Tokens to be used with respect to the Massa Platform. Subject to applicable law and the cautionary statements and risk factors contained in Private Placement Memorandum, upon the Massa Token Integration Event, the Massa Platform will accept any duly presented Massa Tokens in exchange for privileges and other benefits related to such Massa Tokens from time to time on the Massa Platform.

The precise terms of the privileges and other benefits of the Massa Tokens will be determined by the Company as the owner of the Massa Platform in its sole and absolute discretion from time to time. Such privileges and benefits will initially be determined by such person on or around the Massa Token Integration Event and may be amended thereafter at any time and without notice to, or consent from, any holder of Massa Tokens. Any such determination or amendment shall not be a breach of the terms of this Offering.

The Massa Tokens are provided on an “as is” and “as available” basis, without warranty of any kind, either expressed or implied, including, without limitation, warranties that the Massa Token is free of defects, vulnerabilities, merchantable, fit for a particular purpose or non-infringing. Any use of the Massa Tokens shall be at your own risk. In no event shall the Company be held liable in connection with or for any claims, losses, damages, or other liabilities, whether in contract, tort, or otherwise, arising out of or in connection with the Massa Tokens or its operation or use or be under any obligation to support, develop or otherwise maintain or promote the use of the Massa Platform or the integration of the Massa Tokens into the Massa Platform.

While the Massa Tokens are available only to contributors that are not Prohibited Persons there is the possibility that Massa Tokens could be acquired over time or following changes in the regulatory landscape by persons in other jurisdictions currently restricted from acquiring Massa Tokens and, accordingly, the risk factors set out below may include certain risk factors specific to certain jurisdictions even though the Company will not at present make the Massa Tokens available at this time to persons from such jurisdictions.

BY PARTICIPATING IN ANY ACQUISITION OF TOKENS, YOU EXPRESSLY ACKNOWLEDGE AND ASSUME ALL RISKS RELATED THERETO INCLUDING (WITHOUT LIMITATION) THE RISKS SET OUT BELOW.

No Guarantee that Massa Tokens Will be Released. Many factors could influence the success of the Company and the Massa Tokens, some of which are out of the Company’s control, and there can be no guarantee that the Company will ultimately be successful in deploying and delivering the Massa Tokens. The Company may change its plans for issuing the Massa Tokens for a variety of reasons, including a change in business plan, technological challenges, lack of perceived demand, or other reasons. Finally, if the Company ceases operations, agrees to assign its assets and liabilities to a third party for the benefit of creditors in the case of insolvency, or engages in a liquidation or winding up, it may never issue the Massa Tokens. If the Token Integration Event does not occur or for other reasons the Company does not issue the Massa Tokens as planned, Purchasers will not receive some or all of their Massa Tokens. The Company has sole discretion to determine when, or if, the Token Integration Event occurs.

No Guarantee on When or if the Token Integration Event Will Occur. There are no guarantees as to the timing (if ever) of the Token Integration Event or the release of the Massa Tokens, each of which is dependent on many factors, including many outside the Company’s control.

Risk of Losing Access to Massa Tokens Due to Wallet Incompatibility. Your cryptocurrency wallet must be EVM-compatible and possess technical infrastructure that is compatible with the receipt, storage, and transfer of the Massa Tokens. Non-compatible wallet addresses will not be accepted, and any attempt to transfer Massa Tokens to a non-compatible wallet address may result in the loss of such Massa Tokens. In addition, your wallet address must not be associated with a third-party exchange or service that has custody over the private key. The Company reserves the right to prescribe additional conditions relating to specific wallet requirements at any time, acting in its sole discretion.

Risks Associated with the Blockchain Platforms. Any malfunction, breakdown, abandonment, unintended function, unexpected functioning of, or attack on the platform upon which the Massa Tokens are issued may have an adverse effect on the Massa Tokens, including causing them to malfunction or function in an unexpected or unintended manner.

Risks Associated with the Overarching Blockchain Industry in Which the Massa Platform Operates. The growth of the blockchain industry in general, is subject to a high degree of uncertainty regarding consumer adoption and long-term development. The factors affecting the further development of the cryptocurrency and cryptoassets industry, as well as blockchain networks, include without limitation, the worldwide growth in the adoption and use of digital assets and other blockchain technologies; governmental and quasi-governmental regulation of digital assets and their use, or restrictions on or regulation of access to and operation of blockchain networks or similar systems; the maintenance and development of the open source software protocol of blockchain networks; changes in consumer demographics and public tastes and preferences; the

availability and popularity of other forms or methods of buying and selling goods and services, or trading assets including new means of using government-backed currencies or existing networks; the extent to which current interest in cryptocurrencies represents a speculative “bubble”; general economic conditions in the United States and the world; the regulatory environment relating to cryptocurrencies and blockchains; and a decline in the popularity or acceptance of cryptocurrencies or other block-based tokens. The digital assets industries as a whole have been characterized by rapid changes and innovations and are constantly evolving. Although they have experienced significant growth in recent years, the slowing or stopping of the development, general acceptance and adoption, and usage of blockchain networks and blockchain assets may deter or delay the acceptance and adoption of the Massa Tokens.

Risks Associated with Your Credentials. Any third party that gains access to or learns of your wallet login credentials or private keys may be able to dispose of your Massa Tokens. To minimize this risk, you should guard against unauthorized access to your electronic devices. Best practices dictate that you safely store private keys in one or more backup locations geographically separated from the working location. In addition, you are responsible for giving us the correct wallet address to which to send your Massa Tokens. If you give us the incorrect address to which to send your Massa Tokens, we are not responsible for any loss of Massa Tokens that may occur.

Purchasers are Responsible for Securing and Maintaining their Private Keys and Otherwise Following Cybersecurity Best Practices. Failure to do so May result in the Loss of all the Purchaser’s Massa Tokens. The Massa Token balances are associated with the Purchasers’ respective wallets with the Purchasers’ respective token public keys, which in turn are associated with Purchasers’ specific token private keys. Each Purchaser is responsible for knowing such Purchaser’s private key and keeping it safe and a secret. A private key, or a combination of private keys, is necessary to control and use Massa Tokens stored in a digital wallet or vault. The loss of one or more of a Purchaser’s private keys associated with such Purchaser’s digital wallet or vault storing the Massa Tokens will result in the loss of the Purchasers’ Massa Tokens. The Company will never ask for Purchasers’ private keys, and Purchasers should never share any private keys with anyone. Further, the Purchaser is responsible for becoming and staying educated on best practices for securely keeping private keys, protecting any relevant personally identifiable information, and on cybersecurity best practices more generally. Holders of cryptoassets can be targeted by hackers in many ways which are out of our control. Holders’ private keys can also be stolen. Any third party that gains access to one or more of Purchaser’s private keys, including by gaining access to login credentials of a hosted wallet service used by the Purchaser, may be able to misappropriate Purchaser’s Massa Tokens. The Company has no control over such attacks and cannot stop hackers from stealing private keys of users. The Company will further accept no liability and will not reimburse the Purchaser for any theft of private keys or any malfunction of wallet software. As a result, any loss of the Purchaser’s Massa Tokens due to such theft or malfunction or unauthorized use of any private keys may be final and result in the complete loss of the Purchaser’s Massa Tokens purchased hereunder.

Risk of Unfavorable Regulatory Action in One or More Jurisdictions. Blockchain technologies and cryptographic tokens have been the subject of scrutiny by various regulatory bodies around the world. Blockchain technology allows new forms of interaction, and it is possible that certain jurisdictions will apply existing regulations on, or introduce new regulations addressing, blockchain technology-based applications, which regulations may be contrary to the current setup of the Massa Tokens or their associated smart contract system and, therefore, may result in substantial modifications to the Massa Tokens and such smart contract systems, including its termination and the loss of Massa Tokens.

The regulatory status of cryptographic tokens and distributed ledger technology is unclear or unsettled in many jurisdictions. It is difficult to predict how or whether regulatory authorities may apply existing regulations with respect to such technology and its applications, including specifically (but without limitation to) the Massa Platform and Massa Tokens. It is likewise difficult to predict how or whether any legislative or regulatory authorities may implement changes to law and regulation affecting distributed ledger technology and its applications, including specifically (but without limitation to) the Massa Tokens. Regulatory actions could negatively impact the Massa Tokens in various ways, including, for purposes of illustration only, through a determination that Tokens are a regulated financial instrument that requires registration, licensing, recordkeeping, reporting, or restriction. The Company may cease operations in a jurisdiction if regulatory actions, or changes to law or regulation, make it illegal to operate in such jurisdiction, or commercially undesirable to obtain the necessary regulatory approval(s) to operate in such jurisdiction. The functioning of the Massa Tokens could be impacted by any regulatory inquiries or actions, including restrictions on the use, sale, or possession of digital tokens like the Massa Tokens, which restrictions could impede, limit, or end the development of the Massa Tokens and increase legal costs.

The cryptocurrency exchange market, the token listing and trading market, initial coin offerings, and by extension the Massa Tokens, are or may be subject to a variety of federal, state, and international laws and regulations, including those with respect to KYC/AML and customer due diligence procedures, privacy and data protection, consumer protection, data security, foreign exchange controls money transmission, and others. These laws and regulations, and the interpretation or application of these laws and regulations, could change. In addition, new laws or regulations affecting the Massa Tokens could be enacted, which

could impact the utility of the Massa Tokens in the Massa Platform. Additionally, users of the Massa Platform are subject to or may be adversely affected by industry-specific laws and regulations or licensing requirements. If any of these parties fails to comply with any of these licensing requirements or other applicable laws or regulations, or if such laws and regulations or licensing requirements become more stringent or are otherwise expanded, it could adversely impact the Massa Tokens, including the utility of Massa Tokens with respect to the Massa Platform, including any applications that are built in connection with the Massa Platform.

The Company may need to obtain approvals from one or more governmental authorities and there is a risk that securing such approvals may delay or prevent the Token Integration Event, the development of the Massa Tokens and/or the Company's ability to issue the Massa Tokens.

We are not Licensed to Conduct a Virtual Currency Business in New York and do not Currently Intend to Become Licensed in any Other State. We Have Taken the Position that the New York's BitLicense Regulatory Framework does not Apply to our Offer and Sale of the Interests. It is Possible, however, that the New York State Department of Financial Services could Disagree with our Position. We are not licensed to conduct a virtual currency business in New York or any other state. We have, however, taken the position that the State of New York's BitLicense Regulatory Framework does not apply to the offering or operation of the Massa Platform or the offer and sale of the Interests.

It is possible that the New York State Department of Financial Services could disagree with our position. If we were deemed to be conducting an unlicensed virtual currency business in New York, we could be subject to significant additional regulation and/or regulatory consequences and/or be required to no longer make the Massa Platform or the Interests available in New York or to New York residents. Other states may take a similar position in the future. Any of these outcomes may negatively affect Massa Tokens, including its further development, or the value of the Massa Tokens and/or could cause us to cease operations in New York or any other states requiring a license for our activity.

We are not Licensed as a Money Transmitter under State Law or Registered as a Money Services Business under Federal Law, and our business may be adversely affected if we are required to do so. We believe that we are not a money transmitter under state law or a money services business under federal law in the United States when we offer the Massa Platform to developers. Further, we do not generally or specifically target U.S. Persons (as defined under the Securities Act) or residents to be users of the Massa Tokens. If we were deemed to be a money transmitter under state law and/or money services business under federal law, we would be subject to significant additional regulation and costs. This could lead to significant changes with respect to operations of the Massa Platform, the Massa Tokens, suspensions in the operation of the Massa Platform, the Massa Blockchain, the Massa Tokens or certain of its components, changes in how the Massa Tokens are structured, changes in how they are issued and other regulatory or business consequences and would greatly increase our costs in creating and facilitating transactions of the Massa Tokens. It could also lead to a decrease in value of Massa Tokens. In addition, a regulator could take action against us if it views our activity regarding the Massa Platform or the Massa Tokens as a violation of existing law. Any of these outcomes would negatively affect the value of the Massa Tokens and/or could cause the Company to cease operations in certain states or nationwide.

Risk of Massa Tokens Being Deemed a Futures Contract or Swap. Given the time period between the close of this Offering and delivery of the Massa Tokens, there is a risk that any deferred delivery arrangement involving a commodity could be viewed as a futures contract or swap transaction under U.S. commodities laws. We believe that this risk is generally a latent one that is mitigated by the Company's obligation to deliver Massa Tokens shortly after the Token Integration Event to Purchasers who represent and warrant that they are Massa Platform users not purchasing with speculative intent and who are otherwise prohibited from transferring the Massa Tokens before the Massa Token is launched.

Risk of Litigation and/or Third-Party Claims. From time to time, third parties may assert claims against the Company, its developers, and/or its underlying technology. Regardless of the merit of any legal action or claim, any action that reduces confidence in the Company's long-term viability or the ability of individuals to hold and transfer Massa Tokens may adversely affect the Massa Platform. Additionally, a meritorious claim could prevent developers from accessing the most up-to-date protocol code or holding or transferring their Massa Tokens.

Risk of Alternative, Unofficial Platforms. Following the issuance of the Massa Tokens, it is possible that alternative applications or platforms could be established, which use the same or similar open-source code and protocol underlying the Massa Tokens. The Massa Tokens may have no intrinsic value with respect to such alternative applications. The Massa Tokens may compete with these alternative, unofficial token-based applications, which could potentially negatively impact the Massa Tokens.

Assertions by Third Parties of Infringement or other Violation by Us of Their Intellectual Property Rights Could Harm our Ability to Develop the Massa Platform and the Massa Token. Third parties may in the future assert that we have infringed, misappropriated, or otherwise violated their copyrights, patents, and other intellectual property rights, and as we face increasing competition, the possibility of intellectual property infringement claims against us grows. Various laws and regulations govern the copyright and other intellectual property rights associated with the Massa Platform. Existing laws and regulations are evolving and subject to different interpretations, and various legislative or regulatory bodies may expand current or enact new laws or regulations. We cannot assure you that we are not infringing or violating any third-party intellectual property rights, or that we will not do so in the future. In addition, internet and technology companies are frequently subject to litigation based on allegations of infringement, misappropriation, or other violations of intellectual property rights. Many companies in these industries, including many of our competitors, have substantially larger patent and intellectual property portfolios than we do, which could make us a target for litigation as we may not be able to assert counterclaims against parties that sue us for patent, or other intellectual property infringement. By their nature, media platforms feature content protected by intellectual property laws and may be fora for the publication of content that has infringed upon the intellectual property rights of others.

It is difficult to predict whether assertions of third-party intellectual property rights or any infringement or misappropriation claims arising from such assertions will substantially harm our business, operating results, and financial condition. If we are forced to defend against any infringement or misappropriation claims, whether they are with or without merit, are settled out of court, or are determined in our favor, we may be required to expend significant time and financial resources on the defense of such claims. Furthermore, an adverse outcome of a dispute may require us to pay significant damages, which may be even greater if we are found to have willfully infringed upon a party's intellectual property; cease exploiting copyrighted content that we have previously had the ability to exploit; cease using solutions that are alleged to infringe or misappropriate the intellectual property of others; expend additional development resources to redesign our solutions; enter into potentially unfavorable royalty or license agreements in order to obtain the right to use necessary technologies, content, or materials; indemnify our partners and other third parties; and/or take other actions that may have material effects on our business, operating results, and financial condition.

Massa Token Integration Risk and Risk of Insufficient Interest in the Massa Protocol. There are no guarantees as to the timing of the Massa Tokens being integrated into the Massa Platform, which is dependent on many factors, including many outside the Company's control. Further, it is possible that there will be limited public interest in the Massa Tokens or that public interest in the Massa Platform may reduce over time. Such a lack of interest could negatively impact the Massa Tokens and their functionality in the Massa Platform.

Operating History. The Company has little operating history in the blockchain industry, which continues to be evolving and may not develop as expected. The Company's historical performance does not necessarily reflect future performance or the likelihood of the success of the Massa Tokens. A significant amount of work was required in order to create the Massa Tokens and implement the Massa Token into the Massa Platform and much of that work is reliant on the input or consent of other persons not under the control of the Company. Assessing the business and future prospects of the Company is challenging in light of the risks and difficulties the Company may encounter. These risks and difficulties include but are not limited to, their ability to:

- navigate complex and evolving regulatory and competitive environments;
- obtain the requisite regulatory and other licenses in the relevant jurisdictions;
- obtain and retain customers;
- successfully develop, maintain, and update internal controls to manage compliance within an evolving and complex regulatory environment;
- effectively identify and react to market trends;
- be involved in the successful development and deployment of the Massa Tokens;
- implement new products and services;
- successfully execute the Company's funding strategy;
- effectively compete with other companies;
- successfully navigate economic conditions and fluctuations in the market;
- effectively manage the growth of the business;
- continue to develop, maintain, and scale the Massa Tokens;
- effectively use finite personnel and technology resources;
- effectively maintain and scale financial and risk management controls and procedures;
- maintain the security of technology infrastructure, and the confidentiality of the information provided and utilized therein; and
- attract, integrate, and retain qualified employees and contractors.

Risk that the Massa Tokens Will Not Meet Expectations. Any expectations or assumptions regarding the form and functionality of the Massa Tokens (including participant behavior) held by the Company or by you may not be met, for any number of reasons, including, without limitation, mistaken assumptions or analysis, a change in the design and implementation plans, and changes in the execution of the Massa Tokens. Moreover, the Company may not be able to retain full and effective control over how other participants will use the Massa Platform, what products or services will be offered through the Massa Platform by third parties, or how third-party products and services will utilize Massa Tokens (if at all). This could create the risk that the Massa Tokens, as further developed and maintained, may not meet your expectations. Furthermore, despite our good faith efforts, it is still possible that the integration of the Massa Tokens into the Massa Platform will experience malfunctions or otherwise fail to be adequately maintained, which may negatively impact the Massa Platform and Massa Tokens, and the potential utility of the Massa Tokens within the Massa Platform.

The Value of the Massa Tokens will be Affected by the Success of the Massa Platform. Because the Massa Tokens are intended for use on the Massa Platform, a failure to maintain the Massa Platform would negatively affect the value of the Massa Tokens. There is no guarantee that the Massa Blockchain, including its use of the Massa Tokens will develop as planned or become successful in the marketplace.

Long-term Viability of Cryptoassets. Cryptoassets, including those like the Massa Tokens, are a new and relatively untested product. There is considerable uncertainty about their long-term viability, which could be affected by a variety of factors, including many market-based factors such as economic growth, inflation, and others. In addition, the success of cryptoassets (including the Massa Tokens) will depend on the long-term utility and economic viability of blockchain and other new technologies related to cryptoassets. Due in part to these uncertainties, the price of cryptoassets are volatile and the Massa Tokens may be hard to sell. Further, the value of Massa Tokens may decrease over time, which may impact interest in, or the success of, the Massa Platform. The Company does not control any of these factors, including the ability of the Massa Tokens to maintain their value over time.

Further Innovations in the Cryptoasset Industry may Cause the Massa Tokens to Lose Value. The development and acceptance of the cryptographic and algorithmic protocols governing the issuance of, and transactions in, cryptoassets is subject to a variety of factors that are difficult to evaluate and predict. The use of cryptoassets to, among other things, transact in goods and services is part of a new and rapidly evolving commercial practice that employs digital assets based on a computer-generated mathematical and/or cryptographic protocol. The growth of this commercial practice in general, and the use of cryptoassets in particular is subject to a high degree of uncertainty. Factors affecting further development of the cryptoasset industry include, among other things, the continued worldwide adoption of cryptoassets; governmental and quasi-governmental regulation of cryptoassets and/or cryptoasset exchanges; changing consumer demographics, tastes, and preferences; sustained development and maintenance of open-source software protocols; the popularity and availability of alternative and/or new payment services; and general economic conditions. If these factors negatively affect or impede the development of the cryptoasset industry, the value of holding Massa Tokens may also be negatively affected.

Inability to Fund Development or Maintenance. The Company may not be able to fund development of the Massa Tokens in the manner that it was intended.

Risks from Taxation. The tax characterization of the Massa Tokens is uncertain as described above, which may lead to inefficient tax outcomes for Purchasers and/or the Company and/or its affiliates. You must seek your own tax advice in connection with acquiring and holding Massa Tokens, which may result in adverse tax consequences to you, including withholding taxes, income taxes, and tax reporting requirements. The purchase of Interests may result in adverse tax consequences to Purchasers, including withholding taxes, income taxes, and tax reporting requirements. Additionally, subsequent transactions in cryptoassets such as the Massa Tokens may cause Purchasers to incur tax liabilities. Further, any reward received in the form of, or through the use of, Massa Tokens may result in additional tax liability. Each Purchaser should consult with and must rely upon the advice of its own professional tax advisors.

Risk of Theft and Hacking. Smart contracts, software applications, and the Massa Tokens may be exposed to attacks by hackers or other individuals, groups, organizations, or countries that interfere with the availability of the Massa Tokens in any number of ways, including denial of service attacks, sybil attacks, spoofing, smurfing, malware attacks, or consensus-based attacks, or phishing, or other novel methods that may or may not be known. Any such successful attacks could result in theft or loss of Massa Tokens, adversely impacting the ability to further derive any usage or functionality from Massa Tokens. The Company must take appropriate steps to ensure the integrity of its smart contracts, systems, and other vectors of potential attack. You must take appropriate steps to satisfy yourself of the integrity and veracity of relevant websites, systems, and communications. Furthermore, because the Massa Tokens employs open-source software, there is a risk that a third party or a member of the Company's team may intentionally or unintentionally introduce weaknesses or defects into the core infrastructure of the Massa Token and negatively affect it.

You acknowledge, understand, and accept that if your private key or password gets lost or stolen, the Massa Tokens associated with your wallet address may be unrecoverable and permanently lost. Additionally, any third party that gains access to your private key, including by gaining access to the login credentials relating to your wallet, may be able to misappropriate your Massa Tokens. Any errors or malfunctions caused by or otherwise related to the digital wallet or vault you choose to receive and store Massa Tokens, including your own failure to properly maintain or use such digital wallet or vault, may also result in the loss of your Massa Tokens, for which the Company shall have no liability.

Misconduct and Errors Risks. The Company is exposed to many types of operational risk, including the risk of misconduct and errors by our employees, former employees, and other third-party service providers, or by users and developers on the Massa Platform, whom the Company does not control, could be in a position to handle large amounts of sensitive and potentially proprietary information, whose exposure could result in significant liability. It is not always possible to identify and deter misconduct by employees or third-party providers, and the Company cannot control developers or uses of the Massa Platform. The precautions the Company takes to detect and prevent this activity, such as encryption of user data, may not be effective in controlling unknown or unmanaged risks or losses. Any of these occurrences could result in the Company's diminished ability to operate the business and develop the Massa Platform, inability to attract future developers and users, regulatory intervention, and financial harm which could negatively impact the Company, the growth of the Company, and the value of Massa Tokens.

Risk of Security Weaknesses in the Massa Tokens. The Massa Tokens consists, at least in part, of open-source software that may, in turn, be based on other open-source software. There is a risk that the Company or other third parties may intentionally or unintentionally introduce weaknesses or bugs into the core infrastructural elements of the Massa Tokens to interfere with the use of or cause the loss of Massa Tokens.

Risk of Weaknesses or Exploitable Breakthroughs in the Field of Cryptography. Advances in cryptography, or technical advances such as the development of quantum computing, could present risks to cryptocurrencies (like Massa Tokens) by rendering ineffective the cryptographic consensus mechanism that underpins the Massa Tokens, which could result in the theft, loss, or decreased utility of the Massa Tokens. Smart contracts, blockchain application software, and blockchain platforms and protocols are still in an early development stage and relatively unproven. There is no warranty or assurance that the process for creating Massa Tokens will be uninterrupted or error-free and there is an inherent risk that the software could contain defects, weaknesses, vulnerabilities, viruses, or bugs causing, inter alia, the complete loss of contributions and/or Massa Tokens.

Risk of Lack of Adoption or Use of the Massa Tokens. While the Massa Tokens should not be viewed as an investment, they may have value over time. That value may be limited or non-existent if the Massa Tokens lack acceptance, use, and adoption on the Massa Platform.

Risk of an Illiquid Market for Massa Tokens. There may never be any marketplace for Massa Tokens. There are currently no exchanges upon which the Massa Tokens would trade. If exchanges do develop, they will likely be relatively new and subject to poorly understood regulatory oversight. They may, therefore, be more exposed to fraud and failure than established, regulated exchanges for other products and have a negative impact on the Massa Tokens. To the extent that any third party ascribes an external exchange value to Massa Tokens (e.g., as denominated in a crypto or fiat currency), such value may be extremely volatile and diminish to zero. If (despite your representations to us to the contrary) you are holding Massa Tokens as a form of investment on a speculative basis or otherwise, or for a financial purpose, with the expectation or desire that their inherent, intrinsic or cash-equivalent value may increase with time, you assume all risks associated with such speculation or actions, and any errors associated therewith, and accept that the Massa Tokens are not offered by the Company or its affiliates on an investment basis.

Risk of Dissolution of the Massa Tokens. It is possible that, due to any number of reasons, including development issues with the Massa Tokens, the failure of business relationships, lack of public interest, lack of funding, or competing intellectual property claims, the Massa Platform and/or Massa Tokens may no longer be viable as a business or otherwise and may dissolve or fail to maintain commercial or legal viability, or be abandoned. There is no assurance that you will receive any benefits through the Massa Tokens.

Risk of Malfunction in the Massa Tokens. It is possible that the Massa Tokens or the Massa Platform malfunctions in an unfavorable way, including one that results in the loss of the Massa Tokens.

Risk Associated with Licensed Third-Party Technology. The Massa Tokens are created solely for purposes of operating and integrating with the Massa Platform.

Risk Associated with Underlying Technology. There can be no guarantee that the technology required for operation of the Massa Platform will function as anticipated or function at all. This technology may malfunction because of internal problems or as a result of cyberattacks or security breaches or the Company might not be able to successfully develop the technology. Further, there may be no alternatives available if this technology does not work as anticipated. As a result, failure of this technology to work as intended may adversely affect the operation and growth of the Massa Platform and may have a material adverse impact on Massa Tokens.

Risks Associated with Incomplete Information regarding the Massa Tokens. You will not have full access to all the information relevant to the Company and the Massa Tokens. The Company is not required to update you on the progress of the Massa Tokens. You are responsible for making your own decision in respect of the acquisition of the Massa Tokens. The Company does not provide you with any recommendation or advice in respect of the acquisition of the Massa Tokens. You may not rely on the Company to provide you with complete or up-to-date information.

The Holders of Massa Tokens will not be in any Fiduciary, Partnership, Trustee, Agency, or Similar Relationship with the Company or any of its Affiliates and will not be Owed any Fiduciary Duty by the Company or any of its Affiliates. The holders of Massa Tokens have no direct management, equity, voting, or similar rights in the Company or any of its affiliates. However, without limitation to the above, the Company reserves all rights with respect to pursuing any form of decentralized governance should it so determine that doing so would be in the best interests of the holders of Massa Tokens from time to time.

In order to seek compliance with (or to seek to mitigate the impact of) any laws, statutes, ordinances, rules, regulations, judgments, injunctions, orders, treaties, administrative acts or decrees of any nation or government, any state or other political subdivision thereof, any entity exercising legislative, judicial or administrative functions of or pertaining to government, including, without limitation, any government authority, agency, department, board, commission or instrumentality, and any court, tribunal or arbitrator(s) of competent jurisdiction, and any self-regulatory organization believed by the Company or its affiliates to apply to or affect the Company or its affiliates, the Massa Tokens, the Company may in its sole and absolute discretion take such steps as it considers necessary or convenient to comply with such matters including, without limitation, the termination of the Massa Tokens. In addition, the Company may take such steps as it considers necessary or convenient where it believes or suspects the Massa Tokens may be used, trafficked, or applied in the attempted furtherance of money laundering, terrorist financing, tax evasion, or other unlawful activity or where it believes the Massa Tokens are no longer viable.

Regulation of (i) tokens (including the Massa Tokens); (ii) cryptocurrencies; (iii) blockchain technologies; and (iv) cryptocurrency exchanges; is currently underdeveloped and is likely to evolve rapidly, vary significantly among international, national, federal, state and local jurisdictions and is subject to significant uncertainty. Various legislative and executive bodies in the United States, South Korea, China, Singapore, India, among other countries, are currently considering, or may in the future consider, laws, regulations, guidance, or other actions, which may severely impact the development and growth of the Massa Tokens and the Company. Other countries may adopt similar approaches. Failure by the Company or users of the Massa Tokens to comply with any laws, rules, and regulations, some of which may not exist yet or are subject to interpretation and may be subject to change, could result in a variety of adverse consequences, including civil penalties and fines. New or changing laws and regulations or interpretations of existing laws and regulations would likely have numerous material adverse consequences on the Company and the Massa Tokens. Therefore, there can be no assurance that any new or continuing regulatory scrutiny or initiatives will not have a material adverse impact on the value of the Massa Tokens or impede the activities of the Company.

No Specific Use of Proceeds. At present, and other than as set out herein, no proceeds have been allocated for any particular purposes, and management expects to use the net proceeds from this offering for working capital and to promote the development, security, maintenance, and distribution of the Massa Platform, regardless of whether all of the Massa Tokens under this Offering are sold. Management may also use a portion of the net proceeds to acquire, license, and invest in complementary products, technologies, or businesses in the ordinary course of business. However, management will have broad discretion over the use of proceeds and reserves the right to change the use of proceeds on other than working capital and general corporate purposes should the circumstances change, or future research and development opportunities arise and could spend the proceeds from the offering in ways with which Purchasers may not agree with or that do not yield a favorable return, if at all. If management does not use the proceeds of this offering in ways that benefit the Massa Tokens, the future value and utility of Purchasers' Massa Tokens may be adversely affected.

Representation by Legal Counsel. Certain counsel (the "***Law Firm***") represents the Company solely with respect to the specific matters pertaining to the preparation of this Memorandum. Other matters may exist that could have a bearing on the Company as to which the Law Firm has been neither retained nor consulted. The Law Firm does not undertake to monitor compliance by

the Company and its affiliates with the guidelines and procedures set forth in this Memorandum, nor does the Law Firm monitor compliance by the Company and/or its affiliates with applicable laws, unless in each case the Law Firm has been specifically retained to do so. The Law Firm does not investigate or verify the accuracy and completeness of information set forth in this Memorandum concerning the Company. Furthermore, the Law Firm is not providing any advice, representation, warranty, or other assurance of any kind as to any matter to any prospective purchasers of the Massa Tokens. No separate counsel has been engaged by the Company to represent any purchasers with respect to a purchase of the Massa Tokens.

The Company has the exclusive right, in its sole and absolute discretion, to address and remediate any of the operational, legal, or regulatory risks presented as of the date hereof or hereafter. In the exercise of such rights, it is possible that the Company may determine that the continued development of the Massa Tokens is not feasible. Accordingly, there is a material risk that the Company and its affiliates may not successfully continue to develop, market, and operate the Massa Tokens.

Unanticipated Risks. Cryptographic tokens are a relatively new and comparatively untested technology. In addition to the risks discussed herein, there are risks that the Company cannot anticipate. Further risks may materialize as unanticipated combinations or variations of the discussed risks or the emergence of new risks.

Violation of Policies Risks. Any violation of Company policies and terms and conditions of use, including misuse of the Massa Platform and Massa Tokens, by users and Massa tokenholders, may result in unforeseeable adverse impact to the Massa Platform out of the Company's control, which may in turn potentially affect the value of Massa Tokens.

Risk of Competitors. The Company believes that other organizations are or may be working to develop decentralized application systems for scalable and interoperable solutions for Web3 developers or other novel technologies that may be competitive with the technology of the Company. Some or all of these organizations that may have technology similar to the Company, may have substantially greater technological expertise, experience with blockchain technologies and/or financial resources than the Company has, and many of them may be attempting to patent technologies that may be competitive with or similar to the technology the Company has developed, or attempting to reverse engineer the Company's technology, which may be possible as a substantial portion of the software underlying the Massa Platform is open source software that is generally available to the public.

Given that such open-source software is generally available to the public, a person or company could establish software technology, and networks, built using the Company's publicly available software. It is possible that those products would be substantially similar to and competitive with the Company's software and technology. If this were to occur, it is possible that the value of the Massa Platform and Massa Tokens could decline.

Risk of Underage Users. In certain jurisdictions, persons under the age of eighteen (18) have the ability to repudiate or disaffirm contracts entered into by those individuals, and some of the Massa Platform users are likely to be under the age of eighteen. As a result, the Company may have difficulty enforcing the terms of service and other agreements entered into with such individuals that are under the age of eighteen in connection with the operation of the Company's business, the Massa Platform, and the distribution of Massa Tokens.

Risks Associated with Issuance of Additional Tokens. In addition to the Massa Tokens that may be issued to Massa tokenholders that stake Massa if and when the Company enables staking, additional Massa Tokens may be issued in the future in the event the Company, or if Massa tokenholders are provided governance rights, Massa tokenholders collectively determine it is in the best interest of the Massa Platform to do so. If such event occurs, the value of Massa Tokens may be adversely impacted, and a Massa tokenholder's token holding may also be diluted as a result.

Risk Associated with Hiring and Retaining Personnel. Because the blockchain industry is a technologically cutting-edge field, the market for engineers and other non-technical talent familiar with the industry is competitive. It may be difficult to attract and retain qualified individuals with the expertise, and in the timeframe, required for the steady progress of the Massa Platform. If we were to lose some or all of our personnel, they would be difficult to replace, which in turn may present significant delays in the continued development of the Massa Platform. In addition, if any of our key personnel, retires or otherwise leaves the Company, we will need to have appropriate succession plans in place and to successfully implement such plans, which requires time and resources devoted towards identifying and integrating new personnel into leadership roles and other key positions. If we cannot attract and retain qualified personnel or effectively implement appropriate succession plans, it could have a material adverse impact on the operations of the Massa Platform, as well as the business and financial condition of the Company. We do not maintain key-person life insurance policies on our key personnel.

There may be Occasions when Certain Individuals Involved in the Development of the Massa Platform may Encounter Potential Conflicts of Interest, such that such a Person may Avoid a Loss, or even Realize a Gain, when other Purchasers

are Suffering Losses. There may be occasions when certain individuals involved in the development of the Massa Platform or the Company may encounter potential conflicts of interest in connection with the sale of Massa Tokens described herein, such that such person may avoid a loss, or even realize a gain, when other Purchasers in such sale are suffering losses. Purchasers may also have conflicting investment, tax, and other interests, which may arise from the terms of the Offering Documents, the Massa Platform and its code, or other factors. Decisions made by the Company on such matters may be more beneficial for some Purchasers than for others.

Risks Associated with Single Point of Failure. The Company is an ownerless entity organized pursuant to Swiss law and operated by its directors. All other services are provided to the Company pursuant to contractual relationships, where persons performing material functions for the Company are not employees of the Company. As a result, there is a heightened risk of a single point of failure if the Company's directors are unable to fulfill their duties.

Risks Associated with the Structure of Token Purchase Agreements. An investment in a TPA involves a significant amount of risk and is suitable only for sophisticated Purchasers: (i) of substantial means who have no immediate need for liquidity in the amount invested; (ii) for whom such investment does not constitute a complete investment program; (iii) that fully understand, and are willing to assume and have the financial resources necessary to withstand, the risks involved in investing in a TPA; and (iv) that can bear the potential loss of all of their investment in a TPA. There is no assurance as to whether an investment in a TPA will be profitable. Any Investment made in a TPA may result in a loss of all or part of a Purchaser's Investment. The Token Purchase Agreement or a portion thereof may be modified, waived, or amended without your consent consistent with its terms.

Risks Associated with Potential Public Listings of Massa Tokens Could Negatively Impact Their Price. The Company may, in the future, list Massa Tokens on digital asset trading platforms (aka. "Exchanges"). Any such listing could negatively impact the price of Massa Tokens, especially if there is significant selling activity on any such exchange. Lockups applicable to any Interests purchased in this Offering may prevent participants in this Offering from selling their stake in Massa Tokens while such Massa Tokens remain subject to a lock-up.

Risks Associated with Inflationary Rate of Massa Tokens. There is no assurance as to whether the inflationary rate of Massa Tokens will increase as anticipated by the Company in the inflation chart (See. "[Description of Massa Tokens](#)" below). The inflation rate is dependent on variables outside of the Company's control, that may impact the inflationary rate of Massa Tokens. As a result, the inflationary rate of Massa Tokens may vary, among other factors, based on the number of missed blocks resulting in missed rewards.

USE OF PROCEEDS

The Company estimates that the maximum net proceeds from this Offering and any other contemporaneous Massa Token offerings on Republic (together, the “*Republic Offerings*”) may be approximately \$3,150,000 after deducting estimated offering expenses, less any marketing and legal expenses. The Company intends to use the proceeds of the Republic Offerings, net of any federal and state income taxes, for general business purposes, including, but not limited to, promoting the development, security, maintenance, and distribution of decentralized protocols, including the Massa Platform, fostering the Massa Platform developer community, organizing a grant committee to distribute token grants to the Massa ecosystem, and organizing and executing research on decentralized blockchain infrastructures. Proceeds from this Offering may be used to compensate or otherwise make payments to officers or directors of the Company in accordance with best market practices for Swiss Foundations. No proceeds from this Offering will be used to discharge any indebtedness. It is anticipated that the proceeds raised in this Offering will be sufficient to fund our operations for at least eighteen months.

Accordingly, our management will have broad discretion over the application of the proceeds received from the Republic Offerings and may spend the proceeds from the Offering in ways with which investors may not agree with or that do not yield a favorable return, if at all. We cannot predict whether this allocation invested will yield a favorable return. If management does not invest or apply the proceeds of this offering in ways that benefit the Massa Tokens, the future value and utility of Purchasers’ Massa Tokens may be adversely affected. Our failure to apply such funds effectively could have a material adverse effect on our business, financial conditions, and results of operations. We cannot specify with certainty all of the particular uses for the net proceeds to be received upon the closing of the Republic Offerings. In addition, the amount and timing of our actual expenditures will depend upon numerous factors. Pending other uses, we may allocate the proceeds to interest-bearing instruments, direct or guaranteed obligations of the U.S. government, crypto assets, or hold as cash.

We cannot guarantee that we will be able to sell any or all of the Massa Tokens in the Republic Offerings. If we do not sell any of the Massa Tokens, we will not obtain any usable proceeds from the Republic Offerings and our ability to continue as a going concern may be called into question.

The Company reserves the right to alter the use of proceeds of the Republic Offerings.

DILUTION

The following table summarizes the differences between the total consideration and the weighted-average price per token paid by existing tokenholders who have purchased or acquired Massa Tokens or rights thereto, prior to the date of this Memorandum and participants participating in this Offering at the price, or deemed price, to the public of \$0.10 to \$0.12 per Massa Token, before deducting estimated expenses in connection to this Offering:

CERTAIN RELATIONSHIPS AND RELATED-PARTY TRANSACTIONS

ODB Offering Engagement

We are currently party to an offering engagement agreement with ODB, effective as of November 13, 2023 (the “*ODB Engagement Agreement*”), who has agreed to provide certain offering facilitation services, including executing and delivering evidence of the securities sold in this Offering to each Purchaser and the use of the Republic Platform. ODB has made no commitment to purchase all or any part of the Interests. The term of the ODB Engagement Agreement will continue until the later of the date on which (i) the TPAs are no longer being listed on the Republic Platform or (ii) all fees due to ODB being remitted unless otherwise terminated by either party upon thirty (30) days’ prior written notice or for cause pursuant to the ODB Engagement Agreement.

ODB is not purchasing any of Massa Tokens in this Offering and are not required to sell any specific number or dollar amount of securities but will instead arrange and manage this Offering on their fundraising platform, www.republic.com.

Reimbursable expenses in the event of termination. **Termination Fees are due for any termination in the event of ODB’s uncured breach, or the expiration of the term of the ODB Engagement Agreement.** The Company shall at the date of termination pay the greater of (a) \$10,000, or (b) the product of the total committed amount in the Offering at the time of termination and the Cash Commission (defined below) percentage. ODB may, at its discretion, interpret a lack of responsiveness from the Company, for a period of 14 calendar days, as terminated after requesting a response, provided that no Termination Fee shall be due under this provision in the event termination is for cause due to ODB’s uncured breach. If after ODB has set up an Offering to be displayed on the Republic Platform and the Company has met the minimum investment amount necessary to perform a closing, and the Company cancels or decides not to pursue the Offering prior to the final closing of the Offering, termination fees shall remain due and payable, except that if circumstances beyond the control of the Company make a closing impossible, then termination fees will not apply.

Commission and Expenses. The cash fee paid to ODB from the proceeds of this Offering will be determined pursuant to the following schedule: (a) For the dollar value of the securities sold to Purchasers pursuant to this Offering up to but not in excess of \$1,000,000: (i) six percent (6.0%) to ODB and (b) For the dollar value of the securities sold to Purchasers pursuant to this Offering greater than \$1,000,000: (i) five percent (5.0%) to ODB (collectively the “**Cash Commission**”). Non-accountable expenses shall be limited to one-half percent (0.5%) of the Offering’s proceeds to ODB. While our management may promote the Company and this Offering, no other commissions will be paid to anyone in connection with facilitating this Offering.

ODB has agreed, with respect to the TPAs issued to it as part of its commission, not to: (a) sell, transfer, assign, pledge or hypothecate any Interests obtained pursuant to the ODB Engagement Agreement for a period of one hundred eighty (180) days following the date on which this Offering is qualified by the SEC to anyone other than (i) its affiliates or any selected dealer that may participate in the Offering, or (ii) a bona fide officer of ODB or of any such selected dealer, in each case in accordance with FINRA Conduct Rule 5110(e)(1), or (b) cause such Massa Tokens to be the subject of any hedging, short sale, derivative, put or call transaction that would result in the effective economic disposition of such TPAs, except as provided for in FINRA Rule 5110(e)(2). On and after one hundred eighty (180) days after the date on which this Offering is qualified by the SEC, transfers to others may be made subject to compliance with or exemptions from applicable securities laws. There are no registration rights offered to ODB.

Under the ODB Engagement Agreement with ODB, ODB may also pass through certain administrative expenses related to FINRA fees and anti-money laundering, Purchaser due diligence and accreditation service, in no event in excess of \$30,000, and ancillary costs related to consulting or advisory fees, without markup. We may be required to indemnify ODB and possibly other parties with respect to disclosures made in this Memorandum. Any other fees that we may pay to ODB or other third parties will not be commissions or considered as underwriting compensation. ODB has reserved the right to enter into posting agreements with equity crowdfunding firms not associated with FINRA member firms in connection with this Offering, for which we may pay non-contingent fees as compensation.

Business Advisory Service Fees: We have agreed to pay ODB \$25,000 upon execution of the ODB Engagement Agreement, for services including standard, additional, or enhanced reviews of KYC, AML, diligence, compliance monitoring, CIP, financials, offering documents, and the appropriate time and effort undertaken to perform such reviews. ODB may provide additional guidance regarding the offering’s size and structure, market conditions, and provide suggestive participation into other possible circumstances that may affect the Company. This participation is not deemed to be absolute or as legal advice and does not serve as a substitute for Company’s own legal and regulatory representation.

Fees to Investor: ODB shall, in its sole discretion, charge a 2.5% cash fee on gross subscriptions made by each Purchaser who subscribes to the Offering through the Platform, with a minimum fee of \$7 and a maximum of \$300 per subscription.

Indemnification and Control

The Company has agreed to indemnify ODB against liabilities relating to any investigation, claim, or proceeding stemming from the Offering, liabilities arising from breaches of some, or all of the representations and warranties contained in the ODB Engagement Agreement, and to contribute to payments that ODB may be required to make for these liabilities. ODB and their respective affiliates are engaged in various activities, which may include securities, trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing, and brokerage activities. ODB and their respective affiliates may in the future perform various financial advisory and investment banking services for us, for which they received or will receive customary fees and expenses.

SECURITY OWNERSHIP OF MANAGEMENT AND CERTAIN SECURITY HOLDERS OF THE COMPANY

The Company is a Swiss foundation organized pursuant to Swiss law. The Company is an ownerless entity operated by its directors.

Massa Tokens

The following table sets forth the beneficial ownership of the Massa Tokens as of the date of this Private Placement Memorandum for each person or group that holds more than 10% of the maximum supply of Massa Tokens and for our directors and executive officers as a group. To our knowledge, each person that beneficially owns Massa Tokens has sole disposition power with regard to such tokens. The percentage of Massa Token ownership shown in the table is based upon the initial supply of Massa Tokens which is 1,000,000,000 as of the date of this Private Placement Memorandum.

Except as otherwise noted below, the address for each person or entity listed in the table is Rue de Chantepoulet 10, c/o Calliopée Sàrl, Geneva, Switzerland 1201. We have determined beneficial ownership of our Massa Tokens in accordance with the rules of the SEC.

Title of Class	Name of beneficial owner¹	Amount and nature of beneficial ownership	Percent of class
Massa Tokens	Officers and Directors as a group (2 persons)	20,800,000	2.08%

DESCRIPTION OF THE MASSA TOKENS

Ownership of Massa Tokens

We are offering TPAs in this Offering in accordance with the terms outlined under “Terms of the Offering” above, which entitles the holders thereof to purchase Massa Tokens at a fulfillment price of \$0.10 and \$0.12 per Massa Token. The TPAs and the Massa Tokens are subject to transfer restrictions as described under “Terms of the Offering” above.

Massa Tokens are the native unit of value built upon the Massa protocol used for smart contracts on the Massa blockchain and can be stored in any Massa Blockchain-compatible wallets. The Massa Blockchain is a layer 1 blockchain protocol that allows for the computation of decentralized applications, as described further below in “Description of the Massa Platform”.

The ownership of Massa Tokens is evidenced through the association of a certain number of Massa Tokens with a public key or wallet address as recorded on the blockchain underlying the Massa Blockchain. Each such public key and wallet will have an associated private key, which a tokenholder must control in order to control the Massa Tokens associated with such public key or wallet, including to transfer Massa Tokens to another person. In turn, control of the private key is proved by providing a digital signature on any digital record addressing Massa Token operations associated with the public key, which signature can only be created if the tokenholder knows the private key. As a result, control or knowledge of the private key associated with a wallet and public key determines a Massa tokenholder’s ability to control any Massa Token issued to such tokenholder. Massa Tokens are not otherwise tracked and are not designated by special serial numbers or other unique identifiers. As such, Massa Tokens are interchangeable and fungible by design.

Because a tokenholder’s control of the private key associated with a wallet and public key address is critical to the tokenholder’s control over the Massa Tokens associated with such wallet and public key address, it is necessary for holders of the Massa Tokens to ensure the security and privacy of their relevant private keys. If the private key is lost, the Massa tokenholder will no longer be able to control the Massa Tokens associated with such private key, which in turn will result in the tokenholder’s inability to transfer any Massa Tokens associated with such private key. In the event the private key is stolen or otherwise obtained by an unauthorized person, such unauthorized person will be able to control the Massa Tokens associated with such private key and may thus transfer such Massa Tokens to another person without the tokenholder’s permission.

Functionality of Massa Tokens

It is anticipated that users of the Massa Platform will be able to use the Massa Token in the following ways:

- (1) **Massa Testnet Program.** The testnet program evaluates and enhances the security, scalability, and overall useability of the blockchain architecture under real conditions in its development phase.
- (2) **Staking.** The Massa Blockchain operates a decentralized, energy-efficient proof-of-stake blockchain. The proof-of-stake algorithm randomly selects block producers to generate new blocks, contingent on the number of Tokens they possess and are prepared to stake. Staking rewards are earmarked solely for the node runners and are frequent and linear where each Token staked yields the same reward, with rewards allocated daily to amateur stakers. To facilitate validation and minimize entry barriers, the Company has implemented minimum hardware requirements. Staking nodes will share gas fees and slashed Massa Tokens. The Massa Blockchain has been shown to support 8,000+ consensus nodes in the testnet, removing the need for delegation, and encouraging active nodes to validate and control the blockchain.

Token Supply

The initial supply of Massa Tokens is 1,000,000,000 tokens subject to inflation. The total supply of Massa Tokens will be allocated as described in “Plan of Distribution”.

Inflation

The inflationary rate is approximately 6.4% during the first year and decreases each year as the total supply increases. The figure below shows the maximum inflation rate and an estimation of the annual percentage return (“*APR*”) for staking nodes over time and may vary based on the number of missed blocks resulting in missed rewards and the proportion of tokens that are staked. See “Risk Factors” for additional information.

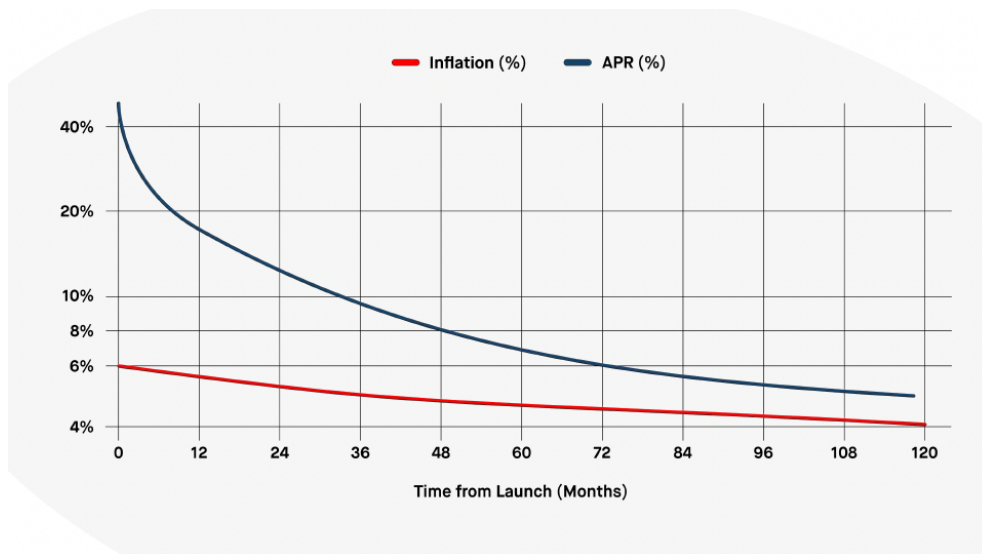

Figure: Maximum inflationary rate.

Limited Massa Token-Related Rights

Massa Tokens will not provide you with any enforceable rights against the Company, or any third-party developer, including any rights to receive payments, any control rights or any claims on assets. Holders of Massa Tokens will not receive a right to any repayment of principal or interest, any interest in the profits or losses of the Company, its affiliates, or any third-party developer. Holders of Massa Tokens may not have any right to vote on any matters relating to the Company, its affiliates, or any third-party developer, including voting for council members of the Company. Further, we are not aware of any binding obligation on the Company with respect to the Massa Tokens or the holders of Massa Tokens following the delivery of Massa Tokens.

Secondary Markets

The Massa Token is designed to be used on, or interacting with, the Massa Platform but may technically be capable of being transferred on digital asset trading platforms or other venues. The Company does not support or encourage any use of the Massa Token beyond its stated usefulness on or in connection with the Massa Platform.

DESCRIPTION OF THE MASSA PLATFORM

Overview

The Company operates for the purpose of developing and maintaining the Massa Platform. The Company targets the growing dApps market, focusing on scalable and secure blockchain solutions. Many blockchains employ a consensus algorithm that is unable to support a large number of significantly contributing nodes. Typically, these consensus algorithms are variants of Byzantine Fault Tolerance (“BFT”) algorithms that require a majority stake concentration in fewer than 100 nodes. The Blockclique technical paper⁵ demonstrates that the multithreaded block graph technology significantly outperforms traditional blockchain systems reliant on sequential block creation. The Massa Platform is able to achieve high performance while preserving decentralization due to the Nakamoto consensus, allowing meaningful participation of thousands of nodes in the network. The Company operates to address these common challenges in blockchain technology including decentralization, scalability, and security through its parallel blockchain technology, and accessibility through ease of staking and writing smart contracts.

The Company addresses these challenges through:

- (1) **Parallel Block Architecture.** The Company’s parallel block architecture allows nodes when selected by proof-of-stake, to create blocks in parallel and still make them all compatible with each other. Blocks are incorporated into a multithreaded Directed Acyclic Graph (“DAG”). On the Massa Blockchain, a chain is a subset graph, termed a clique, and the consensus algorithm determines the most suitable clique to proceed from. The technology employs an adapted version of the Nakamoto consensus algorithm that aligns with the multithreaded graph, by selecting the clique that demonstrates the most work or ‘fitness’. To prevent the same transaction appearing or being executed multiple times concurrently, the Company implements transaction sharding. Each transaction is allocated to a specific thread and can only be included in blocks within this thread, eliminating the risk of duplicate inclusion in a clique. The adapted Nakamoto consensus determines the final blocks, and allows blocks to be generated simultaneously, in parallel, scaling the number of operations per second. The Massa Blockchain has been show support 4,000+ transactions per second with over 8,000+ nodes in the testnet. The Massa Blockchain aims to reach a Nakamoto coefficient above 1000.
- (2) **Autonomous Smart Contracts.** The Massa Blockchain’s autonomous smart contracts function asynchronously and are able to self-wake, without the need for explicit off-chain human or bot interactions. The Company ensures the accessibility of smart contracts for all developers by utilizing a WebAssembly virtual machine and developing smart contracts in AssemblyScript, a language akin to TypeScript and specifically designed for WebAssembly. It allows developers to draw on their existing skills and knowledge, reducing the learning curve for building smart contracts on the Massa Platform.
- (3) **On-Chain Web and Massa Station.** Massa Station is an on-chain web access tool (“**Massa Station**”) built by Massa Labs for the Massa Blockchain and provides the ability to create and interact with DApps entirely on-chain. There are four key features: (1) domain registrations; (2) back-end hosting with smart contracts; (3) on-chain front-end hosting; and (4) seamless transition between web2 and web3. It is anticipated by the Company that these features will be fully deployed in the first half of 2024. Massa Station enables developers to build and host their projects directly on the Massa Blockchain, eliminating reliance on centralized servers, mitigating the risks of censorship and hacking. Developers can register “.massa” domains and store their websites’ logic directly on the Massa Blockchain, ensuring applications are accessible directly from any browser of a user who has installed Massa Station, without any intermediaries. Massa Station also provides a Massa wallet interface.

To safeguard decentralization, the Company created a community charter that applies to Massa community members, particularly node runners. The goal of the charter is to protect the interest of the Massa community and is included in the ledger and implicitly accepted when participating in the community, running nodes, and connecting to the network. The charter prohibits the practice of staking Tokens for others beyond a certain threshold.

Consequently, any transfer of the Massa Tokens will be subject to the transfer restrictions set forth under this “Notice to Purchasers.”
- (14) It (a) is able to act on its own behalf in the transactions contemplated by this Memorandum, (b) has such knowledge and experience in financial and business matters as to be capable of evaluating the merits and risks of its prospective purchase of the Interests and (c) (or the account for which it is acting as a fiduciary or agent) has the ability to bear the economic risks of its prospective purchase of the Tokens, and can afford the complete loss of such purchase.
- (15) It acknowledges that the Company will rely upon the truth and accuracy of the acknowledgements, representations, warranties, and agreements set forth in this “Notice to Purchasers” section and agrees that, if any acknowledgements, representations, warranties, and agreements deemed to have been made by its participation in the Offering are no longer accurate, it will promptly notify the Company.

Limitation of Liability and Indemnification

To the fullest extent permitted by applicable law, (i) in no event will the Company be liable for any indirect, special, incidental, consequential, or exemplary damages of any kind (including, but not limited to, where related to loss of revenue, income or profits, loss of use or data, or damages for business interruption) arising out of or in any way related to this Memorandum, TPAs, or Massa Tokens, regardless of the form of action, whether based in contract, tort, or any other legal or equitable claim (even if the party has been advised of the possibility of such damages and regardless of whether such damages were foreseeable); and (ii) in no event will the liability of the Company, whether in contract, tort, or other legal or equitable claim, arising out of or relating to this Memorandum, Massa Tokens exceed the amount the Purchase pays to the Company hereunder. The Company shall not be liable or responsible to the Purchaser, not be deemed to have defaulted under or breached this Memorandum, for any failure or delay in fulfilling or performing any provision of this Memorandum, including without limitation, and delivering the Massa Tokens.

The constitution of the Company provides for the indemnification of Company presidents, council members, directors, and officers against any liability incurred by such presidents, council members, directors, and officers in connection with any negligence, breach of duty, or breach of trust arising out of their performance as presidents, council members, directors, and officers of the Company.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to the president, council members, directors, officers, and controlling persons of the Company pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and may, therefore, be unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Company of expenses incurred or paid by a president, council member, director, officer, or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such president, council member, director, officer, or controlling person in connection with the securities being offered, the Company will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue. We believe that these provisions and agreements are necessary to attract and retain qualified persons as our president, council members, officers, and directors. At present, there is no pending litigation or proceeding involving our president, council members, directors, or officers for whom indemnification is required or permitted, and we are not aware of any threatened litigation or proceeding that may result in a claim for indemnification.

The Company has agreed to indemnify ODB against liabilities relating to any investigation, claim, or proceeding stemming from the Offering, liabilities arising from breaches of some or all of the representations and warranties contained in the Listing Agreement, and to contribute to payments that ODB may be required to make for these liabilities.

REGULATION D RULE 506(C) INVESTOR VERIFICATION STANDARDS

In purchasing Interests through this Offering, the Company is obligated to verify your status as an accredited investor in accordance with Rule 501 of Regulation D. There are three primary methods the Company may employ to comply with the verification standards. Purchasers in this Offering will need to provide the Company with verification that meets the standards and form using one or multiple methods, including, but not limited to:

Income: The Company may verify an individual's status as an accredited investor on the basis of income by reviewing copies of any IRS form that reports net income, such as Forms W-2 or 1099 (which are typically filed by an employer or other third party payor), or Forms 1040 filed by the Purchaser (with non-relevant information permitted to be redacted). Under this method, the Company must review IRS forms for the two most recent years and obtain a written representation from the prospective Purchaser that he or she has a reasonable expectation of attaining the necessary income level for the current year. Where accredited investor status is based on joint income with the person's spouse, the IRS forms and representation must be provided with respect to both the Purchaser and the spouse.

Net Worth: Under this method, the Company will need to review bank or brokerage statements or third-party appraisal reports to verify the Purchaser's assets and a credit report to verify liabilities, in each case dated within the prior three months, and will need to obtain a written representation from the prospective Purchaser that all liabilities have been disclosed. Where accredited investor status is based on joint net worth with the person's spouse, the asset and liability documentation and representation must be provided with respect to both the Purchaser and the spouse.

Reliance on Determination by Specified Third Parties: The Company may satisfy the verification requirement if it obtains a written confirmation from a registered broker-dealer, a registered investment adviser, a licensed attorney, or a certified public accountant that within the prior three months such person or entity has taken reasonable steps to verify that the Purchaser is an accredited investor and has determined that the Purchaser is an accredited investor. Proper verification must be submitted with your subscription for securities in order for the Company to verify your suitability for investment and accept your subscription.

3. TOKEN DELIVERY

3.1. **Delivery**. In connection with this TPA, the Company, its agents, or its representatives shall deliver to the Purchaser, in full satisfaction of this TPA, the Number of Massa Tokens Purchased set forth above in accordance. For the avoidance of doubt, Massa Tokens will be delivered to Purchaser's Wallet in accordance with the delivery schedule set forth above. The Company will deliver Massa Tokens to the Purchaser's wallet address and the Massa Tokens will subsequently be released from transfer restrictions in accordance with the Restricted Period set forth above.

3.2. **Conditions to Token Delivery**. In connection with, as a condition to, and prior to each delivery of Massa Tokens by the Company to the Purchaser pursuant to Section 3.1, and in each case unless waived in writing by the Company:

3.2.1. The Purchaser will execute and deliver to the Company any and all other transaction documents related to this TPA and the delivery of the Massa Tokens as are reasonably requested by the Company, including documentation to verify Purchaser's status as an "*Accredited Investor*" (as defined in Rule 501(a) of

Regulation D under the Securities Act);

3.2.2. The Purchaser will provide to the Company, in writing, a Massa Station or command-line client compatible wallet address (“*Wallet*”) to which the Purchaser’s Massa Tokens will be delivered;

3.2.3. The Purchaser will complete and deliver all AML and KYC Forms (as defined below) requested by the Company from time to time, including after the Effective Date; and

3.2.4. The Purchaser shall do and perform, or cause to be done and performed, all such further acts and things, and shall execute and deliver all such other agreements, certificates, instruments and documents, as the Company may reasonably request in order to carry out the intent and accomplish the restrictions in this Section 3 and/or as shall be requested to comply with then applicable laws and regulations and/or as requested by a digital asset exchange in connection with the listing of the Token.

If the Purchaser fails to meet any of the conditions above, the Company may hold the Massa Tokens deliverable hereunder in escrow until such conditions are met, and such escrow will constitute delivery of the applicable number of Massa Tokens in accordance with this instrument notwithstanding that such Massa Tokens remain in escrow.

3.3. **Lock-up.** In addition to any other restrictions required under applicable law, Purchaser agrees that it will not directly or indirectly transfer any Massa Tokens that have not been delivered to the Purchaser in accordance with Section 3.1 (such Massa Tokens being the “*Undelivered Tokens*”), any options to purchase any Undelivered Massa Tokens, or any instruments convertible into, exchangeable for, or that represent the right to receive Undelivered Massa Tokens, including this TPA. To ensure compliance with the restrictions in this Section 3.3, Purchaser acknowledges that the Company may impose technological lockups or other restrictions on the Massa Tokens. For the avoidance of doubt, all Massa Tokens issuable hereunder shall be fully released from the restrictions in this Section 3.3 only upon the delivery of all Massa Tokens to the Purchaser.

3.4. **Claiming Massa.** Massa Tokens that are purchased by you may be claimed by you only. Massa Tokens are not transferable to any blockchain address prior to the Token Integration Event. Prior to the Token Integration Event of any Massa Tokens, you cannot transfer nor attempt to transfer (whether by assignment, trust, charge, sub-contract, novation or otherwise), Massa Tokens or any part or the whole of your rights, title or interest under these Terms, including your right to claim those Massa Tokens, to any other person or entity, whether with or without consideration. All such transfers and attempted transfers are strictly prohibited, will be deemed void and will not be recognized by, nor binding on, the Company.

3.5. **Transferability.** If you transfer Massa Tokens to a wallet or address owned by another person, then that person and the owner of each other wallet or address to which that Massa Tokens are further transferred (each, a “*New Holder*”) are each deemed to be bound by these Terms as Contributors for the period of time they hold such Massa Tokens, and you irrevocably and unconditionally undertake to ensure that each New Holder, prior to the transfer of Massa Tokens to them, expressly agrees to be bound by these Terms as a Contributor for the period of time they hold Massa Tokens. By transferring any Massa Tokens, you assign all your rights, title, and interest under these Terms to the owner of the wallet or address to which you transfer such Massa Tokens.

3.6. **Absolute Ownership.** The owner of the wallet in which any Massa Tokens are held will (except as otherwise required by law or as ordered by a court of competent jurisdiction) be treated as the absolute owner of such Massa Tokens for all purposes (regardless of any notice of any trust or any other interest, or the theft or loss of any private key) and neither the Company nor any other person will be liable for so treating that person as the Massa Tokens' absolute owner.

3.7. **Written Notice.** The Company agrees that, if any rule of law (including any legislation, rule of common law, rule of equity or customary law) requires written notice to effectuate the transfer of any Massa Tokens, such notice is deemed given as an electronic record by inclusion of the relevant transaction on a block on the Massa Platform in accordance with clause 3.5 above.

3.8. **Voidability.** Notwithstanding any other provision in this clause 3, the Company reserves the right to treat as void any transfer of Massa Tokens which the Company reasonably believes to be unlawful for any reason.

5. PURCHASER REPRESENTATIONS

5.1. **Authorization.** The Purchaser has full power and authority to enter into this TPA. This TPA, when executed and delivered by the Purchaser, will constitute valid and legally binding obligations of the Purchaser, enforceable in accordance with their terms, except as limited by applicable bankruptcy, insolvency, reorganization, moratorium, fraudulent conveyance, and any other laws of general application affecting enforcement of creditors’ rights generally, and as limited by laws relating to the availability of specific performance, injunctive relief, or other equitable remedies.

5.2. **Purchase Entirely for Own Account.** This TPA is made with the Purchaser in reliance upon the Purchaser’s representation to the Company, which by the Purchaser’s execution of this TPA, the Purchaser hereby confirms, that the Tokens to be acquired by the Purchaser will be acquired for investment for the Purchaser’s own account, not as a nominee or agent, and not with a view to the resale or distribution of any part thereof, and that the Purchaser has no present intention of selling, granting any participation in, or otherwise distributing the same. By executing this TPA, the Purchaser further represents that the Purchaser does not presently have any contract, undertaking, agreement or arrangement with any Person to sell, Transfer or grant participations to such Person or to any third Person, with respect to any of the Tokens. The Purchaser has not been formed for the specific purpose of acquiring the Tokens.

5.3. **Disclosure of Information.** The Purchaser has sufficient knowledge of and experience in business and financial matters to be able to evaluate the risks and merits purchase of this TPA and of the Tokens and is able to bear the risks thereof. The Purchaser has had an opportunity to discuss the Company’s business, management, financial affairs and the terms and conditions of the offering of the Tokens with the Company’s representatives. The Purchaser has not relied on any representations or warranties made by the Company outside of this instrument, including, but not limited to, conversations of any kind, whether through oral or electronic communication, or any white paper or website.

5.4. **Compliance with Securities, Commodities, & Other Laws.** The Purchaser understands that the Tokens have not been, and will not be, registered under the Securities Act or any applicable state securities laws, by reason of a specific exemption from the registration provisions of the Securities Act and other applicable state securities laws which depends upon,

among other things, the bona fide nature of the investment intent and the accuracy of the Purchaser's representations as expressed herein. The Purchaser understands that the Tokens may be deemed "restricted securities" under applicable United States federal and state securities laws and that, pursuant to these laws, the Purchaser must hold the Tokens indefinitely unless they are registered with the Securities and Exchange Commission and qualified by state authorities, or an exemption from such registration and qualification requirements is available. The Purchaser acknowledges that the Company has no obligation to register or qualify the Tokens for resale, and exemptions from registration and qualification may not be available or may not permit the Purchaser to transfer all or any of the Tokens in the amounts or at the times proposed by the Purchaser. The Purchaser further acknowledges that if an exemption from registration or qualification is available, it may be conditioned on various requirements including, but not limited to, the time and manner of sale, the holding period for the Tokens, and on requirements relating to the Company which are outside of the Purchaser's control, and which the Company is under no obligation and may not be able to satisfy. The Purchaser is not registered with the U.S. Securities and Exchange Commission as a broker-dealer, alternative trading system or exchange, and is not a member of the U.S. Financial Industry Regulatory Authority ("**FINRA**") nor is required to be registered with the U.S. Securities and Exchange Commission or is subject to the rules of FINRA. The Purchaser has also been advised that this Agreement has not been approved for trading by the CFTC. The Purchaser represents that it is not purchasing this Agreement on the basis that it is a contract of sale of a commodity for future delivery (or option on such a contract), a swap or any other instrument subject to the CEA. The Purchaser further understands that neither the Company nor any Affiliate is licensed as a money transmitter ("**MT**") or a money services business ("**MSB**"). If the Company or any Affiliate were deemed to be an MT and/or MSB, it would be subject to significant additional regulation. This could lead to significant changes with respect to the Company Platform, how the Tokens are structured, how they are purchased and sold, and other issues, and would greatly increase the Company's costs in creating and facilitating transactions in the Tokens. It could also lead to the termination of the Tokens. Further, a regulator could take action against the Company or any Affiliate if it views the Tokens and the Network as a violation of existing law. Any of these outcomes would negatively affect the value of the Tokens and/or could cause the Company to cease operations.

5.5. **No Public Market.** The Purchaser understands that no public market now exists for the Tokens; that the Company has made no assurances that a public market will ever exist for the Tokens; and that the Company is under no any obligation to register or qualify the Tokens for resale under the laws of any Governmental Authority.

The Purchaser is purchasing this instrument and the securities to be acquired by the Purchaser hereunder for its own account for investment, not as a nominee or agent, and not with a view to, or for resale in connection with, the distribution thereof, and the Purchaser has no present intention of selling, granting any participation in, or otherwise distributing the same. The Purchaser has such knowledge and experience in financial and business matters that the Purchaser is capable of evaluating the merits and risks of such investment, is able to incur a complete loss of such investment without impairing the Purchaser's financial condition and is able to bear the economic risk of such investment for an indefinite period of time. The Purchaser hereby confirms that it has taken reasonable steps to verify that such Purchaser is an accredited investor as such term is defined in Rule 501(a) of Regulation D promulgated under the Securities Act.

5.7. **No Bad Actor.** Neither (i) the Purchaser, (ii) any of its directors, executive officers, other officers that may serve as director or officer of any Company in which it invests, general partners or managing partners, nor (iii) any beneficial owner of the voting equity securities of the Purchaser (in accordance with Rule 262 of the Securities Act) is subject to any of the disqualifying events listed in Rule 506(d)(1) of Regulation D under the Securities Act (a “**Purchaser Event**”), and there is no proceeding or investigation pending or, to the knowledge of Purchaser, threatened by any governmental authority, that would reasonably be expected to become the basis for a Purchaser Event.

5.8. **Legends.** The Purchaser understands that the Tokens may be deemed to bear any one or more of the following legends: (a) any legend required by the securities laws of any state to the extent such laws are applicable to the Tokens represented by the certificate so legended, and (b): the following legend (and even without such legend the following restrictions apply):

ownership occurs through a sale, merger, other transaction or by the operation of Applicable Law.

- 8.4. If Applicable Law does not permit all or any part of the above limitation of liability in contracts to apply to You, the limitations, exclusions and disclaimers will apply to You only to the extent permitted by Applicable Law.

CLAUSE 9. INDEMNITY

- 9.1. You do hereby to the fullest extent permitted by Applicable Law indemnify, defend and hold the Company and each other Relevant Party harmless from and against any and all loss, penalty, claim, damage, liability or expense whatsoever (including reasonable attorneys' fees and disbursements) due to or arising out of or based upon (i) any inaccurate representation or warranty made by You, or breach or failure by You to comply with any covenant or agreement made by You in these T&Cs or in any other document furnished by You to any of the foregoing in connection with this transaction; (ii) any action instituted by or on behalf of You against the Company or any other Relevant Party that is finally resolved by judgment against You or in favour of the Company or any other Relevant Party; (iii) Your use of the Massa Platform, Tokens or the Website, (iv) Your violation of any laws, rules, regulations, codes, statutes, ordinances or orders of any governmental or quasi-governmental authorities in connection with Your use of the Massa Platform, Tokens or the Website; (v) information or material transmitted through any device associated with Your use of the Massa Platform or Website or purchase of Tokens, even if not submitted by You, that infringes, violates or misappropriates any copyright, trademark, trade secret, trade dress, patent, publicity, privacy or other right of any person or entity; (vi) any misrepresentation made by You; (vii) the Company's use of information that You submit to us; or (viii) Your violation of the rights of a third party. The remedies provided in this Clause 9 shall be cumulative and shall not preclude the assertion by the Company or any other Relevant Party of any other rights or the seeking of any other remedies against You. This indemnification shall survive any disposition of Your Tokens.

CLAUSE 10. INTELLECTUAL PROPERTY RIGHTS

- 10.1. Subject to Clause 10.2, You acknowledge as between You and the Company that the Company has valid, unrestricted and exclusive ownership of all rights, title and interest to use the patents, trademarks, trademark registrations, trade names, copyrights, know-how, technology and other intellectual property rights to and subsisting in the Massa Platform, Tokens and the Website. As between You and the Company, the Company is the sole and absolute owner of all intellectual property rights currently in (and modifications to) the Massa Foundation Tokens and the Website.
- 10.2. Except as expressly assigned in writing by the Company, all copyright and any other intellectual property of the Company, all content and other materials contained on the Massa Platform or within the Tokens or provided in connection with the Massa Platform or the Tokens, including, without limitation, the intellectual property rights for the Massa Platform and the Tokens and all text, graphics, visual interfaces, photographs, trademarks, logos, artwork, computer code, designs, structures, selections, methods, algorithms, coordination, and expressions (collectively the "**Company Materials**") are the exclusive property of the Company.
- 10.3. You may not reproduce, distribute, modify, disassemble, reverse engineer, create derivative works of, publicly display, publicly perform, republish, download, store or transmit any of the Company Materials (the "**Prohibited Actions**"). Except as expressly set forth herein, these T&Cs do not contain any implied license and the Company expressly reserves all rights not

granted to You herein, including all rights, title and interest in the Massa Platform, the Tokens and any related content.

- 10.4. You will be in breach of these T&Cs if You perform or have performed on Your behalf any Prohibited Action, or if You print, copy, modify, download or otherwise use or provide any other Person with access to any Company Materials without the express written consent of the Company. Upon such a breach, the Company may (without limiting its other rights and remedies), terminate Your account in its sole and absolute discretion and disable Your access to the Massa Platform, in each case without notice to You. Upon the Company's request, You shall immediately return or destroy any copies of the Company Materials in Your possession.

CLAUSE 11. THIRD-PARTY CONTENT

- 11.1. The Massa Platform may contain links to third-party websites and services. Such links are provided for Your convenience. The Company shall not be considered to make any recommendation or endorsement of any third-party website or its content, unless expressly stated by the Company. In addition, the Company does not suggest, imply or guarantee the safety, accuracy or reliability of any third-party website or the conformity of such with Your expectations. Furthermore, the Company is not responsible for maintaining any materials referenced from another site, and makes no warranties, recommendation or endorsement for that site or any service provided thereby or thereon. The Company assumes no obligations in the event of any damage or loss, or any other impact, directly or indirectly resulting from Your (or any other Person's) use of any content, goods or services available on or through any such third-party websites and resources.

CLAUSE 12. APPLICABLE LAW

- 12.1. PLEASE READ THIS CLAUSE CAREFULLY BECAUSE IT LIMITS THE MANNER IN WHICH YOU CAN SEEK RELIEF.
- 12.2. To resolve any dispute, controversy or claim between the Parties arising out of or relating to these T&Cs, or the breach thereof, the Parties agree first to negotiate in good faith for a period of not less than thirty (30) days following written notification of such controversy or claim to the other Party. Notice to the Company shall be sent through the various channels made available on the Website. Notice to You shall be by email or such other means as the Company may determine from time to time in its sole and absolute discretion. Your notice must include (a) Your name, postal address, email address and telephone number, (b) a description in reasonable detail of the nature or basis of the dispute, and (c) the specific relief that You are seeking.
- 12.3. All rights and obligations hereunder shall be governed by the Laws of Switzerland, without regard to the conflicts of law provisions of such jurisdiction. The Parties submit to the non-exclusive jurisdiction of the courts of Switzerland and any courts competent to hear appeals from those courts.
- 12.4. Except for any disputes, claims, suits, actions, causes of action, demands or proceedings in which either Party seeks injunctive or other equitable relief for the alleged unlawful use of intellectual property, including, without limitation, copyrights, trademarks, trade names, logos, trade secrets or patents, You and the Company waive Your and Company's respective rights to a jury trial.

CLAUSE 13. MISCELLANEOUS

- 13.1. **Third Party Rights.** You hereby acknowledge and agree that each Relevant Party is an intended third-party beneficiary under these T&Cs (and the Company shall hold the benefit of such provisions on trust for each such Relevant Party). However, the parties to these T&Cs may rescind or vary these T&Cs (including, without limitation, any variation so as to extinguish or alter a third party's entitlement to enforce any provisions of these T&Cs) without the consent of any such third party.
- 13.2. **Security.** You must at all times remain the only person who has control over Your private key, digital wallet and any other device associated with the purchase of Tokens and any username, passwords or other login or identifying credentials used by You with respect to the Massa Platform and the Tokens. You must implement reasonable and appropriate measures designed to secure access to any private key, digital wallet or any other device associated with the purchase of Tokens or the use of the Massa Platform. If You transfer any such private key, digital wallet or any other device associated with the purchase of Tokens or the use of the Massa Platform to any third party, You do so at Your own risk and the Company shall not be held responsible for any loss You may suffer as a result of third parties accessing Your private key, digital wallet or any other device associated with the purchase of Tokens or the use of the Massa Platform. In the event that You are no longer in possession and control of any private key, digital wallet or any other device associated with the purchase of Tokens, the use of the Massa Platform and/or if You are unable to provide login or identifying credentials to the Company and/or if the private key file or password respectively become lost or stolen, You may lose all of Your Tokens, access to the use of the Massa Platform and/or the access to Your digital wallet. For the avoidance of doubt, the Company is under no obligation to recover or replace any such lost or stolen Tokens or the access to the use of the Massa Platform and You understand and agree that, subject to the provisions of these T&Cs, all Token purchases are non-refundable and therefore You shall not receive any amount of currency or other compensation for any Tokens purchased and/or lost for whatever reason. Failure to use the Massa Platform correctly and/or to follow the Company's procedures as may be made available from time to time may result in You not receiving any Tokens, losing access to the use of the Massa Platform or losing some or all of the amounts paid in exchange for Tokens, regardless of the purchase date.
- 13.3. **Suspension.** Notwithstanding anything contained herein, the Company reserves the right, without notice and in its sole and absolute discretion, and to the extent possible, to suspend Your right to access the Massa Platform, and all related information and files without liability to You, at its sole and absolute discretion, including but not limited to, in case of Your breach of these T&Cs or if the Company believes You have committed fraud or other misconduct or are a Prohibited Person. Upon any such suspension all rights and licenses granted to You under these T&Cs will immediately terminate. In the event of any Force Majeure Event, breach of these T&Cs, or any other event that would make the operation or provision of the Massa Platform or related services commercially unreasonable for the Company, the Company may, in its discretion and without liability to You, with or without prior notice, and to the extent possible, suspend Your access to all or a portion of the Massa Platform. To the extent permitted under Applicable Law (including in the event of applicable legislation change or amendment), in the event the Company revokes or attempts to revoke Your right to use or access the Massa Platform the Company shall not be required to provide You with any refund whatsoever.
- 13.4. **Applicability of Securities Laws.** References to the securities laws of any country or actions in compliance with such laws shall not be deemed an admission by the Company that the Tokens are subject to regulation as securities in any jurisdiction.

- 13.5. **Entire Agreement.** Unless otherwise provided, these T&Cs are intended to fully reflect the terms of the agreement between the Parties and shall supersede any previously or contemporaneously agreed upon terms or understanding. No provision of these T&Cs shall be considered waived unless such waiver is in writing and signed by the Party that benefits from the enforcement of such provision. No waiver of any provision in these T&Cs, however, will be deemed a waiver of a subsequent breach of such provision or a waiver of a similar provision. In addition, a waiver of any breach or a failure to enforce any term or condition of these T&Cs will not in any way affect, limit, or waive a Party's rights hereunder at any time to enforce strict compliance thereafter with every term and condition hereof.
- 13.6. **Assignment.** The Company may, at its sole and absolute discretion, assign any of its rights and/or delegate its duties under these T&Cs (including, but not limited to any and all intellectual property rights in or to all technology, software, and code relating to the Massa Platform). You may not assign Your rights or delegate Your duties as a user of the Massa Platform, or as a purchaser of Tokens, and any assignment or delegation without the written consent of the Company, which the Company may withhold at its sole and absolute discretion, shall be null and void.
- 13.7. **Severability.** In the event any one or more of the provisions of these T&Cs are for any reason held to be invalid, illegal or unenforceable in any jurisdiction, in whole or in part or in any respect, or in the event that any one or more of the provisions of these T&Cs operate or would prospectively operate to invalidate these T&Cs in any jurisdiction, then and in any such event, such provision(s) shall be deemed modified to the minimum extent necessary so that such provision, as so modified, shall no longer be held to be invalid, illegal or unenforceable. Any such modification, invalidity or unenforceability shall be strictly limited both to such provision and to such jurisdiction, and in each case to no other. Furthermore, in the event of any such modification, invalidity or unenforceability, these T&Cs shall be interpreted so as to achieve the intent expressed herein to the greatest extent possible in the jurisdiction in question and otherwise as set forth herein.
- 13.8. **Electronic Notices and Use of Information.** You agree and consent to receive electronically all communications, agreements, documents, receipts, notices and disclosures (hereinafter - the "**Communications**") that the Company provides in connection with Your use of the Massa Platform. The Company and each of its Affiliates and their respective service providers may further disclose Your information to any of their respective service providers, agents, relevant custodians or similar third parties for any reason and such Persons may keep Your information for any period of time permitted by Applicable Law. You do hereby consent to such Persons disclosing any of Your information which they hold to any Governmental Authority or prosecuting authority for any reason and without notice to You. You hereby acknowledge and agree to hold the Company and each such Affiliate harmless in respect of any disclosure of information by such Persons in accordance with these T&Cs. For the avoidance of any doubt, the Company and each such Affiliate shall not be liable to You or any other Person for any loss, damage or expense incurred directly or indirectly as a result of such disclosure.
- 13.9. **Information Requests.** The Company may determine, from time to time and in its sole and absolute discretion, that it is necessary to obtain certain information about You and Your Affiliates in order to comply with Applicable Laws in connection with Your entry into these T&Cs and Your subsequent holding of Tokens. You agree to provide the Company with such information promptly upon request, and You acknowledge and accept that the Company may refuse to accept Your application until You provide such requested information and the Company has determined that it is permissible for the Company to accept Your application and receive the purchase amount from You under Applicable Law. The Company further

reserves the right to request identification documentation from You and Your Affiliates at any time. In the event that You or any such Affiliate does not provide such requested information to the satisfaction of the Company (in its sole and absolute discretion) the Company shall not be bound by the provisions of these T&Cs and shall be entitled to specifically refuse any presentation of Tokens by You to the Company or any other Relevant Party. In the event that You, directly or indirectly, sell, assign, transfers, convey or otherwise dispose of any Tokens You do hereby covenant with the Company to procure that any such acquirer of Tokens shall be under equivalent obligations to provide such information to the Company at the request of the Company from time to time.

- 13.10. **Tax Issues.** The Company makes no representations concerning the tax implications of the sale of Tokens or the possession or use of them. You bear the sole and absolute responsibility to determine if the purchase of Tokens with fiat currency or cryptocurrency or the potential appreciation or depreciation in the value of Tokens over time has tax implications for You in Your home jurisdiction or any other jurisdiction. By purchasing Tokens, and to the extent permitted by Applicable Law, You agree to be solely responsible for any applicable taxes imposed on, and agree not to hold the Company or any of its Affiliates liable for any tax liability associated with or arising from Your purchase, possession, or transfer of Tokens. All fees and charges payable by You to the Company are exclusive of any taxes, and shall certain taxes be applicable, they shall be added on top of the payable amounts. Upon the Company's request, You will provide it any information it reasonably requests to determine whether it is obligated to collect any withholding taxes or value added or similar taxes from You, including any applicable tax identification numbers. If any deduction or withholding is required by Applicable Law, You will notify the Company and will pay the Company any additional amounts necessary to ensure that the net amount that the Company receives, after any deduction and withholding, equals the amount the Company would have received if no deduction or withholding had been required. Additionally, You will provide the Company with documentation showing that the withheld and deducted amounts have been paid to the relevant taxing authority. To the extent the Company is responsible for remitting any withholding taxes or value added or similar taxes, Your allocation of Tokens shall be reduced to the extent such taxes are required to be remitted by the Company. The Company wishes to make You aware that future use of the Tokens by You when transacting with the Company may result in withholding taxes, value added tax and/or similar taxes being imposed. You will be responsible for such taxes, however, where the Company is responsible for remitting taxes, the amount of taxes shall be deducted from the fees otherwise due and payable by You in connection with Your transactions with the Company.
- 13.11. **Force Majeure Events.** The Company shall not be liable for (1) any inaccuracy, error, delay in, or omission of (a) any information, or (b) the transmission or delivery of information; (2) any loss or damage arising from any event beyond the Company's reasonable control, including but not limited to flood, extraordinary weather conditions, earthquake, or other act of God, fire, war, insurrection, pandemic, riot, labor dispute, accident, action of Governmental Authorities, communications, power failure, or equipment or software malfunction, failure, malfunction or outage of any decentralized ledger network upon which the Company relies, or any other cause beyond the Company's reasonable control (each, a "**Force Majeure Event**").
- 13.12. **Compliance Policies.** The Company and its Affiliates strictly follow applicable anti-money laundering (AML), "know your customer" (KYC) and other Applicable Laws in Switzerland. You fully agree to assist the Company in fulfilling the obligations of any Applicable Law and to provide any necessary information that is required from You to the Company or any relevant Governmental Authority.

- 13.13. **Investigations; Cooperation with Law Enforcement.** As permitted by applicable law, the Company reserves the right, without limitation, to: (i) investigate any suspected breaches of the Massa Platform's or Website's security or its information technology or other systems or networks; (ii) investigate any suspected breaches of these T&Cs and any applicable additional terms; (iii) use any information obtained by the Company in accordance with its information collection practices in connection with reviewing law enforcement databases or complying with Applicable Laws and use and/or disclose any information obtained by the Company to comply with law enforcement requests, in any relevant jurisdiction, or legal requirements in accordance with its information collection practices; (iv) involve and cooperate with law enforcement authorities, in any relevant jurisdiction; (v) prosecute violators of these T&Cs and any applicable additional terms; and (vi) discontinue the Massa Platform, in whole or in part, or, suspend or terminate your access to it, in whole or in part, including any user accounts or registrations that may exist, at any time, without notice, for any reason and without any obligation to you or any third-party. Any suspension or termination will not affect your obligations to the Company under these T&Cs or any applicable additional terms. Upon suspension or termination of your access to the Massa Platform, or upon notice from the Company, all rights granted to you under these T&Cs, or any applicable additional terms, will cease immediately, and you agree that you will immediately discontinue use of the Massa Platform. PURCHASE PROCEDURES

Can I complete my identity verification and KYC-AML prior to participating?

Yes, we encourage you to complete your identity verification in advance! To do so, sign in to your Republic account and head to <https://republic.com/settings/personal-details> to complete your identity verification before an offering goes live.

Will I need to create an account with Republic in order to participate in the digital asset sale?

Yes, you will need to create a free Republic account and pass the Know-your-customer (KYC) and Anti-money laundering (AML) requirements before participating in the offering. If the offering is being conducted under the Reg D exemption, and you are a US-based investor you will also need to verify your accredited investor status. If you are purchasing as an entity, you will need to register your entity within Republic. As these processes can sometimes take up to a few days to complete, we strongly encourage those interested in participating in completing the verification process in advance in the settings section of your account.

In connection with a Reg D offering, is there any more information I need to provide as an accredited investor?

To complete your purchase, we will need to verify your identity and accreditation information. If we need any further information, we will notify you via email and through your purchase page.

Why do I need to complete my account verification?

We are required to verify the identity of every Purchaser who uses our portal as part of our Anti-Money Laundering program, laid out by the Bank Secrecy Act of 1970. Per our terms of service, a third-party accreditator verifies the information provided and ensures the individual isn't on an OFAC list (Office of Foreign Assets Control). We cannot accept this information over the phone, only through the website.

We take the security of your information very seriously. The information you provide is sent via secure API to Cognito (formerly BlockScore) and NetVerify, which are two trusted and widely used service providers in the space. We do not retain any of the information on our servers, and access is restricted.

You can read about Republic's privacy policy [here](#), and each of the privacy policies for [Cognito](#) and [NetVerify by Jumio](#). Failure to complete your identity verification may result in a cancellation of your purchase commitment.

What do I have to do to verify my identity and complete my KYC-AML process?

Identity verification for the issuer token offering is built into the purchase process. If you're purchasing as an individual, you'll enter some personal information and be prompted to upload an ID when necessary for verification. If you've already invested on Republic, you've likely already completed this process.

If you are purchasing as an entity, we may request additional documentation or information to verify your entity and other controlling owners of that entity.

If my entity is not wholly-owned by me, will you need to verify the identity of the other owners?

Yes, and if any of those owners are entities, we'll need to verify their owners as well. We will also verify the identity of any and all officers, directors, managers, partners, or equivalencies.

Can I change my payment method for a digital asset offering?

If the payment for the purchase hasn't been received yet, then it is possible to switch the payment method so long as the campaign is still active. Once a purchase is finalized, you will no longer be able to switch your payment method. Acceptable payment methods will vary by offering. Please refer to our communications and the offering page for more information.

If you do decide to change your payment method, there may be delays in processing the new payment method.

Can I increase or decrease my purchase of a digital asset offering?

For Reg D, and Reg S offerings, you will not be able to cancel or decrease your purchase amount once the purchase is committed.

Note: Changing your purchase amount during a sold-out campaign may place your additional purchase amount on the waitlist and may not be fulfilled.

How do I purchase with Automated Clearing House (ACH) as a payment method?

Some digital asset offerings will not accept Automated Clearing House (ACH) payments. Please refer to the offering page and our communications for more information.

Only US-based Purchasers will be able to pay using ACH as a payment method when accepted for an offering. In order to use ACH as a payment method, select "U.S. Bank" under payment information.

You can either add your bank details manually or select your bank account via Plaid.

If you add your details manually, you will be asked to select the account type (checking or savings) and to input the routing and account number.

If you choose the "select bank account" method, you will be redirected to Plaid, the application Republic uses to link with your bank. All this requires is your online banking login information. On Plaid, you can select the bank that is associated with the account you'd like to fund your purchase with. You will log in using your bank's online login information, verify yourself via a form of two-factor authentication sent by your bank, and then your bank account will be linked to Republic.

You'll be redirected back to Republic where you'll be able to select that bank account as your payment method. After inputting your purchase amount, selecting your bank account as the payment method, and read and accept the terms of the purchase, you can confirm your purchase.

Funds will automatically pull from your account. If there are any issues with completing your payment, please reach out to us at crypto@republic.com.
