Company Operations & Product Overview

Mode Mobile, Inc. was founded in 2015 as a Limited Liability Company by Dan Novaes, CEO, and Kiran Panesar, CTO, with a mission to provide people around the world with income and saving opportunities through their everyday mobile activities. Mode Mobile was previously known as Nativ Mobile, Inc. before a name change in 2022, and prior to that, was originally founded as Nativ Mobile, LLC before a name change in 2021. The Company aims to unlock the full potential of the world's most accessible income-generating asset, the smartphone, currently sitting untapped in the pockets of over 7 billion global consumers. These consumers spend 4 trillion hours per year on their smartphones and we believe this presents a massive opportunity to turn people's phones into income streams, just like Uber and Airbnb did with cars and homes. At Mode, we enable customers to earn and save money directly from the things they already do – like playing games, listening to music, watching videos, and even charging and unlocking their phones.

Products

The Company's Mode Earn App enables users the ability to earn rewards on a single platform for interacting with digital content on their smartphones. Mode Mobile drives user engagement and monetizes user activity primarily through digital marketing revenue from advertising partners. The Company shares a portion of generated revenue with users and also facilitates earnings and savings for users directly from advertising brands. Since 2019 Mode has generated nearly $50 million in revenue from advertisers, with 2022 revenue reflecting more than 150x growth from 2019, even while still in beta.

Mode Mobile also offers the Mode EarnPhone which is a smartphone embedded with the Company's EarnOS software for a more integrated and enhanced earnings experience. The ModePhone's software is similar to the Mode Earn App, but includes more functionality and lives in the form of an Operating System. The Mode EarnPhone has all the specs one would want from a phone – like a triple lens camera, fingerprint and face ID, and a 6.52 inch HD screen, but unlike other smartphones, it was developed to make money for its user. The Mode EarnPhone is available at www.modephone.com and a variety of online retailers in the United States such as Amazon, Walmart, and Best Buy. We are currently growing our subscription channels, as well as partnerships with major telecom carriers, while also turning towards international expansion.

In 2023, the Company launched a new subscription software product, called the Mode Earn Club, whereby our users pay a monthly fee for access to our rewards ecosystem. In this new product, the Company keeps 100% of the subscription revenue and the user keeps 100% of all rewards they earn. This product is still in testing phase and may change over time based on its performance with our existing user base and in the market.

Key Suppliers

The Company sources its EarnPhone from a manufacturer based in China. The Company does not have an exclusive relationship with this supplier and can easily source new partners to manufacture the EarnPhone.

Competition

The market for rewards-based mobile apps continues to grow and evolve with numerous companies offering consumers the ability to earn cash-back and rewards for various online activities. Competitors include Fetch Rewards, Ibotta, Rakuten, and Swagbucks. Mode Mobile offers an integrated hardware and software solution, the Mode EarnPhone, that rewards users for everyday mobile activities on their smartphones.

While the majority of smartphone manufacturers do not offer an integrated rewards-based operating system like the EarnOS, we do also view smartphone manufacturers like Apple, Samsung, Nokia, and others as indirect competitors to the Mode EarnPhone.

Customers

Our customer base is comprised of over 40,000,000 users spread across over 150 countries, who have downloaded the Mode Earn App or purchased the Mode EarnPhone. To date, our users and customers have earned over $150,000,000 in rewards by interacting with our technology. The Company typically acquires customers by advertising on social media and search channels such as Google and Meta (Facebook and Instagram).

The Company also counts members of its Mode Earn Club as customers, each of which pay anywhere from $1 to $20 per month to be a member of the Club and earn additional savings and benefits.

The Company also sells its EarnPhone through certain third party retailers, which then sell the EarnPhone to their customers. These third-party retailers include BestBuy, Amazon, Walmart, Newegg, Adorama, Groupon, Mason, Dailysteals, eBay, Reebelo, and UnbeatableSale. The Company uses an in-house business development team, led by its CEO, to acquire new retailers and distribution channels.

The Company also views its advertising partners as customers. The Company has agreements with these advertising partners whereby the partners pay the Company based on how the Company's customers and users interact with various websites and mobile applications. No single advertising partner makes up more than 15% of the Company's advertising revenue.

Current (Gibraltar) Limited & Token Issuance

The Company also has a wholly-owned subsidiary, Current (Gibraltar) Limited ("CGL"), a Gibraltar company organized in 2018. The Company owns 100% of the voting shares and 0% of the economic interest in CGL. CGL was organized to develop a rewards network and protocol, the purpose of which was intended to be used as a rewards distribution mechanism for Mode Mobile and its user base (the "$CRNC Network"). In order to build out this network, the Company, via CGL, conducted and completed a security token offering pursuant utilizing exemptions from registration under the Securities Act provided by Rule 506(b) of Regulation D and Regulation S to non-US investors. In that offering, CGL offered $CRNC tokens to investors in consideration for their investments. The proceeds from the token offering was approximately $26 million, which was to be used to build out the $CRNC Network. Due to a disclosed delay in delivering tokens to investors resulting from regulatory uncertainties associated with blockchain and cryptocurrency projects, the investments were executed pursuant to "Simple Agreement(s) for Future Tokens" ("SAFTs"), which, among other things, contemplated the Company delivering $CRNC tokens to investors in advance of the $CRNC Network launch. The obligations to these SAFT holders are described more fully in the "Securities Being Offered – Simple Agreement for Future Tokens" section.

The buildout and launch of the $CRNC Network will be carried out by a foundation established by CGL. The Company expects the foundation to be established, and the $CRNC Network to be built, in Q1 2024. At such time, all obligations due from the Company to $CRNC token holders (including obligations of the Company set forth in the SAFTs) will cease. By virtue of the creation of the foundation, control over the governance of the $CRNC tokens will transfer from the Company to token holders. The Company will have no financial responsibility for the operation of the foundation.

Employees

The company currently has 16 full-time employees, 34 full-time contractors, and 4 part-time contractors. These employees are spread out across 19 countries. 40% of the Company's employees are based in the United States and all of the Company's Officers are based in the United States.

Regulation

By virtue of handling our user's data, we are subject to numerous statutes related to data privacy, and additional legislation and regulation should be anticipated in every jurisdiction in which we operate. Example federal (US) and European statutes we could be subject to are:

GDPR

The EU-wide General Data Protection Regulation imposes onerous accountability obligations requiring data controllers and processors to maintain a record of their data processing and policies. It requires data controllers to implement more stringent operational requirements for processors and controllers of personal data, including, for example, transparent and expanded disclosure to data subjects (in a concise, intelligible and easily accessible form) about how their personal information is to be used, imposes limitations on retention of information, increases requirements pertaining to health data and pseudonymized (i.e., key-coded) data, introduces mandatory data breach notification requirements, and sets higher standards for data controllers to demonstrate that they have obtained valid consent for certain data processing activities. Fines for non-compliance with the GDPR will be significant—the greater of €20 million or 4% of global turnover.

ePrivacy Directive

The ePrivacy directive sets out the rules relating to the processing of personal data across public communications networks. This directive requires business to ensure consent requests are made and that consent is received from the user before the use of cookies is made. Businesses must communicate the privacy rules with accurate and specific information regarding the data contained in the cookie. Information must be communicated before the consent requests are made, in plain language. Organizations must ensure that users are able to withdraw consent in the same simple manner as the initial consent request.

CRPA and CCPA

The CRPA and CCPA define and establish various rights that consumers residing in California have over the privacy of their data along with the responsibilities of businesses when collecting personal information. It requires businesses that control the collection of consumers' personal information to inform them of the category, purpose and duration the business intends to retain such information. It lists the consumers' right to correct their data and have their data deleted. Customers may also exercise their right to limit the sale or sharing of their personal or sensitive personal information. Fines for non-compliance can range from $100 to $750 per consumer per incident. Additionally, in certain cases the California Privacy Protection Agency may impose administrative fines ranging from $2,500 to $7,500 for each violation.

RISK FACTORS

Risks Related To Our Company

We have a limited operating history upon which to evaluate our performance and have generated minimal profits and net income.
While we were incorporated in 2015, we still have a limited operating history and have yet to consistently generate operating profits or net income. We have been generating revenue since 2020, but we also continue to iterate on our products and technology and as such, cannot guarantee that our prior operating history will be indicative of our future operating results, or future products will be able to consistently generate revenue and operating profits.

If the Company cannot raise sufficient funds, it will not succeed.
The Company is seeking to raise over $30,000,000 through multiple fundraises in the next 12 months. Even if all of this capital is raised, the Company is likely to need additional funds in the future in order to grow, and if it cannot raise those funds for whatever reason, including reasons relating to the Company itself or to the broader economy, it may not survive. If the Company manages to raise only the minimum amount of funds sought, it will have to find other sources of funding for some of the plans outlined in "Use of Proceeds."

Any valuation at this stage is difficult to assess.
The valuation for the Offering was established by the Company. Unlike listed companies that are valued publicly through market-driven stock prices, the valuation of private companies, especially startups, is difficult to assess and you may risk overpaying for your investment.

Our subsidiary conducted a token offering which may open us up to future regulatory action or litigation.
In 2018, our Gibraltar-based subsidiary, Current (Gibraltar) Limited, conducted and completed a token offering where we offered $CRNC tokens to investors in consideration for their investments, the proceeds of which are to be used to build out a rewards earning system. The token offering was an offering of securities pursuant to Rule 506(b) of Regulation D. There is a chance that we may not be able to develop the rewards earning system and that the holders of the $CRNC token may pursue litigation against us. Additionally, if the SEC or other regulatory bodies determine that the token offering constituted the sale of securities without proper registration or compliance with applicable exemptions, the Company may face regulatory enforcement actions, fines, and legal proceedings. Such actions could result in significant financial and reputational harm, as well as diversion of management resources to address regulatory compliance matters. Investors should be aware that regulatory scrutiny and legal challenges in the cryptocurrency space are ongoing, and adverse regulatory outcomes could materially and adversely affect the Company's operations and financial condition. The Company may also be required to undertake remedial measures, cease certain activities, or restructure its operations to comply with securities laws, which could further impact its business and financial performance.

The Company depends on key personnel and faces challenges recruiting needed personnel.
The Company's future success depends on the efforts of a small number of key personnel. These key personnel include our Chief Executive Officer, Dan Novaes, and our Chief Technology Officer, Kiran Panesar. In addition, due to its limited financial resources and the specialized expertise required across marketing, business development, and product development, it may not be able to recruit the individuals needed for its business needs. There can be no assurance that the Company will be successful in attracting and retaining the personnel the Company requires to operate and be innovative.

Competitors may be able to call on more resources than the Company.
While the Company believes that its platform and product are unique, it is not the only way that its customers and user base can earn supplemental income. Additionally, competitors may replicate our business ideas and produce directly competing products. These competitors may be better capitalized than us, which would give them a significant advantage.

Our new products and services could fail to achieve market acceptance.

Our future success is partially based on an assumption that our new products will be able to gain traction in the marketplace. It is possible that these new products will fail to gain market acceptance for any number of reasons. If our products fail to achieve significant traction and acceptance in the marketplace, this could materially and adversely impact the value of your investment.

Expansion of our platform to a larger number of users will pose challenges.
As the number of customers using our platform grows, we will face challenges associated with managing our growth. For example, we may need to license rights from content developers. There is no guarantee that we will be able to license such rights at prices that are advantageous to the Company.

The Company is vulnerable to hackers and cyber-attacks.
As an internet-based business, we may be vulnerable to hackers who may access the data of the users of our platform. Further, any significant disruption in service on Mode Mobile or in its computer systems could reduce the attractiveness of the platform and result in a loss of investors and users interested in using our platform. Further, we rely on a third-party technology provider to provide some of our back-up technology. Any disruptions of services or cyber-attacks either on our technology provider or on Mode Mobile could harm our reputation and materially negatively impact our financial condition and business.

Any breach of our users' data could impose liability upon the Company.
If we or third parties with which we do business were to fall victim to successful cyber-attacks or experience other cybersecurity incidents, including the loss of individually identifiable customer or other sensitive data, we may incur substantial costs and suffer other negative consequences, which may include liability for harms caused to our users from such a breach, or increased cybersecurity and other insurance premiums.

Risks Related to the Securities in this Offering

There is no current market for any shares of the Company's stock.
There is no formal marketplace for the resale of the Company's Class AAA Common Stock being sold in this Offering. Investors should assume that they may not be able to liquidate their investment for some time or be able to pledge their shares as collateral. The Company currently has no plans to list any of its shares on any OTC or similar exchange. It is also unlikely that the Company will ever go public or get acquired by a bigger company. That means the money you paid for these securities could be tied up for a long time.

We have not set a minimum offering amount for this Offering.
We have not set a minimum offering amount for this Offering and funds received will not be deposited into a third-party escrow account prior to their release to the Company. This means that we will accept and have access to funds as they are received, but we may never raise enough to execute the business plan or even cover the costs of the Offering.

Our Company is controlled by few shareholders.
A substantial majority of the Company's outstanding voting securities are held by one shareholder, who can therefore exert significant control over the Company. There are no guarantees that the position of this shareholder will always coincide with the opinion and interests of the other shareholders of the Company.

Investors in this Offering are purchasing Securities with No Voting Rights.
The Class AAA Common Stock that we are offering to investors in this offering has no voting rights. This means that you will have no rights in dictating on how the Company will be run. You are trusting in management discretion in making good business decisions that will grow your investment.

The Company has issued and outstanding shares of preferred stock with rights superior to those of the Class AAA Common Stock being offered in this Offering, including a liquidation preference.
The Company has Series Seed Preferred Stock issued and outstanding that entitles its holders to a liquidation preference in the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company or certain other events (such as, but not limited to, a merger, reorganization or consolidation). In such an event, the holders of shares of Series Seed Preferred Stock then outstanding will be entitled to be paid out of the assets of the Company available for distribution to its stockholders before

any payment will be made to the holders of any classes of the Company's Common Stock by reason of their ownership thereof, an amount per share equal to the greater of (i) the Series Seed Original Issue Price (which is currently is $0.01345679), plus any dividends declared but unpaid thereon, or (ii) such amount per share as would have been payable had all shares of Series Seed Preferred Stock been converted into Common Stock immediately prior to such event. As such, it is possible that, in such a liquidation event, investors in this Offering would not receive any distributions of cash or other assets from the Company. See "Securities Being Offered" for more information on the liquidation preference.

Our potential issuance of Bonus Shares may result in a discounted offering price being paid by certain investors in this Offering.

Certain investors may be entitled to Bonus Shares in this Offering. These shares will immediately dilute the value of your shares. Therefore, the value of shares of investors who pay the full price in this Offering will be diluted by investments made by investors entitled to these shares. Investors may also suffer immediate dilution if they qualify for a lesser amount of Bonus Shares, if other investors qualify for greater Bonus Share incentives.

There is no guarantee of return on investment.

There is no assurance that a purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, you should not invest in this Offering if you are unable to withstand losing your entire investment. Each purchaser should read this Offering Memorandum and all exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

The Company's management has discretion as to use of proceeds.

The proceeds from this Offering will be used for the purposes described under "Use of Proceeds." The Company reserves the right to use the funds obtained from this Offering for other similar purposes not presently contemplated which it deems to be in the best interests of the Company and its investors in order to address changed circumstances or opportunities. As a result of the foregoing, the success of the Company will be substantially dependent upon the discretion and judgment of management with respect to application and allocation of the net proceeds of this Offering. Investors for the Class AAA Common Stock hereby will be entrusting their funds to the Company's management, upon whose judgment and discretion the investors must depend.

The Company's future fundraising may affect the rights of investors.

In order to expand, the Company is likely to raise funds again in the future, either by offerings of securities or through borrowing from banks or other sources. The terms of future capital raising, such as loan agreements, may include covenants that give creditors greater rights over the financial resources of the Company.

Our valuation and our Offering price have been established internally and are difficult to assess.

The Company has set the price of its Class AAA Common Stock at $0.16 per share. Valuations for companies at this stage are generally purely speculative. Our valuation has not been validated by any independent third party and may decrease precipitously in the future. It is a question of whether you, the investor, are willing to pay this price for a percentage ownership of a start-up company. The issuance of additional shares of Common Stock, or additional option grants may dilute the value of your holdings. You should not invest if you disagree with this valuation. See "Dilution" for more information.

The Company may fundraise at a price per share lower than offered to investors in this Offering.

The Company may seek to raise additional capital in other offerings of its equity securities (including, but not limited to, offerings under Regulation A and Regulation S). In any such offerings, the Company may offer shares of its Class AAA Common Stock at a price per share lower than what is available to investors in this Offering, and could also result in additional dilution to investors in this Offering.

Our Amended and Restated Certificate of Incorporation, as amended, includes a forum selection clause, which could limit our stockholders' ability to obtain a favorable judicial forum for disputes with us or our directors, officers, employees or agents.

Our Amended and Restated Certificate of Incorporation, as amended (the "Charter") require that, unless we consent in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware will be the sole and exclusive forum for (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim for breach of a fiduciary duty owed by

any of our directors, officers, employees or agents to us or our stockholders, (iii) any action asserting a claim arising pursuant to any provision of the Delaware General Company Law, our Charter or (iv) any action asserting a claim governed by the internal affairs doctrine, in each case subject to said Court of Chancery having personal jurisdiction over the indispensable parties named as defendants therein.

Our Charter provides that this exclusive forum provision will not apply to claims arising under the Securities Act. Further, this provision will not apply to claims arising under the Exchange Act, as Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder. This forum selection provision in our Bylaws may limit our stockholders' ability to obtain a favorable judicial forum for disputes with us or our directors, officers, employees or agents, which may discourage lawsuits against us and such persons. It is also possible that, notwithstanding the forum selection clause included in our Charter, a court could rule that such a provision is inapplicable or unenforceable.

Using a credit card to purchase shares may impact the return on your investment as well as subject you to other risks inherent in this form of payment.

Investors in this Offering have the option of paying for their investment with a credit card, which is not usual in the traditional investment markets. Transaction fees charged by your credit card company (which can reach 5% of transaction value if considered a cash advance) and interest charged on unpaid card balances (which can reach almost 25% in some states) add to the effective purchase price of the shares you buy. See "Plan of Distribution and Selling Securityholders." The cost of using a credit card may also increase if you do not make the minimum monthly card payments and incur late fees. Using a credit card is a relatively new form of payment for securities and will subject you to other risks inherent in this form of payment, including that, if you fail to make credit card payments (e.g. minimum monthly payments), you risk damaging your credit score and payment by credit card may be more susceptible to abuse than other forms of payment. Moreover, where a third-party payment processor is used, as in this Offering, your recovery options in the case of disputes may be limited. The increased costs due to transaction fees and interest may reduce the return on your investment.

The SEC's Office of Investor Education and Advocacy issued an Investor Alert dated February 14, 2018 entitled: Credit Cards and Investments – A Risky Combination, which explains these and other risks you may want to consider before using a credit card to pay for your investment.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of our financial condition and results of operations should be read in conjunction with our financial statements and the related notes included in this Offering Memorandum. The following discussion contains forward-looking statements that reflect our plans, estimates, and beliefs. Our actual results could differ materially from those discussed in the forward-looking statements. The audited financials and overall financial discussion in this Offering cover the consolidated financials for both Mode Mobile, Inc., which was incorporated in 2015 and Current (Gibraltar) Limited, which was incorporated in 2018.

We are proving audited financial statements for the years ended December 31, 2022 and 2021, as well unaudited financial statements for the six-month periods ended June 30, 2023 and 2022. The unaudited financial statements may not include year-end adjustments necessary to make those financial statements comparable to audited results, although in the opinion of management, all adjustments necessary to make interim statements of operations not misleading have been included.

Operating Results

Fiscal Years Ended December 31, 2022 and 2021

Mode Mobile generated net revenues of $24,947,043 in 2022 compared to $22,950,934 in 2021, representing an 9% year-over-year increase which was driven primarily by growth in the Mode Earn App. the Company had cost of net revenues of $10,249,605 and $7,849,687 for the years ended December 31, 2022 and 2021, respectively. The majority of these revenues in both periods were earned through the Company's Mode Earn App, where Mode Mobile gets paid by advertising partners, brands, and other technology providers when Mode users interact with digital content on their smartphones. Costs of revenue included rewards that are paid out to Mode Mobile users, payment processing fees, EarnPhone hardware costs, website hosting, and revenue share payouts. The majority of costs of revenue are related to reward pay outs. The Company's gross profit for 2022 was $14,697,438 versus $15,101,247 for 2021, which represents 2.7% decrease year over year. The Company's gross margin for 2022 was 58.9% compared to 65.8% for 2021. The decrease in gross margin was primarily related to the fact that we saw our partners advertise less in financial services, consumer goods, and gaming categories, which traditionally have been major revenue drivers for us.

Operating expenses for the Company primarily consist of customer acquisition costs and employee and contractor compensation related to software development and general and administrative expenses. Operating expenses in 2022 amounted to $24,754,480, a 79% increase from $13,837,290 in 2021. The largest component of operating expenses in both 2022 and 2021 was sales and marketing expenses. Sales and marketing expenses consisted primarily of digital advertising costs on social media and search platforms such as Meta and Google, which totaled $12,384,163 in 2022 and $15,863,698 in 2021, or a 22% decrease year over year. Despite this decrease in advertising spend, the Company only saw a 8.6% decrease in revenue over the same period. Additionally, the Company recognized research and development expenses of $5,434,239 in 2022 versus $4,258,915 in 2021, which was a 27.6% increase year over year. This increase was mostly related to product enhancements made on the Company's EarnOS software and EarnPhone hardware. Finally, general and administrative expenses, which represent categories such as salaries, contractor fees, professional service, and overhead were $5,036,078 in 2022 versus $3,794,781 in 2021, which was a 32.7% increase year over year. This primary driver for this increase was related to additional full-time hires the Company made in 2022. Finally, the Company recognized a $1,900,000 royalty payment expense in 2022 related to royalties that the Company owed to holders of its $CRNC token. These royalty payments were voluntarily paid out in lieu of the Company completing a build out of the $CRNC Network. The completion of the $CRNC Network (the "Project") was delayed due to regulatory uncertainties associated with blockchain and cryptocurrency projects. Because of this, CGL elected to postpone the launch of the Project indefinitely until a clear regulatory path of the launch of the Project is established. These royalty payments were paid out in two forms – either additional $CRNC tokens at $0.16 per token, or shares of Class C Common Stock at $0.026 per share, at the option of the individual due to receive the royalty payment. 14,366,522 $CRNC tokens and 10,359,141 shares of Class C Common Stock were paid out in lieu of cash royalties.

Finally, the primary driver for the increase in operating expenses was related to a realized benefit of $10,080,104 in 2021 related to satisfying a SAFT performance obligation to fund software development related to the Project, which was $0 in for the year ended December 31, 2022 (as the Company funded all required software under the SAFT performance obligation during the year ended December 31, 2021). Excluding this one-time benefit, the Company would have had operating expenses of $23,917,394 in 2021.

In addition to the above, the Company recognized total other income of $7,682,764 in 2022, versus $4,657,196 in 2021, which was an increase of 65% year over year. The majority of the increase was related to realized gains on cryptocurrency sales of $8,099,516 in 2022, versus $4,269,858 in 2021.

As a result of the foregoing, the Company realized a net loss of $2,374,278 in 2022 versus net income of $5,921,153 in 2021. The biggest reason for this change in net income was related to the one-time SAFT performance obligation in 2021 as mentioned above.

Six Months Ended June 30, 2023 and 2022

Mode Mobile generated net revenues of $3,699,098 during the six months ended June 30, 2023 compared to $18,613,106 during the six months ended June 30, 2022, representing a 80% decrease which was related to the Company's plans to decrease expenses, increase profit margin, and increase operating income. As mentioned above, because the Company saw a decrease in activity from our advertising partners in 2022, we felt it appropriate to be more conversative on top line growth, and instead focus on improving unit economics. That means spending less money on advertising and user acquisition, which ultimately resulted in less new customers and lower revenue. The majority of these revenues in both periods were earned through the Company's Mode Earn App, where Mode Mobile gets paid by advertising partners, brands, and other technology providers when Mode users interact with digital content on their smartphones. The Company had cost of revenue of $1,434,243 and $7,874,571, respectively, during the six months ended June 30, 2023 and 2022 Costs of revenue include rewards that are paid out to Mode Mobile users, payment processing fees, EarnPhone hardware costs, website hosting, and revenue share payouts. The majority of costs of revenue are related to reward pay outs. The Company's gross margin for the period ending June 30, 2023 was 61.23% compared to 57.69% for the period ending June 30, 2022. The increase in gross margin was primarily related to the Company decreasing advertising spend for customer acquisition and the launch of a new product, the Mode EarnClub, a discussion of which is included above.

Operating expenses for the Company primarily consist of customer acquisition costs and employee and contractor compensation related to software development and general and administrative expenses. Operating expenses during the six month period ending June, 30 2023 amounted to $5,412,513, a 70% decrease from $18,115,690 during the six-month period ending June 30, 2022. Sales and marketing expenses consisted primarily of digital advertising costs on social media and search platforms such as Meta and Google, which totaled $2,932,880 during the six months ended June 30, 2023 and $8,786,800 during the six months ended June 30, 2022, or a 67% decrease period over period. Additionally, the Company recognized research and development expenses of $1,286,964 through June 30, 2023 versus $3,855,696 through June 30, 2022, which was a 67% decrease period over period. Finally, general and administrative expenses, which represent categories such as salaries, contractor fees, professional service, and overhead were $1,192,669 during the six months ended June 30, 2023 versus $3,573,193 during the six months ended June 30, 2022, which was a 67% decrease period over period. Finally, during the six months ended June 30, 2022, the Company recognized a non-cash expense of $1,900,000 related to royalty payments to holders of its $CRNC tokens voluntarily paid out in lieu of the Company completing a build out of the $CRNC Network, due to the delays described in "The Company's Business" section of this offering circular, and recognized no expenses in this category during the six months ended June 30, 2023. The overall decrease in operating expenses during the six-month period ending June 30, 2023 as compared to the prior period was related the Company's efforts to decrease user acquisition advertising spend and overall operating expenses, with the goal of increasing profitability.

In addition to the above, the Company recognized total other income of $1,016,724 during the six-month period ending 2023, versus $6,880,930 during the six-month period ending 2022, which was a decrease of 85% period over period. The majority of the increase was related to realized gains on cryptocurrency sales of $623,344 in 2023, versus $6,908,083 in 2022.

As a result of the foregoing, the Company realized a net loss of $2,130,934 during the six-month period ending June 30, 2023 versus net loss of $496,224 during the six-month period ending June 30, 2022.

Liquidity and Capital Resources

As of February 29, 2023, the Company had cash on hand of approximately $1,900,000. To date, the Company has generated minimal net income, and over the past two years, the Company has operated under losses, excluding a one-time negative expense related to a $10,080,104 amortization of SAFT performance obligation liability as explained further above. As of June 30, 2023 the Company has an accumulated deficit of $3,090,881. However, the Company has generated substantial revenue and gross profit over the last three years and expects to continue to grow revenue by launching new products, increasing marketing spend, and onboarding new third-party retailers and also reducing operating expenses, with a goal of reaching positive net income in the next twelve to eighteen months.

To date, the Company has been capitalized by equity investments from its shareholders, primarily from the sale of its Series Seed financing round Preferred Stock. The Company has also received significant operating income from the sale of crypto assets that it purchased for investment and has re-sold for profit intermittently. The Company held approximately $108,583 in cryptocurrency assets as of June 30, 2023.

In July 2023, the Company launched a Regulation CF campaign to fund growth and operations. In November 2023, the Company closed its Regulation CF campaign, raising a total of $4,880,964.20 in gross proceed. In November 2023, the Company opened a fundraise pursuant to Rule 506(c) of Regulation D and a fundraise pursuant to Regulation S, both of which are utilized technology provided by Novation Solutions, Inc (O/A DealMaker). Both offerings are still ongoing as of the date of this Offering Memorandum and have, in total, raised approximately $422,549. As of the date of this Offering Memorandum, the share price for both these fundraises is $0.16. The Regulation D fundraise currently has a minimum investment of $2,500 and the Regulation S fundraise currently has a minimum investment of $750.08.

The Company has access to potential debt and lines of credit and it can also access additional equity capital through its existing shareholder base and network. The Company expects to continue needing the assistance of outside capital, whether via debt or equity, later this year as it grows its revenue, customer base and operating expenses.

Dividend Rights

The Company will not declare, pay or set aside any dividends on shares of any other class or series of capital stock of the Company (other than dividends on shares of Common Stock payable in shares of Common Stock) unless (in addition to the obtaining of any consents required elsewhere in the Certificate of Incorporation) the holders of the Series Seed Preferred Stock then outstanding will first receive, or simultaneously receive, a dividend on each outstanding share of Series Seed Preferred Stock in an amount at least equal to (i) in the case of a dividend on Common Stock or any class or series that is convertible into Common Stock, that dividend per share of Series Seed Preferred Stock as would equal the product of (A) the dividend payable on each share of such class or series determined, if applicable, as if all shares of such class or series had been converted into Common Stock and (B) the number of shares of Common Stock issuable upon conversion of a share of Series Seed Preferred Stock, in each case calculated on the record date for determination of holders entitled to receive such dividend or (ii) in the case of a dividend on any class or series that is not convertible into Common Stock, at a rate per share of Series Seed Preferred Stock determined by (A) dividing the amount of the dividend payable on each share of such class or series of capital stock by the original issuance price of such class or series of capital stock (subject to appropriate adjustment in the event of any stock dividend, stock split, combination or other similar recapitalization with respect to such class or series) and (B) multiplying such fraction by an amount equal to the Series Seed Original Issue Price.

Liquidation Rights

In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company or Deemed Liquidation Event (as defined above), the holders of shares of Series Seed Preferred Stock then outstanding will be entitled to be paid out of the assets of the Company available for distribution to its stockholders before any payment will be made to the holders of Common Stock by reason of their ownership thereof, an amount per share equal to the greater of (i) the Series Seed Original Issue Price (which is currently is $0.01345679), plus any dividends declared but unpaid thereon, or (ii) such amount per share as would have been payable had all shares of Series Seed Preferred Stock been converted into Common Stock immediately prior to such liquidation, dissolution, winding up or Deemed Liquidation Event. If upon any such liquidation, dissolution or winding up of the Company or Deemed Liquidation Event, the assets of the Company available for distribution to its stockholders will be insufficient to pay the holders of shares of Series Seed Preferred Stock, the holders of shares of Series Seed Preferred Stock will share ratably in any distribution of the assets available for distribution in proportion to the respective amounts which would otherwise be payable in respect of the shares held by them upon such distribution if all amounts payable on or with respect to such shares were paid in full.

Conversion Rights

Each share of Preferred Stock is convertible at the option of the holder, into shares of Class A Common Stock by dividing the "Original Issue Price" by the "Conversion Price", each of which were initially set at $0.01345679 per share. The Conversion Price is subject to adjustment certain circumstances, including, but not limited to (i) the Company making certain issuances of shares of Common Stock for less per share than the Conversion Price then in effect; (ii) the Company effecting a stock split; and/or (iii) distributions or dividends paid in Common Stock to holders of the Company's Common Stock.

Additionally, upon the sale by the Company of shares of its Common Stock in a firm-commitment underwritten public offering at a price per share equal to or greater than three times the Original Issue Price, or upon the vote of the majority of the holders of Preferred Stock of the Company and certain other key holders of the Company's equity securities, all shares of Preferred Stock must convert into shares of Common Stock.

The above descriptions of the terms of our authorized capital stock are only summaries, and are qualified by reference to the Company's Amended and Restated Certificate of Incorporation, as Amended.

Warrants

The Company has outstanding warrants exercisable for (i) 312,500 shares of Class AAA Common Stock at an exercise price of $0.01 per share; and (ii) 500,0000 shares of Class AAA Common Stock at an exercise price of $0.0069 per share. In each case, the exercise price of the warrants are subject to adjustment in the occurrence of certain events, including upon the Company making payments of dividends, stock splits of the Class AAA Common Stock, and certain business combination transactions. Each warrant has an exercise period of 10 years from the date of issuance, and will automatically terminate upon the expiration of this period. Both sets of outstanding warrants will expire in 2034.

Simple Agreement for Future Tokens (SAFTs)

As discussed above, due to a delay in delivering $CRNC tokens to investors that purchased these tokens in the Company's 2018 side-by-side Regulation D and Regulation S offering of $CRNC tokens (conducted through CGL), the Company issued Simple Agreements for Future Tokens (SAFTs) to those investors, totaling approximately $26 million in value (equal to the proceeds from the $CRNC token offering). The form of SAFT entered into with these investors dictates that upon launch of the $CRNC Network, the Company will issue a number of $CRNC tokens based on when the SAFT Purchaser ("Purchaser") is willing to take receipt of the $CRNC tokens. This formula, also called a "Bonus Arrangement" in the SAFT, is an arrangement whereby the Company agrees to issue a larger allocation of $CRNC tokens to the Purchaser if the Purchaser agrees to accept a deferred delivery or distribution of the $CRNC tokens following the effective date of the SAFT. The longer the Purchaser is willing to delay receipt or distribution of $CRNC tokens after the Effective Date of the SAFT, the larger the Bonus (in the form of $CRNC tokens) the Purchaser will receive from the Company. For example, if a Purchaser agrees to a delayed delivery or distribution of: (a) six (6) months following the Effective Date, the Purchaser will receive a Bonus of 55%, (b) three (3) months following the Effective Date, the Purchaser will receive a Bonus of 40% and (c) if there is no delayed delivery or distribution following the Effective Date, the Purchaser will receive a Bonus of 25%.

Between August 2021 and October 2021, all $CRNC tokens due to be issued under the SAFTs (including any additional "Bonus" tokens) were issued to the Purchasers. As such, there are no longer any $CRNC tokens issuable pursuant to the SAFTs.

On account of the launch of the $CRNC Network being delayed longer than expected, the Company elected to pay the SAFT holders a royalty based on the Company's financial performance in 2021, which is described under "Management's Discussion And Analysis Of Financial Condition And Results Of Operations - Liquidity and Capital Resources - $CRNC Tokens Royalty".

As described elsewhere in this offering circular, in connection with planned launch of the $CRNC Network and the creation of the foundation in Q1 2024, all obligations due from the Company to the Purchasers under the SAFTs will cease.

Provisions of Note in Our Amended and Restated Certificate of Incorporation, as Amended

Pursuant to our Amended and Restated Certificate of Incorporation, to the fullest extent permitted by law, the sole and exclusive judicial forum for the following actions will be the Court of Chancery of the State of Delaware:

(1) Any derivative action or proceeding brought on behalf of the Company;

(2) Any action asserting a claim of breach of a fiduciary duty owed by any director, officer or other employee of the Company to the Company or the Company's stockholders;

(3) Any action asserting a claim against the Company arising pursuant to any provision of the Delaware General Company Law or the Company's Amended and Restated Certificate of Incorporation or Bylaws;

(4) Any action to interpret, apply, enforce or determine the validity of the Company's Amended and Restated Certificate of Incorporation or the Bylaws; or

(5) Any action asserting a claim against the Company governed by the internal affairs doctrine.

Although we believe the provision benefits us by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies and in limiting our litigation costs, the forum selection provision may limit investors' ability to bring claims in judicial forums that they find favorable to such disputes and may discourage lawsuits with respect to such claims. The Company has adopted the provision to limit the time and expense incurred by its management to challenge any such claims. As a company with a small management team, this provision allows its officers to not lose a significant amount of time travelling to any particular forum so they may continue to focus on operations of the Company.

Investors' Rights Agreement

On February 25, 2021, the Company entered into an Investors' Rights Agreement with certain investors in the Company's Series Seed Preferred Stock and Class A Common Stock (each, a "Prior Investor") the material terms of which are summarized below.

Registration Rights

The Company agreed to not grant any registration rights to the holders of any class or series of stock of the Company, other than to the Prior Investors, unless the Prior Investors are simultaneously granted registration rights that are comparable to those granted to the holders of such other class or series of stock of the Company (with appropriate adjustments for economic terms). Upon the granting of registration rights to the Prior Investors in connection with a bona fide material transaction by the Company with the principal purpose of raising capital from investors buying stock of the Company, these registration rights will terminate.

Market Stand-Off

The Prior Investors agreed not to engage in certain transactions (like selling or transferring shares) without the managing underwriter's consent for a period of time after the commencement of the Company's first underwritten public offering of its Common Stock under the Securities Act (an "IPO") or an offering pursuant to an alternative registration of the Company's equities securities under the Securities Act. This period can last up to 180 days for an IPO and up to 90 days for other registrations of the Company's equity securities. These restrictions will apply to the Prior Investors only if similar restrictions apply to all officers and directors of the Company. The underwriters have enforcement rights for these provisions

Rights to Future Stock Issuances (Right of First Offer)

If the Company proposes to offer or sell any equity securities of the Company (including

rights, options, or warrants to purchase such equity securities, or securities convertible or exchangeable into such equity securities), it must first offer them to each "Major Investor". "Major Investor" means any Prior Investor that, individually or together with such

Prior Investor's affiliates, holds at least 137,615 shares of Series Seed Preferred Stock and/or Common Stock (as adjusted for any stock split, stock dividend, combination, or other recapitalization or reclassification) or any other Prior Investor that the Company has agreed in writing is a "Major Investor." Major Investors can elect to purchase such securities proportional to their existing ownership. This right does apply to shares issued in an IPO. These rights terminate immediately before an IPO of the Company, or when the Company becomes subject to Exchange Act reporting requirements.

The foregoing description of the Investors' Rights Agreement is intended to be a summary.

ODB has made no commitment to purchase all or any part of the Securities. The term of the Engagement Agreement will continue until the later of the Securities are no longer being listed on the Platform or all fees due to ODB being remitted unless otherwise terminated by either party upon thirty (30) days' prior written notice or for cause as well as for other reasons pursuant to the Engagement Agreement.

ODB is not purchasing any of the Securities in this Offering and are not required to sell any specific number or dollar amount of securities but will instead arrange and manage this Offering on their fundraising platform, Republic.co.

Reimbursable expenses in the event of termination. In the event the Offering does not close or we decide not to pursue this Offering, we have agreed to reimburse ODB the greater of (a) $5,000, (b) all costs incurred by ODB in enabling this Offering to be listed on Republic.co or (c) the dollar amount equal to the processing fees as described below, for the Maximum Offering Amount (as described below).

Commission and Expenses. We have agreed to pay ODB a cash commission of six percent (6.0%) the dollar value of the Securities sold to Investors pursuant to the Offering (the "ODB Cash Commission"). We have also agreed to pay ODB a securities commission equivalent to 1.0% of the dollar value of Securities sold in this Offering. Non-accountable expenses shall be limited to one-half percent (0.5%) of the Offering's proceeds to ODB.

While our management may promote the Company and this Offering, no other commissions will be paid to anyone in connection with facilitating this Offering.

Fees to Investors. ODB shall, in its sole discretion, charge a 2.0% cash fee on gross subscriptions made by each Investor who subscribes to the Offering through the Platform, with a minimum fee of $5 and a maximum of $300 per subscription.

ODB has agreed, with respect to the Securities issued to it as part of its commission, not to: (a) sell, transfer, assign, pledge or hypothecate such Securities for a period of 180 days following the date on which this Offering is qualified by the SEC to anyone other than: (i) its affiliates or any selected dealer that may participate in the Offering, or (ii) a bona fide officer or partner of ODB or of any such selected dealer, in each case in accordance with FINRA Conduct Rule 5110(e)(1), or (b) cause such Securities to be the subject of any hedging, short sale, derivative, put or call transaction that would result in the effective economic disposition of such Securities, except as provided for in FINRA Rule 5110(e)(2). On and after 180 days after the date on which this Offering is qualified by the SEC, transfers to others may be made subject to compliance with or exemptions from applicable securities laws. There are no registration rights offered to ODB. We may be required to indemnify ODB and possibly other parties with respect to

disclosures made in this Offering Memorandum as well as for a material breach of its representations, warranties, covenants or agreements in the engagement Agreement.

Fees for Termination of the Engagement Agreement. Should we terminate the Engagement Agreement, other than for a breach of the Engagement Agreement by ODB, we have agreed to pay ODB the greater of $5,000 or an amount equal to the number of Investors in this Offering multiplied by $25.00.

Aggregate Maximum Commission payable to ODB. The aggregate cash commission to be paid to ODB if the Maximum Offering Amount is raised will have a maximum value of no more than 6% of the total proceeds of the Offering. Any other fees that the Company may pay to ODB or third parties will not be commissions for these purposes.

For the avoidance of doubt, neither ODB's cash commission nor ODB's expense reimbursement will reduce Investors' capital commitment. ODB will be entitled to a securities commission equal to one percent (1.0%) of the dollar value of the Securities sold in the Offering. In aggregate, ODB shall receive a commission not to exceed seven percent (7%) of the total proceeds of the Offering.

Indemnification and Control

We have agreed to indemnify ODB against liabilities relating to any investigation, claim, or proceeding stemming from the Offering, liabilities arising from breaches of some or all of the representations and warranties contained in the Engagement Agreement, and to contribute to payments that ODB may be required to make for these liabilities. ODB and their respective affiliates are engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. ODB and their respective affiliates may in the future perform various financial advisory and investment banking services for us, for which they received or will receive customary fees and expenses.

Investment commitments are not binding on the Company until they are accepted by the Company. Once accepted by the Company, subscriptions are irrevocable.

We will hold an initial closing on any number of Securities at any time during the Offering after we have received notification of approval when we and ODB determine, and thereafter may hold one or more additional closings until we determine to cease having any additional closings during the Offering. We will close on proceeds based upon the order in which they are received. We will consider various factors in determining the timing of any additional closings following the initial closing, including the amount of proceeds received at the initial closing and any prior additional closings.

How big is the problem and why is it important?

The use of the United States financial system by criminals to facilitate terrorism or other crimes could taint our financial markets. According to the United States State Department estimate puts the amount of worldwide money laundering activity at $1 trillion a year.

Patriot Act; Anti-Money Laundering; OFAC.

EXHIBIT A: FINANCIAL STATEMENTS

MODE MOBILE, INC.

CONSOLIDATED FINANCIAL STATEMENTS AND INDEPENDENT AUDITOR'S REPORT

DECEMBER 31, 2022 and 2021

INDEPENDENT AUDITOR'S REPORT

July 25, 2023

To: Board of Directors, MODE MOBILE, INC.

Re: 2022-2021 Financial Statement Audit

We have audited the accompanying financial statements of MODE MOBILE, INC. (a corporation organized in Delaware) (the "Company"), which comprise the balance sheets as of December 31, 2022 and 2021, and the related statements of income, shareholders' equity/deficit, and cash flows for the calendar years ended December 31, 2022 and 2021, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit of the Company's financial statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Going Concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in the notes to the consolidated financial statements, the Company has suffered recurring losses from operations and has a net capital deficiency that raise substantial doubt about its ability to continue as a going concern. Management's evaluation of the events and conditions and management's plans regarding these matters are also described in the notes to the financial statements. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified with respect to this matter.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and 2021, and the results of its operations, shareholders' equity/deficit and cash flows for the calendar years ended December 31, 2022 and 2021 in accordance with accounting principles generally accepted in the United States of America.

Sincerely,

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America ("GAAP"). The Company's fiscal year is December 31.

The consolidated financial statements have been presented to reflect the capital structure per the Reorganization on a retroactive basis.

Principles of Consolidation

These consolidated financial statements include the accounts of Mode Mobile and its subsidiaries Mode Mobile, LLC, Mode Phone, LLC and CGL. All intercompany transactions and balances have been eliminated in consolidation.

The Company evaluates its relationships with other entities to identify whether they are variable interest entities ("VIE") as defined by Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC")

Topic 810, Consolidation ("ASC 810"), and to assess whether it is the primary beneficiary of such entities. If the determination is made that the Company is the primary beneficiary, then that entity is consolidated.

Reverse Stock Split

On February 28, 2023, the Board of Directors approved a 162-for-1 forward stock split of its issued and outstanding shares of common and preferred stock. Accordingly, all share and per share amounts for all periods presented in the accompanying consolidated financial statements and notes thereto have been adjusted retroactively, where applicable, to reflect this forward stock split.

Use of Estimates

The preparation of the Company's consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant estimates and assumptions reflected in these consolidated financial statements include, but are not limited to, the valuations of common stock, amortization of performance obligation liabilities and valuation of cryptocurrency assets. The Company bases its estimates on historical experience, known trends and other market-specific or other relevant factors that it believes to be reasonable under the circumstances. On an ongoing basis, management evaluates its estimates when there are changes in circumstances, facts and experience. Changes in estimates are recorded in the period in which they become known. Actual results could differ from those estimates.

Concentrations of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in financial institutions, which, at times, may exceed the Federal Depository Insurance Coverage of $250,000. As of December 31, 2022 and 2021, the Company had not experienced losses on these accounts and held uninsured deposit amounts of $2,564,028 and $824,637, respectively.

Cash and Cash Equivalents

The Company considers all highly liquid investments with maturities of three months or less at the date of purchase to be cash equivalents.

Fair Value Measurements

Certain assets and liabilities of the Company are carried at fair value under GAAP. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. Financial assets and liabilities carried at fair value are to be classified and disclosed in one of the following three levels of the fair value hierarchy, of which the first two are considered observable and the last is considered unobservable:

- Level 1—Quoted prices in active markets for identical assets or liabilities.

- Level 2—Observable inputs (other than Level 1 quoted prices), such as quoted prices in active markets for similar assets or liabilities, quoted prices in markets that are not active for identical or similar assets or liabilities, or other inputs that are observable or can be corroborated by observable market data.

- Level 3—Unobservable inputs that are supported by little or no market activity that are significant to determining the fair value of the assets or liabilities, including pricing models, discounted cash flow methodologies and similar techniques.

The carrying values of the Company's assets and liabilities approximate their fair values.

Accounts Receivable

The Company's account receivables are due from customers primarily due to the Company's marketing revenue. The Company also maintains allowances for doubtful accounts for estimated losses resulting from the inability of the Company's customers to make payments. The Company periodically reviews these estimated allowances, including an analysis of the customers' payment history and creditworthiness, the age of the trade receivable balances and current economic conditions that may affect a customer's ability to make payments as well as historical collection trends for its customers as a whole. Based on this review, the Company specifically reserves for those accounts deemed uncollectible or likely to become uncollectible. When receivables are determined to be uncollectible, principal amounts of such receivables outstanding are deducted from the allowance. As of December 31, 2022, there was a $555,000 allowance for doubtful accounts related to the Voyager Digital bankruptcy.

During the year ended December 31, 2022, the Company utilized accounts receivable factoring for select invoices totaling $2,983,197, and recorded factoring fees of $50,717 which was included in interest expense in the consolidated statements of operations.

Note Receivable

In 2020, the Company entered into a note receivable agreement with X Global for a principal amount of $170,000, which shall be paid with X Global's accounts receivable that will be collected by Mode. Total of $94,805 was collected in 2020. In 2021, the note receivable was written off and the balance was $0 as of December 31, 2022 and 2021, respectively.

Inventory

The Company's inventory consists of finished goods pertaining to the Company's hardware phones. The inventory is valued at the lower of cost (weighted-average) or estimated net realizable value. As of December 31, 2022 and 2021, the Company had deposits for future inventory of $387,620 and $121,604, respectively, which was included in prepaid expenses and other current assets on the consolidated balance sheets. Inventory balances are evaluated for excess quantities and obsolescence on a regular basis by analyzing estimated demand, inventory on hand, sales levels and other information and reduce inventory balances to net realizable value for excess and obsolete inventory based on this analysis. At the point of the write-down recognition, a new, lower cost basis for that inventory is established, and subsequent changes in facts and circumstances do not result in the restoration or increase in that newly established cost basis. Management believes there was no impairment of inventory as of both December 31, 2022 and 2021.

Property and Equipment, Net

Property and equipment are stated at cost less accumulated depreciation and amortization. Property and equipment consists of computer equipment, furniture and fixtures and office equipment, and depreciation expense is recognized using the straight-line method over the estimated useful life of five years for computer equipment, seven years for furniture and fixtures, and five to fifteen years for office equipment.

The following is a summary of property and equipment:

	December 31,	
	2022	**2021**
Computer equipment	$ 51,460	$ 44,610
Furniture and fixtures	6,137	6,137
Office equipment	57,562	57,562
Total	115,159	108,309
Less: Accumulated depreciation	(86,420)	(75,361)
Property and equipment, net	$ 28,739	$ 32,948

Depreciation expense was $11,059 and $10,147 for the years ended December 31, 2022 and 2021, respectively.

Impairment of Long-Lived Assets

The Company evaluates the recoverability of the carrying value of long-lived assets held and used in its operations for impairment on at least an annual basis or whenever events or changes in circumstances indicate that their carrying value may not be recoverable. When such factors and circumstances exist, the Company compares the projected undiscounted future net cash flows associated with the related asset or group of assets over their estimated useful lives against their respective carrying amount. These projected future cash flows may vary significantly over time as a result of increased competition, changes in technology, fluctuations in demand, consolidation of its customers and reductions in average sales prices. If the carrying value is determined not to be recoverable from future operating cash flows, the asset is deemed impaired, and an impairment loss is recognized to the extent the carrying value exceeds the estimated fair value of the asset. The fair value of the asset or asset group is based on market value when available, or when unavailable, on discounted expected cash flows. Management believes there was no impairment of long-lived assets as of both December 31, 2022 and 2021.

Intangible Assets

Intangible assets are amortized over the respective estimated lives, unless the lives are determined to be indefinite and reviewed for impairment whenever events or other changes in circumstances indicate that the carrying amount may not be recoverable. Impairment testing compares carrying values to fair values and, when appropriate, the carrying value of these assets is reduced to fair value. Impairment charges, if any, are recorded in the period in which the impairment is determined.

Intangible assets, with a cost of $227,807, consist of mobile charge screens and monetization software, pursuant to an asset acquisition. The assets are amortized over a useful life of three years. During the years ended December 31, 2022 and 2021, amortization expense was $75,936 and $75,936, respectively. As of December 31, 2022, intangible assets, net of accumulated amortization of $189,839, was $37,968.

Digital Assets – Cryptocurrencies and Nonfungible Tokens

The Company initially records cryptocurrency and nonfungible tokens ("NFTs") when received at cost, and subsequently adjusts each reporting period to the lower of cost or fair value. The Company recognizes an impairment charge on these assets arising from decreases in market value based upon Level 2 inputs, being actively traded exchange's closing prices at each reporting date, whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Such impairment in the value of cryptocurrencies and NFTs are recorded in the consolidated statements of operations.

During the year ended December 31, 2022, the Company recorded $408,015 on impairment related to its NFTs.

The Company realizes gains and losses upon sale or transfer of cryptocurrencies and NFTs, and are recorded under other income (expense) in the consolidated statements of operations. The Company uses cryptocurrencies to convert cryptocurrency holdings to other cryptocurrencies and US dollars as needed to fund operations. The gains and losses recognized from non-cash transactions are reflected as adjustments to reconcile to operating cash flows in the consolidated statements of cash flows.

Software Development Costs

The Company expenses software development costs as incurred. Such software development costs have been reflected as a reduction to the SAFT performance obligation.

Revenue Recognition

The Company adopted ASU 2014-09, *Revenue from Contracts with Customers*, and its related amendments (collectively known as "ASC 606"), effective January 1, 2019 using the modified retrospective transition approach applied to all contracts. Therefore, the reported results for the years ended December 31, 2022 and 2021 reflect the application of ASC 606. Management determined that there were no retroactive adjustments necessary to revenue

recognition upon the adoption of the ASU 2014-09. The Company determines revenue recognition through the following steps:

- Identification of a contract with a customer;
- Identification of the performance obligations in the contract;
- Determination of the transaction price;
- Allocation of the transaction price to the performance obligations in the contract; and
- Recognition of revenue when or as the performance obligations are satisfied.

Revenue is recognized when control of the promised goods or services is transferred to customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods or services. As a practical expedient, the Company does not adjust the transaction price for the effects of a significant financing component if, at contract inception, the period between customer payment and the transfer of goods or services is expected to be one year or less.

The Company's Mode Earn App enables users the ability to earn rewards on a single platform for interacting with digital content on their smartphones. Mode Mobile drives user engagement and monetizes user activity primarily through digital marketing revenue from advertising partners (including ad networks, ad exchanges, and brand partners). The Company satisfies performance obligations and recognizes revenue over time.

The Company also generates revenue from proof-of-concept phone hardware sales. Control transfers at a point in time, and as such, revenue is recognized upon shipment. This includes the transfer of legal title, physical possession, the risks and rewards of ownership, and customer acceptance. For proof-of-concept subscriptions, control transfers over time, and as such, revenue is recognized on a straight-line basis.

Revenue by source consisted of the following for the years ended December 31, 2022 and 2021:

	Year Ended December 31,	
	2022	**2021**
Advertising	$ 24,411,911	$22,413,334
Other	535,132	537,600
Net revenues	$ 24,947,043	$22,950,934

Contract Balances

The Company invoices customers based upon contractual billing schedules, and accounts receivable are recorded when the right to consideration becomes unconditional. Contract liabilities represent prepayments received in advance of performance obligations met.

As of December 31, 2022 and 2021, the Company has deferred revenue of $0 and $600,000. The deferred revenue at December 31, 2021 was recognized in 2022.

Cost of Net Revenues

Cost of net revenues consists primarily of user redemptions on the Mode Earn App. The Company shares a portion of generated revenue with users and also facilitates earnings and savings for users directly from advertising brands. Monthly user redemption costs represent the dollar value of rewards redeemed by users that are paid out by the Company. Cost of net revenues also includes hosting costs, as well as the product and related fulfillment costs of hardware products sold.

Cost of net revenue by source consisted of the following for the years ended December 31, 2022 and 2021:

	Year Ended December 31,	
	2022	2021
Advertising	$ 9,717,889	$ 6,984,507
Other	531,716	865,180
Cost of net revenues	$ 10,249,605	$ 7,849,687

Advertising and Promotion

Advertising and promotional costs are expensed as incurred. Advertising costs were approximately $9,244,000 and $13,945,000 for the years ended December 31, 2022 and 2021, respectively, and are included in sales and marketing expenses in the consolidated statements of operations.

Research and Development Costs

Costs incurred in the research and development of the Company's technology and products are expensed as incurred.

General and Administrative Expenses

General and administrative expenses consist primarily of payroll and payroll-related benefits and taxes, professional services, administrative expenditures, and information technology.

Accounting for Preferred Stock

ASC 480, *Distinguishing Liabilities from Equity*, includes standards for how an issuer of equity (including equity shares issued by consolidated entities) classifies and measures on its consolidated balance sheet certain financial instruments with characteristics of both liabilities and equity.

Management is required to determine the presentation for the preferred stock as a result of the redemption and conversion provisions, among other provisions in the agreement. Specifically, management is required to determine whether the embedded conversion feature in the preferred stock is clearly and closely related to the host instrument, and whether the bifurcation of the conversion feature is required and whether the conversion feature should be accounted for as a derivative instrument. If the host instrument and conversion feature are determined to be clearly and closely related (both more akin to equity), derivative liability accounting under ASC 815, *Derivatives and Hedging*, is not required. Management determined that the host contract of the preferred stock is more akin to equity, and accordingly, liability accounting is not required by the Company. The Company has presented preferred stock within stockholders' equity.

Costs incurred directly for the issuance of the preferred stock are recorded as a reduction of gross proceeds received by the Company, resulting in a discount to the preferred stock. The discount is not amortized.

Stock-Based Compensation

The Company measures all stock-based awards granted to employees and directors based on the fair value on the date of the grant and recognizes compensation expense for those awards over the requisite service period, which is generally the vesting period of the respective award. The Company issues stock-based awards with only service-based vesting conditions and records the expense for these awards using the straight-line method. For awards with performance-based vesting conditions, the Company records the expense if and when the Company concludes that it is probable that the performance condition will be achieved.

The Company classifies stock-based compensation expense in its statement of operations in the same manner in which the award recipient's payroll costs are classified or in which the award recipient's service payments are classified.

The fair value of each stock option grant is estimated on the date of grant using the Black-Scholes option-pricing model. The Company historically has been a private company and lacks company-specific historical and implied volatility information for its stock. Therefore, it estimates its expected stock price volatility based on the historical

volatility of publicly traded peer companies and expects to continue to do so until such time as it has adequate historical data regarding the volatility of its own traded stock price. The expected term of the Company's stock options has been determined utilizing the "simplified" method for awards that qualify as "plain-vanilla" options. The risk-free interest rate is determined by reference to the U.S. Treasury yield curve in effect at the time of grant of the award for time periods approximately equal to the expected term of the award. Expected dividend yield is based on the fact that the Company has never paid cash dividends on common stock and does not expect to pay any cash dividends in the foreseeable future. The Company recognizes forfeitures as they occur as there is insufficient historical data to accurately determine future forfeitures rates. Determining the appropriate fair value of stock-based awards requires the input of subjective assumptions. The assumptions used in calculating the fair value of stock-based awards represent management's best estimates and involve inherent uncertainties and the application of management's judgment. As a result, if factors change and management uses different assumptions, stock-based compensation expense could be materially different for future awards.

The Company records an expense for stock issued for services as an expense based on the number of shares issued and fair value of the underlying stock issued to the recipient.

Deferred Offering Costs

The Company complies with the requirements of FASB ASC 340-10-S99-1 with regards to offering costs. Prior to the completion of an offering, offering costs are capitalized. The deferred offering costs are charged to additional paid-in capital or as a discount to debt, as applicable, upon the completion of an offering or to expense if the offering is not completed.

As of December 31, 2022 and 2021, the Company had capitalized $214,506 and $8,920 in deferred offering costs, respectively.

Leases

On January 1, 2022, the Company adopted ASC 842, Leases, as amended, which supersedes the lease accounting guidance under Topic 840, and generally requires lessees to recognize operating and finance lease liabilities and corresponding right-of-use (ROU) assets on the balance sheet and to provide enhanced disclosures surrounding the amount, timing and uncertainty of cash flows arising from lease arrangements. The Company adopted the new guidance using a modified retrospective method. Under this method, the Company elected to apply the new accounting standard only to the most recent period presented, recognizing the cumulative effect of the accounting change, if any, as an adjustment to the beginning balance of retained earnings. Accordingly, prior periods have not been recast to reflect the new accounting standard. The cumulative effect of applying the provisions of ASC 842 had no material impact on accumulated deficit.

The Company elected transitional practical expedients for existing leases which eliminated the requirements to reassess existing lease classification, initial direct costs, and whether contracts contain leases. Also, the Company elected to present the payments associated with short-term leases as an expense in statements of operations. Short-term leases are leases with a lease term of 12 months or less. The adoption of ASC 842 had no impact on the Company's balance sheet as of December 31, 2022.

Income Taxes

The Company uses the liability method of accounting for income taxes as set forth in ASC 740, Income Taxes. Under the liability method, deferred taxes are determined based on the temporary differences between the financial statement and tax basis of assets and liabilities using tax rates expected to be in effect during the years in which the basis differences reverse. A valuation allowance is recorded when it is unlikely that the deferred tax assets will not be realized. The Company assesses its income tax positions and records tax benefits for all years subject to examination based upon the evaluation of the facts, circumstances and information available at the reporting date. In accordance with ASC 740-10, for those tax positions where there is a greater than 50% likelihood that a tax benefit will be sustained, the Company's policy will be to record the largest amount of tax benefit that is more likely than not to be realized upon ultimate settlement with a taxing authority that has full knowledge of all relevant information. For those

income tax positions where there is less than 50% likelihood that a tax benefit will be sustained, no tax benefit will be recognized.

Net Income / (Loss) per Share

Net earnings or loss per share is computed by dividing net income or loss by the weighted-average number of common shares outstanding during the period, excluding shares subject to redemption or forfeiture. The Company presents basic and diluted net earnings or loss per share. Diluted net earnings or loss per share reflect the actual weighted average of common shares issued and outstanding during the period, adjusted for potentially dilutive securities outstanding. Potentially dilutive securities are excluded from the computation of the diluted net loss per share if their inclusion would be anti-dilutive. As all potentially dilutive securities are anti-dilutive as of December 31, 2022, diluted net loss per share is the same as basic net loss per share.

The following table sets forth the a) the dilutive items included in the weighted average common shares – diluted amount above as of December 31, 2021 and b) the number of potential common shares excluded from the calculations of net loss per diluted share because their inclusion would be anti-dilutive as of December 31, 2022:

	December 31,	
	2022	**2021**
Series Seed convertible preferred stock	353,712,906	353,712,906
Stock options	226,757,718	221,424,516
Total potentially dilutive shares	580,470,624	575,137,422

Recently Adopted Accounting Pronouncements

In February 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-02, *Leases (Topic 842*). This ASU requires a lessee to recognize a right-of-use asset and a lease liability under most operating leases in its balance sheet. The ASU is effective for annual and interim periods beginning after December 15, 2021. Early adoption is permitted. The Company adopted this ASU on January 1, 2022 and it did not have any effect on its consolidated financial statements.

In January 2017, the FASB issued ASU 2017-04, *Intangibles – Goodwill and Other (Topic 350), simplifying Accounting for Goodwill Impairment ("ASU 2017-04").* ASU 2017-04 removes the requirement to perform a hypothetical purchase price allocation to measure goodwill impairment. A goodwill impairment will now be the amount by which a reporting unit's carrying value exceeds its fair value, not to exceed the carrying amount of goodwill. The amendments in this update are effective for public entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2020. For all other entities, the amendment is effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. The Company is currently evaluating the impact the adoption of ASU 2017-04 will have on the Company's consolidated financial statements.

In December 2019, the FASB issued ASU No. 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes ("ASU 2019-12"),* which simplifies the accounting for income taxes, eliminates certain exceptions within ASC 740, Income Taxes, and clarifies certain aspects of the current guidance to promote consistency among reporting entities. The ASU is effective for fiscal years beginning after December 15, 2021, and interim periods within fiscal years beginning after December 15, 2022, with early adoption permitted. The Company adopted this standard in 2022, which did not have a material impact on Company's financial condition or results of operations.

In August 2020, FASB issued ASU 2020-06, *Accounting for Convertible Instruments and Contracts in an Entity; Own Equity ("ASU 2020-06"),* as part of its overall simplification initiative to reduce costs and complexity of applying accounting standards while maintaining or improving the usefulness of the information provided to users of financial statements. Among other changes, the new guidance removes from GAAP separation models for convertible debt that require the convertible debt to be separated into a debt and equity component, unless the conversion feature is required to be bifurcated and accounted for as a derivative or the debt is issued at a substantial premium. As a result, after

adopting the guidance, entities will no longer separately present such embedded conversion features in equity, and will instead account for the convertible debt wholly as debt. The new guidance also requires use of the "if-converted" method when calculating the dilutive impact of convertible debt on earnings per share, which is consistent with the Company's current accounting treatment under the current guidance. The Company adopted ASU 2016-02 on January 1, 2022 and it did not have any effect on its consolidated financial statements.

Management does not believe that any other recently issued, but not yet effective, accounting standards could have a material effect on the accompanying consolidated financial statements. As new accounting pronouncements are issued, the Company will adopt those that are applicable under the circumstances.

3. GOING CONCERN

The Company has evaluated whether there are certain conditions and events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the consolidated financial statements are issued.

The accompanying consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company had a net loss of $2,374,278 and net cash used in operating activities of $7,067,229 for the year ended December 31, 2022. As of December 31, 2022, the Company had an accumulated deficit of $959,947. These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern for the next twelve months is dependent upon its ability to generate sufficient cash flows from operations to meet its obligations, which it has not been able to accomplish to date, and/or to obtain additional capital financing. No assurance can be given that the Company will be successful in these efforts. The consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities.

4. CRYPTOCURRENCIES AND NFTs

Due to the lack of authoritative guidance under GAAP, the Company accounts for its holdings in cryptocurrency as intangible assets. As a result, the Company initially measures the cryptocurrency at cost. Since there is no limit on the useful life of the cryptocurrencies, they are classified as indefinite-lived intangible assets.

Indefinite-lived intangible assets are not subject to amortization, but rather are tested for impairment on an annual basis and more frequently if events or circumstances change that indicate that it is more likely than not that the asset is impaired. As a result, the Company recognizes decreases in the value of its holdings in cryptocurrency. Both Bitcoin and Ether are traded on exchanges in which there are observable prices in an active market. The Company considers quoted prices below its carrying cost to be an impairment indicator. The quoted price and observable prices are determined by the Company using a principal market analysis in accordance with ASC 820, *Fair Value Measurement*.

The Company considers each cryptocurrency as a separate unit of account when evaluating cryptocurrencies for impairment. The Company tracks the weighted average unit cost of each cryptocurrency received or purchased, when performing impairment testing and upon disposition either through sale or exchanged for goods or services.

The Company designates certain cryptocurrency transactions as fair value hedges to hedge volatility and market value risks for our cryptocurrencies. Fair value hedge amounts included in the assessment of hedge effectiveness are recognized in other income (expense), net, along with the offsetting gains and losses of the related hedged items.

Cryptocurrencies

Realized gains on cryptocurrency holdings were $8,099,516 and $4,269,858 for the years ended December 31, 2022 and 2021, respectively. The Company recorded no impairment charges against its cryptocurrency holdings in 2022 or 2021.

The indefinite lived intangible activity for the years ended December 31, 2022 and 2021 are as follows:

	Cryptocurrency assets
Balance at December 31, 2020	$ 1,026,423
Sales of cryptocurrency	(4,455,520)
Realized gains on cryptocurrency sales	4,269,858
Balance at December 31, 2021	840,761
Sales of cryptocurrency	(8,831,694)
Realized gains on cryptocurrency sales	8,099,516
Balance at December 31, 2022	$ 108,583

Nonfungible Token Assets

The Company owns a portfolio of NFT assets that were first acquired in early 2022. The following is a summary of NFT activity for 2022:

	Nonfungible token assets
Balance at December 31, 2021	$ -
Purchases of NFTs	578,214
Impairment	(408,015)
Balance at December 31, 2022	$ 170,199

5. SAFT PERFORMANCE OBLIGATION LIABILITY

In 2018, the Company (via Nativ Mobile, LLC) conducted and completed a token offering pursuant to a side-by-side, U.S. Securities Act Regulation D and Regulation S offering where it offered $CRNC tokens to investors in consideration for their investments. Due to a disclosed delay in delivering tokens to investors, the investments were executed pursuant to "Simple Agreement(s) for Future Tokens" ("SAFTs"), which, among other things, contemplated the Company delivering $CRNC tokens to investors in advance of a network launch. The proceeds of this offering were contemplated to be used for the further buildout of the $CRNC Network, which was designed to serve as a robust earnings ecosystem for network participants (the "Project"). $CRNC tokens were designed to serve as the in-network currency for the $CRNC earnings ecosystem.

The initial SAFT proceeds of $26 million for developing the Project was recorded as a performance obligation liability, net of costs incurred in satisfying the performance obligations created in the token offering. The SAFTs do not provide the holder with a security interest in the issuing entity, Current (Gibraltar) Limited, or establish an economic or ownership right to the performance of specific assets, nor is there a form of partnership, joint venture, agency or any similar relationship between a token holder and the Company and/or other individuals or entities involved with the Project. The tokens do not pay interest and have no maturity date. The tokens confer only the right to services in the Project and confer no other rights of any form with respect to us including, but not limited to, any voting, distribution, redemption, liquidation, proprietary (including all forms of intellectual property), or other financial or legal rights.

The Company evaluated the terms of the Company's $CRNC tokens and determined that, when sold, these tokens represent an obligation by the Company with counterparties that were determined to not be customers. Therefore, the Company determined that the tokens, when sold, are similar by analogy to debt securities under ASC 320, *Investments*

– *Debt and Equity Securities ("ASC 320").* ASC 320 applies to all debt securities and defines a debt security as any security representing a creditor relationship. Based on its terms, the SAFT tokens are not debt securities in legal form, but are considered an obligation (as defined by FASB Concepts Statement No. 6, *Elements of Financial Statements)* of the Company as issuer, since the Company represented that the proceeds raised would be used to fund future development of the Project. Therefore, the Company considers the $CRNC token, when sold, as an obligation in accordance with ASC 320, which effectively creates a creditor relationship to holders of its tokens.

The Company has considered the costs to satisfy its performance obligations and determined that the Project represents a "funded software arrangement", and the parties who purchased tokens contributed towards the funding of the Project represent collaborators and not customers. Therefore, software development costs related to the Project were applied against the performance obligation.

The SAFT performance obligation activity as of and for the years ended December 31, 2022 and 2021 is as follows:

	SAFT Performance Obligation
Balance at December 31, 2020	$ 10,080,104
Payments made on software development for performance obligation	(10,080,104)
Balance at December 31, 2021	-
Balance at December 31, 2022	$ -

During the years ended December 31, 2022 and 2021, payments made on software development for performance obligations totaled $0 and $10,080,104, respectively, which were credited to operating expenses in the consolidated statements of operations.

On account of the delay in the launch of the Project by introducing $CRNC tokens into the Project ecosystem, the Company elected to pay investors a royalty based on the Company's financial performance in 2021. Based on what each individual investor elected to receive, the consideration paid to investors on account of the royalty were either additional $CRNC tokens or shares in the Company. The value of the royalty was $1,900,000 and the number of $CRNC tokens or Company shares an investor would receive was based on the original investment amount paid at the time of the execution of the SAFTs. Approximately 86% of investors elected to receive additional $CRNC tokens and 14% of investors elected to receive Company shares. Accordingly, the Company has recognized a royalty liability of $1,900,000 as of December 31, 2022. The liability will be released based on the ultimate distribution means, increasing the performance obligation for token issuances and recording paid-in capital for share issuances, when distribution occurs in 2023.

6. DEBT

MXL Repayments

As part of the Company's corporate reorganization, the Company took steps to wind-down MXL and make distributions as appropriate. As part of MXL's liquidation, its primary remaining asset was a loan with the Company where MXL loaned approximately $664,000 to the Company in order to support operations. On the effective date of the corporate reorganization in February 2021, the $664,000 loan was repaid by the Company.

PPP Loan

During the COVID-19 pandemic, the Company received a Paycheck Protection Program (PPP) loan of $354,353 on May 4, 2020. The Company later filed a loan forgiveness application with the U.S. Small Business Administration

on May 17, 2021 and received notice that its Paycheck Protection Program loan had been forgiven in full on June 4, 2021. As such, $354,353 was recognized as other income in 2021.

Convertible Notes and Simple Agreements for Future Equity

As of December 31, 2020, the Company had outstanding convertible notes totaling $1,600,000 and Simple Agreements for Future Equity ("SAFEs") totaling $2,249,950. In 2021, the Company repaid $50,000 of SAFEs and the balance outstanding of $2,199,950 was converted into shares of preferred stock. The Company also repaid $100,000 of convertible notes in 2021. The convertible notes were issued by the same institution, which also invested in the Company through a SAFE. Between 2015 and 2017, the Company entered into 26 different SAFEs with both institutional and individual investors. Each SAFE included a valuation cap ranging from $6.5 million to $9 million, which represented the upper limit for which investors could convert their SAFEs into Company shares. In 2021, as part of the Company's corporate reorganization, $1,500,000 of the principal amount of the notes plus $75,000 in accrued interest and the remaining SAFEs (as noted above) were converted into an aggregate of 353,712,906 shares of Series Seed Preferred Stock.

The holders of the Preferred Stock have the following rights and preferences:

Voting

On any matter presented to the stockholders of the Company for their action or consideration at any meeting of stockholders of the Company (or by written consent of stockholders in lieu of a meeting), each holder of outstanding shares of Preferred Stock shall be entitled to cast the number of votes equal to the number of whole shares of Common Stock into which the shares of Preferred Stock held by such holder are convertible as of the record date for determining stockholders entitled to vote on such matter. Except as provided by law or by the other provisions of the Company's Charter, holders of Preferred Stock shall vote together with the holders of Common Stock as a single class and on an as converted to Common Stock basis.

The Company shall not, either directly or indirectly by amendment, merger, consolidation or otherwise, do any of the following without the written consent or affirmative vote of at least a majority of the outstanding shares of Preferred Stock, voting together as a single class on an as-converted to Common Stock basis:

- purchase or pay or declare any dividend on any capital stock other than (i) dividends payable on the Common Stock solely in the form of additional shares of Common Stock, (ii) redemptions of dividends or distributions on the Series Seed Preferred stock and (iii) stock repurchased from former employees, officers, directors or others who performed services for the Company
- create or hold capital stock in any subsidiary that is not a wholly-owned subsidiary

At any time when at least 70,596,360 shares of Series Seed Preferred Stock remain outstanding, the Company shall not, either directly or indirectly by amendment, merger, consolidation or otherwise, without the written consent or affirmative vote of at least a majority of the outstanding shares of Preferred Stock, voting together as a single class

on an as-converted to Common Stock basis, amend, alter or repeal any provision of the Company's Charter or Bylaws of the Company in a manner that substantially and disproportionally adversely affects the powers, preferences or rights of the Series Seed Preferred Stock.

Dividends

The Company shall not declare, pay or set aside any dividends on shares of any other class or series of capital stock of the Company unless (in addition to the obtaining of any consents required elsewhere in the Company's Charter) the holders of the Preferred Stock then outstanding shall first receive, or simultaneously receive, a dividend on each outstanding share of Preferred Stock as defined in the Company's Charter. The Preferred Stock dividend rates contain certain dilution protections.

Liquidation

In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company, the holders of shares of each series of Preferred Stock then outstanding shall be entitled to be paid out of the assets of the Company available for distribution to its stockholders and, in the event of a deemed liquidation event, the holders of shares of each series of Preferred Stock then outstanding shall be entitled to be paid out of the consideration payable to stockholders in such deemed liquidation event or out of the available proceeds, as applicable, on a pari passu basis among each other, the greater of (i) an amount per share equal to one times the applicable Original Issue Price (as defined below), plus any dividends declared but unpaid thereon, payable before any payment shall be made to the holders of Common Stock by reason of their ownership thereof (the amounts payable pursuant to this clause (i) are hereinafter referred to as the "Preferred Liquidation Amounts"), or (ii) such amount per share as would have been payable had all shares of such series of Preferred Stock (and all shares of all other series of Preferred Stock that would receive a larger distribution per share if such series of Preferred Stock and all such other series of Preferred Stock were converted into Common Stock) been converted into Common Stock immediately prior to such liquidation, dissolution, winding up or deemed liquidation event. If, upon any such liquidation, dissolution or winding up of the Company or deemed liquidation event, the assets of the Company available for distribution to its stockholders shall be insufficient to pay the holders of shares of Preferred Stock the full amount to which they shall be entitled, the holders of shares of Preferred Stock shall share ratably in any distribution of the assets available for distribution in proportion to the respective amounts which would otherwise be payable in respect of the shares held by them upon such distribution if all amounts payable on or with respect to such shares were paid in full.

The Series Seed Original Issue Price is $0.01345679 per share, subject to appropriate adjustment in the event of any stock dividend, stock split, combination or other similar recapitalization with respect to the Series Seed Preferred Stock. After payment of the Preferred Liquidation Amounts, remaining assets are distributed ratably to holders of Common Stock.

The liquidation preference as of both December 31, 2022 and 2021 was $4,759,840.

Anti-Dilution Rights

Holders of Series Seed Preferred Stock have the benefit of anti-dilution protective provisions that will be applied to adjust the number of shares of Common Stock issuable upon conversion of the shares of the Preferred Stock. If equity securities are subsequently issued by the Company at a price per share less than the conversion price of a series of Preferred Stock then in effect, the conversion price of the affected series of Preferred Stock will be adjusted using a broad-based, weighted-average adjustment formula as set out in the Company's Charter. Preferred Stock has certain protections against additional issuances of Common Stock.

Conversion

Each share of Series Seed Preferred Stock shall be convertible, at the option of the holder thereof, at any time and from time to time, and without the payment of additional consideration by the holder thereof, into such number of fully paid and non-assessable shares of Class A Common Stock as is determined by dividing the applicable original

issue price by the applicable conversion price in effect at the time of conversion. The Series Seed conversion price is $0.01345679 per share.

Additionally, each share of Series Seed Preferred Stock will automatically convert into shares of Class A Common Stock (i) immediately prior to the closing at a price of at least 3 times the Series Seed Original Issue Price of a firm commitment underwritten public offering, registered under the Securities Act of 1933, as amended (the "Securities Act") or (ii) a vote or written consent of a majority of the outstanding shares of Preferred Stock, voting together as a single class on an as-converted to Common Stock basis, and a vote of the key holders of common stock, as defined in the Company's Amended Articles of Incorporation.

The Company authorized 2,100,000,000 shares of Class A Common Stock, 243,000,000 shares of Class B Common Stock, 12,150,000 shares of Class C Common Stock and 600,000,000 shares of Class AAA Common Stock at $0.0001 par value as of December 31, 2022.

The holders of the Class A common stock are entitled to one vote for each share of such stock held at all meetings of stockholders. There shall be no cumulative voting, and the holders of shares of Class B, Class C and Class AAA common stock shall not be entitled to vote. The holders of record of Class A Common Stock exclusively shall be entitled to elect all directors of the Company.

The Company shall not declare, pay or set aside any dividends on shares of any other class or series of capital stock of the Company unless (in addition to the obtaining of any consents required elsewhere in the Company's Charter) the holders of the Preferred Stock then outstanding shall first receive, or simultaneously receive, a dividend on each outstanding share of Preferred Stock as defined in the Company's Charter.

Additionally, each share of Class B Common Stock, Class C Common Stock or Class AAA Common Stock will automatically convert into shares of Class A Common Stock (i) immediately prior to the closing of a firm commitment underwritten public offering, registered under the Securities Act of 1933, as amended (the "Securities Act") or (ii) upon election from the Company's board of directors.

9. INCOME TAXES

Prior to February 25, 2021 (see Note 1), the Company was a limited liability company. Accordingly, taxable income and losses flowed to the members and the Company had no tax effects.

Deferred taxes are recognized for temporary differences between the basis of assets and liabilities for financial statements and income tax purposes. The differences relate primarily to net operating loss carryforwards and cash to accrual differences. As of December 31, 2022 and 2021, the Company had net deferred tax assets before valuation allowance of $1,103,327 and $695,504, respectively. The following table presents the deferred tax assets and liabilities by source:

	December 31,	
	2022	2021
Deferred tax assets:		
Net operating loss carryforwards	$ 879,210	$ 240,704
Cash to accrual differences	224,117	454,801
Valuation allowance	(1,103,327)	(695,505)
Net deferred tax assets	$ -	$ -

The Company recognizes deferred tax assets to the extent that it believes that these assets are more likely than not to be realized. In making such a determination, the Company considers all available positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, tax-planning strategies, and results of recent operations. The Company assessed the need for a valuation allowance against its net deferred tax assets and determined a full valuation allowance is required due to cumulative losses through December 31, 2022, and no history of generating taxable income. Therefore, valuation allowances of $1,103,327 and $695,505 were recorded as of December 31, 2022 and 2021, respectively. Valuation allowance increased by $407,823 and $695,504 during the years ended December 31, 2022 and 2021, respectively. Deferred tax assets were calculated using the Company's combined effective tax rate, which it estimated to be 28.0%. The effective rate is reduced to 0% for 2022 and 2021 due to the full valuation allowance on its net deferred tax assets.

The Company's ability to utilize net operating loss carryforwards will depend on its ability to generate adequate future taxable income. At December 31, 2022 and 2021, the Company had net operating loss carryforwards available to offset future taxable income in the amounts of $3,141,878 and $860,160, respectively. Pursuant to change in control rules associated with the merger, the Company may be at risk of losing the ability to utilize pre-merger net operating loss carryforwards.

The Company has evaluated its income tax positions and has determined that it does not have any uncertain tax positions. The Company will recognize interest and penalties related to any uncertain tax positions through its income tax expense.

The Company may in the future become subject to federal, state and local income taxation though it has not been since its inception, other than minimum state tax. The Company is not presently subject to any income tax audit in any taxing jurisdiction, though its 2021-2022 tax years remain open to examination.

10. COMMITMENTS AND CONTINGENCIES

Contingencies

The Company may be subject to pending legal proceedings and regulatory actions in the ordinary course of business. The results of such proceedings cannot be predicted with certainty, but the Company does not anticipate that the final outcome, if any, arising out of any such matters will have a material adverse effect on its business, financial condition or results of operations.

11. SUBSEQUENT EVENTS

On February 28, 2023, the Board of Directors approved a 162-for-1 forward stock split of its issued and outstanding shares of common and preferred stock. Accordingly, all share and per share amounts for all periods presented in the accompanying consolidated financial statements and notes thereto have been adjusted retroactively, where applicable, to reflect this forward stock split.

In connection with its expected network launch of the $CRNC token in the fourth quarter of 2023, the Company, through its affiliate, Current (Gibraltar) Limited, will facilitate the creation of a foundation that will be responsible for the governance of the token and the Project. 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America ("GAAP"). The Company's fiscal year is December 31.

The consolidated financial statements have been presented to reflect the capital structure per the Reorganization on a retroactive basis.

Principles of Consolidation

These consolidated financial statements include the accounts of Mode Mobile and its subsidiaries Mode Mobile, LLC, Mode Phone, LLC and CGL. All intercompany transactions and balances have been eliminated in consolidation.

The Company evaluates its relationships with other entities to identify whether they are variable interest entities ("VIE") as defined by Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 810, Consolidation ("ASC 810"), and to assess whether it is the primary beneficiary of such entities. If the determination is made that the Company is the primary beneficiary, then that entity is consolidated.

Reverse Stock Split

On February 28, 2023, the Board of Directors approved a 162-for-1 forward stock split of its issued and outstanding shares of common and preferred stock. Accordingly, all share and per share amounts for all periods presented in the accompanying consolidated financial statements and notes thereto have been adjusted retroactively, where applicable, to reflect this forward stock split.

Use of Estimates

The preparation of the Company's consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant estimates and assumptions reflected in these consolidated financial statements include, but are not limited to, the valuations of common stock, amortization of performance obligation liabilities and valuation of cryptocurrency assets. The Company bases its estimates on historical experience, known trends and other market-specific or other relevant factors that it believes to be reasonable under the circumstances. On an ongoing basis, management evaluates its estimates when there are changes in circumstances, facts and experience. Changes in estimates are recorded in the period in which they become known. Actual results could differ from those estimates.

Concentrations of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in financial institutions, which, at times, may exceed the Federal Depository Insurance Coverage of $250,000. As of June 30, 2023 and December 31, 2022, the Company had not experienced losses on these accounts and held uninsured deposit amounts of $1,267,084 and $2,538,854 respectively.

Cash and Cash Equivalents

The Company considers all highly liquid investments with maturities of three months or less at the date of purchase to be cash equivalents.

Fair Value Measurements

Certain assets and liabilities of the Company are carried at fair value under GAAP. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. Financial assets and liabilities carried at fair value are to be classified and disclosed in one of the following three levels of the fair value hierarchy, of which the first two are considered observable and the last is considered unobservable:

- Level 1—Quoted prices in active markets for identical assets or liabilities.

- Level 2—Observable inputs (other than Level 1 quoted prices), such as quoted prices in active markets for similar assets or liabilities, quoted prices in markets that are not active for identical or similar assets or liabilities, or other inputs that are observable or can be corroborated by observable market data.

- Level 3—Unobservable inputs that are supported by little or no market activity that are significant to determining the fair value of the assets or liabilities, including pricing models, discounted cash flow methodologies and similar techniques.

The carrying values of the Company's assets and liabilities approximate their fair values.

Accounts Receivable

The Company's account receivables are due from customers primarily due to the Company's marketing revenue. The Company also maintains allowances for doubtful accounts for estimated losses resulting from the inability of the Company's customers to make payments. The Company periodically reviews these estimated allowances, including an analysis of the customers' payment history and creditworthiness, the age of the trade receivable balances and current economic conditions that may affect a customer's ability to make payments as well as historical collection trends for its customers as a whole. Based on this review, the Company specifically reserves for those accounts deemed uncollectible or likely to become uncollectible. When receivables are determined to be uncollectible, principal amounts of such receivables outstanding are deducted from the allowance. As of June 30, 2023 and December 31, 2022, there was a $555,000 allowance for doubtful accounts related to the Voyager Digital bankruptcy.

Inventory

The Company's inventory consists of finished goods pertaining to the Company's hardware phones. The inventory is valued at the lower of cost (weighted-average) or estimated net realizable value. As of June 30, 2023 and December 31 2022, the Company had deposits for future inventory of $0 and $387,620 respectively, which was included in prepaid expenses and other current assets on the consolidated balance sheets. Inventory balances are evaluated for excess quantities and obsolescence on a regular basis by analyzing estimated demand, inventory on hand, sales levels and other information and reduce inventory balances to net realizable value for excess and obsolete inventory based on this analysis. At the point of the write-down recognition, a new, lower cost basis for that inventory is established, and subsequent changes in facts and circumstances do not result in the restoration or increase in that newly established cost basis. Management believes there was no impairment of inventory as of both June 30, 2023 and December 31,2022.

Property and Equipment, Net

Property and equipment are stated at cost less accumulated depreciation and amortization. Property and equipment consists of computer equipment, furniture and fixtures and office equipment, and depreciation expense is recognized using the straight-line method over the estimated useful life of five years for computer equipment, seven years for furniture and fixtures, and five to fifteen years for office equipment.

The following is a summary of property and equipment:

	June 30, 2023	December 31, 2022
Computer equipment	$ 54,520	$ 51,460
Furniture and fixtures	6,137	6,137
Office equipment	57,562	57,562
Total	118,219	115,159
Less: Accumulated depreciation	(92,723)	(86,420)
Property and equipment, net	$ 25,496	$ 28,739

Depreciation expense was $6,303 and $5,529 for the six months ended June 30, 2023 and 2022 respectively.

Impairment of Long-Lived Assets

The Company evaluates the recoverability of the carrying value of long-lived assets held and used in its operations for impairment on at least an annual basis or whenever events or changes in circumstances indicate that their carrying value may not be recoverable. When such factors and circumstances exist, the Company compares the projected undiscounted future net cash flows associated with the related asset or group of assets over their estimated useful lives against their respective carrying amount. These projected future cash flows may vary significantly over time as a result of increased competition, changes in technology, fluctuations in demand, consolidation of its customers and reductions in average sales prices. If the carrying value is determined not to be recoverable from future operating cash flows, the asset is deemed impaired, and an impairment loss is recognized to the extent the carrying value exceeds the estimated fair value of the asset. The fair value of the asset or asset group is based on market value when available, or when unavailable, on discounted expected cash flows. Management believes there was no impairment of long-lived assets as of both June 30, 2023 and December 31, 2022.

Intangible Assets

Intangible assets are amortized over the respective estimated lives, unless the lives are determined to be indefinite and reviewed for impairment whenever events or other changes in circumstances indicate that the carrying amount may not be recoverable. Impairment testing compares carrying values to fair values and, when appropriate, the carrying value of these assets is reduced to fair value. Impairment charges, if any, are recorded in the period in which the impairment is determined.

Intellectual Property

Intangible assets, with a cost of $227,807, consist of mobile charge screens and monetization software, pursuant to an asset acquisition. The assets are amortized over a useful life of three years. During the six months ended June 30, 2023 and 2022, amortization expense was $37,968 and $37,968, respectively. As of June 30, 2023 intangible assets, net of accumulated amortization of $227,807, was $0.

Digital Assets – Cryptocurrencies and Nonfungible Tokens

The Company initially records cryptocurrency and nonfungible tokens (“NFTs”) when received at cost, and subsequently adjusts each reporting period to the lower of cost or fair value. The Company recognizes an impairment charge on these assets arising from decreases in market value based upon Level 2 inputs, being actively traded exchange’s closing prices at each reporting date, whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Such impairment in the value of cryptocurrencies and NFTs are recorded in the consolidated statements of operations.

During the six months ended June 30, 2023 and 2022, the Company recorded $119,139 and $0, respectively on impairment related to its NFTs.

The Company realizes gains and losses upon sale or transfer of cryptocurrencies and NFTs, and are recorded under other income (expense) in the consolidated statements of operations. The Company uses cryptocurrencies to convert cryptocurrency holdings to other cryptocurrencies and US dollars as needed to fund operations. The gains and losses recognized from non-cash transactions are reflected as adjustments to reconcile to operating cash flows in the consolidated statements of cash flows.

Software Development Costs

The Company expenses software development costs as incurred. Such software development costs have been reflected as a reduction to the SAFT performance obligation.

Revenue Recognition

The Company adopted ASU 2014-09, *Revenue from Contracts with Customers*, and its related amendments (collectively known as "ASC 606"), effective January 1, 2019 using the modified retrospective transition approach applied to all contracts. Therefore, the reported results for the six month ended June 30, 2023 and December 31, 2022 reflect the application of ASC 606. Management determined that there were no retroactive adjustments necessary to revenue recognition upon the adoption of the ASU 2014-09. The Company determines revenue recognition through the following steps:

- Identification of a contract with a customer;
- Identification of the performance obligations in the contract;
- Determination of the transaction price;
- Allocation of the transaction price to the performance obligations in the contract; and
- Recognition of revenue when or as the performance obligations are satisfied.

Revenue is recognized when control of the promised goods or services is transferred to customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods or services. As a practical expedient, the Company does not adjust the transaction price for the effects of a significant financing component if, at contract inception, the period between customer payment and the transfer of goods or services is expected to be one year or less.

The Company's Mode Earn App enables users the ability to earn rewards on a single platform for interacting with digital content on their smartphones. Mode Mobile drives user engagement and monetizes user activity primarily through digital marketing revenue from advertising partners (including ad networks, ad exchanges, and brand partners). The Company satisfies performance obligations and recognizes revenue over time.

The Company also generates revenue from proof-of-concept phone hardware sales. Control transfers at a point in time, and as such, revenue is recognized upon shipment. This includes the transfer of legal title, physical possession, the risks and rewards of ownership, and customer acceptance. For proof-of-concept subscriptions, control transfers over time, and as such, revenue is recognized on a straight-line basis.

Revenue by source consisted of the following for the six months ended June 30, 2023 and 2022:

	Six Months Ended June 30,	
	2023	2022
Advertising	$ 3,435,152	$ 18,241,599
Other	263,945	371,508
Net revenues	$ 3,699,098	$ 18,613,106

Contract Balances

The Company invoices customers based upon contractual billing schedules, and accounts receivable are recorded when the right to consideration becomes unconditional. Contract liabilities represent prepayments received in advance of performance obligations met.

As of June 30, 2023 and December 31, 2022, the Company has deferred revenue of $0 and $0.

Cost of Net Revenues

Cost of net revenues consists primarily of user redemptions on the Mode Earn App. The Company shares a portion of generated revenue with users and also facilitates earnings and savings for users directly from advertising brands. Monthly user redemption costs represent the dollar value of rewards redeemed by users that are paid out by the Company. Cost of net revenues also includes hosting costs, as well as the product and related fulfillment costs of hardware products sold.

Cost of net revenue by source consisted of the following for the six months ended June 30, 2023 and 2022:

	Six Months Ended June 30,	
	2023	2022
Advertising	$ 1,233,767	$ 7,536,522
Other	200,476	338,049
Cost of net revenues	$ 1,434,243	$ 7,874,571

Advertising and Promotion

Advertising and promotional costs are expensed as incurred. Advertising costs were approximately $820,935 and $7,925,705 for the years ended June 30,2 023 and 2022, respectively, and are included in sales and marketing expenses in the consolidated statements of operations.

Research and Development Costs

Costs incurred in the research and development of the Company's technology and products are expensed as incurred.

General and Administrative Expenses

General and administrative expenses consist primarily of payroll and payroll-related benefits and taxes, professional services, administrative expenditures, and information technology.

Accounting for Preferred Stock

ASC 480, *Distinguishing Liabilities from Equity*, includes standards for how an issuer of equity (including equity shares issued by consolidated entities) classifies and measures on its consolidated balance sheet certain financial instruments with characteristics of both liabilities and equity.

Management is required to determine the presentation for the preferred stock as a result of the redemption and conversion provisions, among other provisions in the agreement. Specifically, management is required to determine whether the embedded conversion feature in the preferred stock is clearly and closely related to the host instrument, and whether the bifurcation of the conversion feature is required and whether the conversion feature should be accounted for as a derivative instrument. If the host instrument and conversion feature are determined to be clearly and closely related (both more akin to equity), derivative liability accounting under ASC 815, *Derivatives and Hedging*, is not required. Management determined that the host contract of the preferred stock is more akin to equity, and accordingly, liability accounting is not required by the Company. The Company has presented preferred stock within stockholders' equity.

Costs incurred directly for the issuance of the preferred stock are recorded as a reduction of gross proceeds received by the Company, resulting in a discount to the preferred stock. The discount is not amortized.

Stock-Based Compensation

The Company measures all stock-based awards granted to employees and directors based on the fair value on the date of the grant and recognizes compensation expense for those awards over the requisite service period, which is generally the vesting period of the respective award. The Company issues stock-based awards with only service-based vesting conditions and records the expense for these awards using the straight-line method. For awards with performance-based vesting conditions, the Company records the expense if and when the Company concludes that it is probable that the performance condition will be achieved.

The Company classifies stock-based compensation expense in its statement of operations in the same manner in which the award recipient’s payroll costs are classified or in which the award recipient’s service payments are classified.

The fair value of each stock option grant is estimated on the date of grant using the Black-Scholes option-pricing model. The Company historically has been a private company and lacks company-specific historical and implied volatility information for its stock. Therefore, it estimates its expected stock price volatility based on the historical volatility of publicly traded peer companies and expects to continue to do so until such time as it has adequate historical data regarding the volatility of its own traded stock price. The expected term of the Company’s stock options has been determined utilizing the “simplified” method for awards that qualify as “plain-vanilla” options. The risk-free interest rate is determined by reference to the U.S. Treasury yield curve in effect at the time of grant of the award for time periods approximately equal to the expected term of the award. Expected dividend yield is based on the fact that the Company has never paid cash dividends on common stock and does not expect to pay any cash dividends in the foreseeable future. The Company recognizes forfeitures as they occur as there is insufficient historical data to accurately determine future forfeitures rates. Determining the appropriate fair value of stock-based awards requires the input of subjective assumptions. The assumptions used in calculating the fair value of stock-based awards represent management’s best estimates and involve inherent uncertainties and the application of management’s judgment. As a result, if factors change and management uses different assumptions, stock-based compensation expense could be materially different for future awards.

The Company records an expense for stock issued for services as an expense based on the number of shares issued and fair value of the underlying stock issued to the recipient.

Deferred Offering Costs

The Company complies with the requirements of FASB ASC 340-10-S99-1 with regards to offering costs. Prior to the completion of an offering, offering costs are capitalized. The deferred offering costs are charged to additional paid-in capital or as a discount to debt, as applicable, upon the completion of an offering or to expense if the offering is not completed.

As of June 30, 2023 and December 31, 2022, the Company had capitalized $340,704 and $214,506 in deferred offering costs, respectively.

Leases

On January 1, 2022, the Company adopted ASC 842, Leases, as amended, which supersedes the lease accounting guidance under Topic 840, and generally requires lessees to recognize operating and finance lease liabilities and corresponding right-of-use (ROU) assets on the balance sheet and to provide enhanced disclosures surrounding the amount, timing and uncertainty of cash flows arising from lease arrangements. The Company adopted the new guidance using a modified retrospective method. Under this method, the Company elected to apply the new accounting standard only to the most recent period presented, recognizing the cumulative effect of the accounting change, if any, as an adjustment to the beginning balance of retained earnings. Accordingly, prior periods have not been recast to reflect the new accounting standard. The cumulative effect of applying the provisions of ASC 842 had no material impact on accumulated deficit.

The Company elected transitional practical expedients for existing leases which eliminated the requirements to reassess existing lease classification, initial direct costs, and whether contracts contain leases. Also, the Company elected to present the payments associated with short-term leases as an expense in statements of operations. Short-term leases are leases with a lease term of 12 months or less. The adoption of ASC 842 had no impact on the Company's balance sheet as of June30,2023.

Net Loss per Share

Net earnings or loss per share is computed by dividing net income or loss by the weighted-average number of common shares outstanding during the period, excluding shares subject to redemption or forfeiture. The Company presents basic and diluted net earnings or loss per share. Diluted net earnings or loss per share reflect the actual weighted average of common shares issued and outstanding during the period, adjusted for potentially dilutive securities outstanding. Potentially dilutive securities are excluded from the computation of the diluted net loss per share if their inclusion would be anti-dilutive. As all potentially dilutive securities are anti-dilutive as of June 30,2023, diluted net loss per share is the same as basic net loss per share. Potentially dilutive items included the following:

	June 30,	
	2023	2022
Series Seed convertible preferred stock	353,712,906	353,712,906
Stock options	203,649,829	221,424,516
Total potentially dilutive shares	557,362,735	575,137,422

Recently Adopted Accounting Pronouncements

Management does not believe that any other recently issued, but not yet effective, accounting standards could have a material effect on the accompanying consolidated financial statements. As new accounting pronouncements are issued, the Company will adopt those that are applicable under the circumstances.

3. GOING CONCERN

The Company has evaluated whether there are certain conditions and events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the consolidated financial statements are issued.

The accompanying consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has net cash used in operating activities of $1,853,871 for the six months ended June 30, 2023. As of June 30, 2023,

the Company had an accumulated deficit of $3,090,881. These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern for the next twelve months is dependent upon its ability to generate sufficient cash flows from operations to meet its obligations, which it has not been able to accomplish to date, and/or to obtain additional capital financing. No assurance can be given that the Company will be successful in these efforts. The consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities.

4. CRYPTOCURRENCIES AND NFTs

Due to the lack of authoritative guidance under GAAP, the Company accounts for its holdings in cryptocurrency as intangible assets. As a result, the Company initially measures the cryptocurrency at cost. Since there is no limit on the useful life of the cryptocurrencies, they are classified as indefinite-lived intangible assets.

Indefinite-lived intangible assets are not subject to amortization, but rather are tested for impairment on an annual basis and more frequently if events or circumstances change that indicate that it is more likely than not that the asset is impaired. As a result, the Company recognizes decreases in the value of its holdings in cryptocurrency. Both Bitcoin and Ether are traded on exchanges in which there are observable prices in an active market. The Company considers quoted prices below its carrying cost to be an impairment indicator. The quoted price and observable prices are determined by the Company using a principal market analysis in accordance with ASC 820, *Fair Value Measurement*.

The Company considers each cryptocurrency as a separate unit of account when evaluating cryptocurrencies for impairment. The Company tracks the weighted average unit cost of each cryptocurrency received or purchased, when performing impairment testing and upon disposition either through sale or exchanged for goods or services.

The Company designates certain cryptocurrency transactions as fair value hedges to hedge volatility and market value risks for our cryptocurrencies. Fair value hedge amounts included in the assessment of hedge effectiveness are recognized in other income (expense), net, along with the offsetting gains and losses of the related hedged items.

Cryptocurrencies

Realized gains on cryptocurrency holdings were $623,344 and $6,908,083 for the six months ended June 30, 2023 and 2022, respectively. The Company recorded no impairment charges against its cryptocurrency holdings in 2023 or 2022.

The indefinite lived intangible activity for the six months ended June 30, 2023 are as follows:

	Cryptocurrency assets
Balance at December 31, 2022	$ 108,583
Sales of cryptocurrency	(706,250)
Realized gains on cryptocurrency sales	623,344
Balance at June 30, 2023	25,677

Nonfungible Token Assets

The Company owns a portfolio of NFT assets that were first acquired in early 2022. The following is a summary of NFT activity for 2023:

	Nonfungible token assets
Balance at December 31, 2022	170,199

5. SAFT PERFORMANCE OBLIGATION LIABILITY

In 2018, the Company (via Nativ Mobile, LLC) conducted and completed a token offering pursuant to a side-by-side, U.S. Securities Act Regulation D and Regulation S offering where it offered $CRNC tokens to investors in consideration for their investments. Due to a disclosed delay in delivering tokens to investors, the investments were executed pursuant to "Simple Agreement(s) for Future Tokens" ("SAFTs"), which, among other things, contemplated the Company delivering $CRNC tokens to investors in advance of a network launch. The proceeds of this offering were contemplated to be used for the further buildout of the $CRNC Network, which was designed to serve as a robust earnings ecosystem for network participants (the "Project"). $CRNC tokens were designed to serve as the in-network currency for the $CRNC earnings ecosystem.

The initial SAFT proceeds of $26 million for developing the Project was recorded as a performance obligation liability, net of costs incurred in satisfying the performance obligations created in the token offering. The SAFTs do not provide the holder with a security interest in the issuing entity, Current (Gibraltar) Limited, or establish an economic or ownership right to the performance of specific assets, nor is there a form of partnership, joint venture, agency or any similar relationship between a token holder and the Company and/or other individuals or entities involved with the Project. The tokens do not pay interest and have no maturity date. The tokens confer only the right to services in the Project and confer no other rights of any form with respect to us including, but not limited to, any voting, distribution, redemption, liquidation, proprietary (including all forms of intellectual property), or other financial or legal rights.

The Company evaluated the terms of the Company's $CRNC tokens and determined that, when sold, these tokens represent an obligation by the Company with counterparties that were determined to not be customers. Therefore, the Company determined that the tokens, when sold, are similar by analogy to debt securities under ASC 320, *Investments – Debt and Equity Securities ("ASC 320").* ASC 320 applies to all debt securities and defines a debt security as any security representing a creditor relationship. Based on its terms, the SAFT tokens are not debt securities in legal form, but are considered an obligation (as defined by FASB Concepts Statement No. 6, *Elements of Financial Statements)* of the Company as issuer, since the Company represented that the proceeds raised would be used to fund future development of the Project. Therefore, the Company considers the $CRNC token, when sold, as an obligation in accordance with ASC 320, which effectively creates a creditor relationship to holders of its tokens.

The Company has considered the costs to satisfy its performance obligations and determined that the Project represents a "funded software arrangement", and the parties who purchased tokens contributed towards the funding of the Project represent collaborators and not customers. Therefore, software development costs related to the Project were applied against the performance obligation.

The SAFT performance obligation liability was $0 as of both June 30, 2023 and December 31, 2022.

During the six months ended June 30, 2023 and 2022, payments made on software development for performance obligations totaled $0 and $0, respectively, which were credited to operating expenses in the consolidated statements of operations.

On account of the delay in the launch of the Project by introducing $CRNC tokens into the Project ecosystem, the Company elected to pay investors a royalty based on the Company's financial performance in 2021. Based on what each individual investor elected to receive, the consideration paid to investors on account of the royalty were either additional $CRNC tokens or shares in the Company. The value of the royalty was $1,900,000 and the number of $CRNC tokens or Company shares an investor would receive was based on the original investment amount paid at the time of the execution of the SAFTs. Approximately 86% of investors elected to receive additional $CRNC tokens and 14% of investors elected to receive Company shares. Accordingly, the Company has recognized a royalty liability of $1,900,000 as of December 31, 2022. The liability will be released based on the ultimate distribution means, increasing the performance obligation for token issuances and recording paid-in capital for share issuances, when distribution occurs in 2023. In the six months ended June 30, 2023, a total of $270,489 of the royalty was released in exchange of the issuance of 10,359,141 of the Company's shares of Class C common stock. As of June 30, 2023, the remaining balance of the royalty liability was $1,629,511.

In connection with its expected network launch of the $CRNC token in the fourth quarter of 2023, the Company, through its affiliate, Current (Gibraltar) Limited, will facilitate the creation of a foundation that will be responsible for the governance of the token and the Project. As part of the creation of the foundation, all $CRNC treasury tokens shall be transferred to the foundation and all obligations due from the Company to token holders on account of their respective investments due from the Company shall cease. By virtue of the creation of the foundation, control over the governance of the $CRNC token shall transfer from the Company to token holders.

6. STOCKHOLDERS' EQUITY

Convertible Preferred Stock

The Company has issued Series Seed convertible preferred stock. The Company's certificate of incorporation, as amended and restated, authorized the Company to issue a total of 388,800,000 shares of Preferred Stock, of which all are designated as Series Seed Preferred Stock. The Preferred Stock have a par value of $0.0001 per share.

The holders of the Preferred Stock have the following rights and preferences:

Voting

On any matter presented to the stockholders of the Company for their action or consideration at any meeting of stockholders of the Company (or by written consent of stockholders in lieu of a meeting), each holder of outstanding shares of Preferred Stock shall be entitled to cast the number of votes equal to the number of whole shares of Common Stock into which the shares of Preferred Stock held by such holder are convertible as of the record date for determining stockholders entitled to vote on such matter. Except as provided by law or by the other provisions of the Company's Charter, holders of Preferred Stock shall vote together with the holders of Common Stock as a single class and on an as converted to Common Stock basis.

The Company shall not, either directly or indirectly by amendment, merger, consolidation or otherwise, do any of the following without the written consent or affirmative vote of at least a majority of the outstanding shares of Preferred Stock, voting together as a single class on an as-converted to Common Stock basis:

- purchase or pay or declare any dividend on any capital stock other than (i) dividends payable on the Common Stock solely in the form of additional shares of Common Stock, (ii) redemptions of dividends or distributions on the Series Seed Preferred stock and (iii) stock repurchased from former employees, officers, directors or others who performed services for the Company
- create or hold capital stock in any subsidiary that is not a wholly-owned subsidiary

At any time when at least 70,596,360 shares of Series Seed Preferred Stock remain outstanding, the Company shall not, either directly or indirectly by amendment, merger, consolidation or otherwise, without the written consent or affirmative vote of at least a majority of the outstanding shares of Preferred Stock, voting together as a single class on an as-converted to Common Stock basis, amend, alter or repeal any provision of the Company's Charter or Bylaws of the Company in a manner that substantially and disproportionally adversely affects the powers, preferences or rights of the Series Seed Preferred Stock.

Dividends

The Company shall not declare, pay or set aside any dividends on shares of any other class or series of capital stock of the Company unless (in addition to the obtaining of any consents required elsewhere in the Company's Charter) the holders of the Preferred Stock then outstanding shall first receive, or simultaneously receive, a dividend on each outstanding share of Preferred Stock as defined in the Company's Charter. The Preferred Stock dividend rates contain certain dilution protections.

Liquidation

In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company, the holders of shares of each series of Preferred Stock then outstanding shall be entitled to be paid out of the assets of the Company available for distribution to its stockholders and, in the event of a deemed liquidation event, the holders of shares of each series of Preferred Stock then outstanding shall be entitled to be paid out of the consideration payable to stockholders in such deemed liquidation event or out of the available proceeds, as applicable, on a pari passu basis among each other, the greater of (i) an amount per share equal to one times the applicable Original Issue Price (as defined below), plus any dividends declared but unpaid thereon, payable before any payment shall be made to the holders of Common Stock by reason of their ownership thereof (the amounts payable pursuant to this clause (i) are hereinafter referred to as the "Preferred Liquidation Amounts"), or (ii) such amount per share as would have been payable had all shares of such series of Preferred Stock (and all shares of all other series of Preferred Stock that would receive a larger distribution per share if such series of Preferred Stock and all such other series of Preferred Stock were converted into Common Stock) been converted into Common Stock immediately prior to such liquidation, dissolution, winding up or deemed liquidation event. If, upon any such liquidation, dissolution or winding up of the Company or deemed liquidation event, the assets of the Company available for distribution to its stockholders shall be insufficient to pay the holders of shares of Preferred Stock the full amount to which they shall be entitled, the holders of shares of Preferred Stock shall share ratably in any distribution of the assets available for distribution in proportion to the respective amounts which would otherwise be payable in respect of the shares held by them upon such distribution if all amounts payable on or with respect to such shares were paid in full.

The Series Seed Original Issue Price is $0.01345679 per share, subject to appropriate adjustment in the event of any stock dividend, stock split, combination or other similar recapitalization with respect to the Series Seed Preferred Stock. After payment of the Preferred Liquidation Amounts, remaining assets are distributed ratably to holders of Common Stock.

The liquidation preference as of both June 30, 2023 and December 31, 2022 was $4,759,840.

Anti-Dilution Rights

Holders of Series Seed Preferred Stock have the benefit of anti-dilution protective provisions that will be applied to adjust the number of shares of Common Stock issuable upon conversion of the shares of the Preferred Stock. If equity securities are subsequently issued by the Company at a price per share less than the conversion price of a series of Preferred Stock then in effect, the conversion price of the affected series of Preferred Stock will be adjusted using a broad-based, weighted-average adjustment formula as set out in the Company's Charter. Preferred Stock has certain protections against additional issuances of Common Stock.

Conversion

Each share of Series Seed Preferred Stock shall be convertible, at the option of the holder thereof, at any time and from time to time, and without the payment of additional consideration by the holder thereof, into such number of fully paid and non-assessable shares of Class A Common Stock as is determined by dividing the applicable original issue price by the applicable conversion price in effect at the time of conversion. The Series Seed conversion price is $0.01345679 per share.

Additionally, each share of Series Seed Preferred Stock will automatically convert into shares of Class A Common Stock (i) immediately prior to the closing at a price of at least 3 times the Series Seed Original Issue Price of a firm commitment underwritten public offering, registered under the Securities Act of 1933, as amended (the "Securities Act") or (ii) a vote or written consent of a majority of the outstanding shares of Preferred Stock, voting together as a single class on an as-converted to Common Stock basis, and a vote of the key holders of common stock, as defined in the Company's Amended Articles of Incorporation.

The holders of the Class A common stock are entitled to one vote for each share of such stock held at all meetings of stockholders. There shall be no cumulative voting, and the holders of shares of Class B, Class C and Class AAA common stock shall not be entitled to vote. The holders of record of Class A Common Stock exclusively shall be entitled to elect all directors of the Company.

The Company shall not declare, pay or set aside any dividends on shares of any other class or series of capital stock of the Company unless (in addition to the obtaining of any consents required elsewhere in the Company's Charter) the holders of the Preferred Stock then outstanding shall first receive, or simultaneously receive, a dividend on each outstanding share of Preferred Stock as defined in the Company's Charter.

Additionally, each share of Class B Common Stock, Class C Common Stock or Class AAA Common Stock will automatically convert into shares of Class A Common Stock (i) immediately prior to the closing of a firm commitment underwritten public offering, registered under the Securities Act of 1933, as amended (the "Securities Act") or (ii) upon election from the Company's board of directors..

THIRD: The nature of the business or purposes to be conducted or promoted is to engage in any lawful act or activity for which corporations may be organized under the General Corporation Law.

FOURTH: The total number of shares of all classes of stock which the Corporation shall have authority to issue is (i) 2,955,150,000 shares of Common Stock, $0.0001 par value per share ("**Common Stock**") consisting of 2,100,000,000 shares of Class A Common Stock ("**Class A Common Stock**"), 243,000,000 shares of Class B Common Stock ("**Class B Common Stock**"), 12,150,000 shares of Class C Common Stock ("**Class C Common Stock**"), and 600,000,000 shares of Class AAA Common Stock ("**Class AAA Common Stock**"), and (ii) 388,800,000 shares of Preferred Stock, $0.0001 par value per share ("**Preferred Stock**").

The following is a statement of the designations and the powers, privileges and rights, and the qualifications, limitations or restrictions thereof in respect of each class of capital stock of the Corporation.

A. COMMON STOCK

1. General. The voting, dividend and liquidation rights of the holders of the Common Stock are subject to and qualified by the rights, powers and preferences of the holders of the Preferred Stock set forth herein. Except for the differences in voting rights set forth in Part A, Section 2 below and the conversion of the Class B Common Stock, Class C Common Stock and Class AAA Common Stock set forth in Part B, Section 5 below, the shares of Class A Common Stock, Class B Common Stock, Class C Common Stock and Class AAA Common Stock shall be identical in all respects.

2. Voting. The holders of the Class A Common Stock are entitled to one vote for each share of such stock held at all meetings of stockholders (and written actions in lieu of meetings); provided, however, that, except as otherwise required by law, holders of Class A Common Stock, as such, shall not be entitled to vote on any amendment to the Certificate of Incorporation that relates solely to the terms of one or more outstanding series of Preferred Stock if the holders of such affected series are entitled, either separately or together with the holders of one or more other such series, to vote thereon pursuant to the Certificate of Incorporation. There shall be no cumulative voting, and, except as required by law, the holders of shares of Class B Common Stock, Class C Common Stock and Class AAA Common Stock shall not be entitled to vote with respect to shares of Class B Common Stock, Class C Common Stock and Class AAA Common Stock. The number of authorized shares of Common Stock and any class thereof may be increased or decreased (but not below the number of shares thereof then outstanding) by (in addition to any vote of the holders of one or more series of Preferred Stock that may be required by the express terms of the Certificate of Incorporation) the affirmative vote of the holders of shares of capital stock of the Corporation representing a majority of the votes represented by all outstanding shares of capital stock of the Corporation entitled to vote, irrespective of the provisions of Section 242(b)(2) of the General Corporation Law.

B. PREFERRED STOCK

388,800,000 shares of the authorized Preferred Stock of the Corporation are hereby designated "**Series Seed Preferred Stock**". The "**Original Issue Price**" or "**Series Seed Original Issue Price**" shall each mean $0.01345679 per share (subject to appropriate adjustment in the event of any stock dividend, stock split, combination or other similar recapitalization with respect

to the Series Seed Preferred Stock). Unless otherwise indicated, references to "Sections" in this Part B of this Article Fourth refer to sections of Part B of this Article Fourth.

1. Dividends.

The Corporation shall not declare, pay or set aside any dividends on shares of any other class or series of capital stock of the Corporation (other than dividends on shares of Common Stock payable in shares of Common Stock) unless (in addition to the obtaining of any consents required elsewhere in the Certificate of Incorporation) the holders of the Series Seed Preferred Stock then outstanding shall first receive, or simultaneously receive, a dividend on each outstanding share of Series Seed Preferred Stock in an amount at least equal to (i) in the case of a dividend on Common Stock or any class or series that is convertible into Common Stock, that dividend per share of Series Seed Preferred Stock as would equal the product of (A) the dividend payable on each share of such class or series determined, if applicable, as if all shares of such class or series had been converted into Common Stock and (B) the number of shares of Common Stock issuable upon conversion of a share of Series Seed Preferred Stock, in each case calculated on the record date for determination of holders entitled to receive such dividend or (ii) in the case of a dividend on any class or series that is not convertible into Common Stock, at a rate per share of Series Seed Preferred Stock determined by (A) dividing the amount of the dividend payable on each share of such class or series of capital stock by the original issuance price of such class or series of capital stock (subject to appropriate adjustment in the event of any stock dividend, stock split, combination or other similar recapitalization with respect to such class or series) and (B) multiplying such fraction by an amount equal to the Series Seed Original Issue Price.

2. Liquidation, Dissolution or Winding Up; Certain Mergers, Consolidations and Asset Sales.

2.1. Preferential Payments to Holders of Series Seed Preferred Stock. In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Corporation or Deemed Liquidation Event, the holders of shares of Series Seed Preferred Stock then outstanding shall be entitled to be paid out of the assets of the Corporation available for distribution to its stockholders before any payment shall be made to the holders of Common Stock by reason of their ownership thereof, an amount per share equal to the greater of (i) the Series Seed Original Issue Price, plus any dividends declared but unpaid thereon, or (ii) such amount per share as would have been payable had all shares of Series Seed Preferred Stock been converted into Common Stock pursuant to Section 4 immediately prior to such liquidation, dissolution, winding up or Deemed Liquidation Event (the amount payable pursuant to this sentence is hereinafter referred to as the "**Series Seed Liquidation Amount**"). If upon any such liquidation, dissolution or winding up of the Corporation or Deemed Liquidation Event, the assets of the Corporation available for distribution to its stockholders shall be insufficient to pay the holders of shares of Series Seed Preferred Stock the full amount to which they shall be entitled under this Section 2.1, the holders of shares of Series Seed Preferred Stock shall share ratably in any distribution of the assets available for distribution under this Section 2.1 in proportion to the respective amounts which would otherwise be payable in respect of the shares held by them upon such distribution if all amounts payable on or with respect to such shares were paid in full.

2.2. Distribution of Remaining Assets. In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Corporation or Deemed Liquidation Event, after the payment of all preferential amounts required to be paid to the holders of shares of Series Seed Preferred Stock pursuant to Section 2.1, the remaining assets of the Corporation available for distribution to its stockholders shall be distributed among the holders of shares of Common Stock, pro rata based on the number of shares held by each such holder. The aggregate amount which a holder of a share of Common Stock is entitled to receive in respect of such share under this Section 2.2 is hereinafter referred to as the "**Common Stock Liquidation Amount**." The term "**Liquidation Amount**" shall mean the Series Seed Liquidation Amount or Common Stock Liquidation Amount, as applicable.

2.3. Deemed Liquidation Events.

2.3.1. Definition. Each of the following events shall be considered a "**Deemed Liquidation Event**" unless the holders of a majority of the outstanding shares of Preferred Stock, voting together as a single class on an as-converted to the Common Stock basis, elect otherwise by written notice sent to the Corporation at least one (1) day prior to the effective date of any such event:

(a) a merger or consolidation in which

(i) the Corporation is a constituent party or

(ii) a subsidiary of the Corporation is a constituent party and the Corporation issues shares of its capital stock pursuant to such merger or consolidation,

except any such merger or consolidation involving the Corporation or a subsidiary in which the shares of capital stock of the Corporation outstanding immediately prior to such merger or consolidation continue to represent, or are converted into or exchanged for shares of capital stock that represent, immediately following such merger or consolidation, at least a majority, by voting power, of the capital stock of (1) the surviving or resulting corporation or (2) if the surviving or resulting corporation is a wholly owned subsidiary of another corporation immediately following such merger or consolidation, the parent corporation of such surviving or resulting corporation; or

(b) the sale, lease, transfer, exclusive license or other disposition, in a single transaction or series of related transactions, by the Corporation or any subsidiary of the Corporation of all or substantially all of the assets of the Corporation and its subsidiaries taken as a whole, or the sale or disposition (whether by merger or otherwise) of one or more subsidiaries of the Corporation if substantially all of the assets of the Corporation and its subsidiaries taken as a whole are held by such subsidiary or subsidiaries, except where such sale, lease, transfer, exclusive license or other disposition is to a wholly owned subsidiary of the Corporation.

2.3.2. Effecting a Deemed Liquidation Event.

(a) The Corporation shall not have the power to effect a Deemed Liquidation Event referred to in Section 2.3.1(a)(i) unless the agreement or plan of merger or consolidation for such transaction (the "**Merger Agreement**") provides that the consideration payable to the stockholders of the Corporation in such Deemed Liquidation Event shall be allocated among the holders of capital stock of the Corporation in accordance with Sections 2.1 and 2.2.

(b) In the event of a Deemed Liquidation Event referred to in Section 2.3.1(a)(ii) or 2.3.1(b), if the Corporation does not effect a dissolution of the Corporation under the General Corporation Law within 90 days after such Deemed Liquidation Event, then (i) the Corporation shall send a written notice to each holder of Preferred Stock no later than the 90th day after the Deemed Liquidation Event advising such holders of their right (and the requirements to be met to secure such right) pursuant to the terms of the following clause (ii) to require the redemption of such shares of Preferred Stock, and (ii) if the holders of at least a majority of the then outstanding shares of Preferred Stock, voting together as a single class on an as-converted to Common Stock basis, so request in a written instrument delivered to the Corporation not later than 120 days after such Deemed Liquidation Event, the Corporation shall use the consideration received by the Corporation for such Deemed Liquidation Event (net of any transaction expenses and retained liabilities associated with the assets sold or technology licensed, as determined in good faith by the Board of Directors of the Corporation), together with any other assets of the Corporation available for distribution to its stockholders, all to the extent permitted by Delaware law governing distributions to stockholders (the "**Available Proceeds**"), on the 150th day after such Deemed Liquidation Event (such day, the "**Redemption Date**"), to redeem all outstanding shares of Preferred Stock at a price per share equal to the applicable Liquidation Amount. Notwithstanding the foregoing, in the event of a redemption pursuant to the preceding sentence, if the Available Proceeds are not sufficient to redeem all outstanding shares of Preferred Stock, the Corporation shall redeem a portion of each holder's shares of Preferred Stock to the fullest extent of such Available Proceeds, based on Sections 2.1 and 2.2, and shall redeem the remaining shares to have been redeemed as soon as practicable after the Corporation has funds legally available therefor. In the event the holders of at least a majority of the then outstanding shares of Preferred Stock, voting together as a single class on an as-converted to the Common Stock basis, have so requested in writing in accordance with clause (ii) above, the Corporation shall send written notice of such redemption (the "**Redemption Notice**") to each holder of record of Preferred Stock not less than 10 days prior to the Redemption Date. The Redemption Notice shall state: (a) the Redemption Date; (b) the date upon which the holder's right to convert shares of Preferred Stock terminates (as determined in accordance with Section 4.1.2); and (c) that the holder is to surrender to the Corporation, in the manner and at the place designated, his, her or its certificate or certificates representing the shares of Preferred Stock held by him, her or it. On or before the Redemption Date, each holder of shares of Preferred Stock shall surrender the certificate or certificates

representing such shares (or, if such registered holder alleges that such certificate has been lost, stolen or destroyed, a lost certificate affidavit and agreement reasonably acceptable to the Corporation to indemnify the Corporation against any claim that may be made against the Corporation on account of the alleged loss, theft or destruction of such certificate) to the Corporation, in the manner and at the place designated in the Redemption Notice, and thereupon the applicable Liquidation Amount for such shares shall be payable to the order of the person whose name appears on such certificate or certificates as the owner thereof. If the Redemption Notice shall have been duly given, and if on the Redemption Date the applicable Liquidation Amount payable upon redemption of the shares of Preferred Stock is paid or tendered for payment or deposited with an independent payment agent so as to be available therefor in a timely manner, then notwithstanding that the certificates evidencing any of the shares of Preferred Stock so called for redemption shall not have been surrendered, all rights with respect to such shares of Preferred Stock shall forthwith after the Redemption Date terminate, except only the right of the holders to receive the applicable Liquidation Amount without interest upon surrender of their certificate or certificates therefor. Prior to the distribution or redemption provided for in this Section 2.3.2(b), the Corporation shall not expend or dissipate the consideration received for such Deemed Liquidation Event, except to discharge expenses incurred in connection with such Deemed Liquidation Event or in the ordinary course of business.

2.3.3. Amount Deemed Paid or Distributed. The amount deemed paid or distributed to the holders of capital stock of the Corporation upon any such merger, consolidation, sale, lease, transfer, exclusive license, other disposition or redemption shall be the cash or the value of the property, rights or securities paid or distributed to such holders by the Corporation or the acquiring person, firm or other entity. The value of such property, rights or securities shall be determined in good faith by the Board of Directors of the Corporation.

2.4. General. For purposes of determining the amount a holder of a share of Preferred Stock is entitled to receive with respect to a liquidation, dissolution, winding up or Deemed Liquidation Event, each other share of Preferred Stock shall be deemed to have converted (regardless of whether the holder of such other share actually converted) into a share of Common Stock immediately prior to the liquidation, dissolution, winding up or Deemed Liquidation Event, if, as a result of an actual conversion, the holder of such other share would receive, in the aggregate, an amount greater than the amount that would be distributed to such holder if such holder did not convert such other share of Preferred Stock into a share of Common Stock.

3. Voting.

3.1. General. On any matter presented to the stockholders of the Corporation for their action or consideration at any meeting of stockholders of the Corporation (or by written consent of stockholders in lieu of meeting), each holder of outstanding shares of Preferred Stock shall be entitled to cast the number of votes equal to the number of whole shares of Common Stock into which the shares of Preferred Stock held by such holder are convertible as

of the record date for determining stockholders entitled to vote on such matter. Except as provided by law or by the other provisions of the Certificate of Incorporation, holders of Preferred Stock shall vote together with the holders of Common Stock as a single class.

3.2. Election of Directors. The holders of record of Class A Common Stock, exclusively and as a separate class (and not including any shares of Class A Common Stock issued or issuable upon conversion of shares of Preferred Stock), shall be entitled to elect all directors of the Corporation. Any director elected as provided in the preceding sentence may be removed without cause by, and only by, the affirmative vote of the holders of such shares of Class A Common Stock, acting exclusively and as a separate class, given either at a special meeting of such stockholders duly called for that purpose or pursuant to a written consent of stockholders. If the holders of such shares of Class A Common Stock fail to elect a sufficient number of directors to fill all directorships for which they are entitled to elect directors, voting exclusively and as a separate class, pursuant to the first sentence of this Section 3.2, then any directorship not so filled shall remain vacant until such time as the holders of such shares of Class A Common Stock elect a person to fill such directorship by vote or written consent in lieu of a meeting; and no such directorship may be filled by stockholders of the Corporation other than by the holders of such shares of Class A Common Stock, voting exclusively and as a separate class. At any meeting held for the purpose of electing a director, the presence in person or by proxy of the holders of a majority of the outstanding such shares of Class A Common Stock shall constitute a quorum for the purpose of electing such director. Except as otherwise provided in this Section 3.2, a vacancy in any directorship shall be filled only by vote or written consent in lieu of a meeting of the holders of such shares of Class A Common Stock or by any remaining director or directors elected by the holders of such shares of Class A Common Stock pursuant to this Section 3.2.

3.3. Protective Provisions. The Corporation shall not, either directly or indirectly by amendment, merger, consolidation or otherwise, do any of the following without (in addition to any other vote required by law or the Certificate of Incorporation) the written consent or affirmative vote of the holders of at least a majority of the then outstanding shares of Preferred Stock and Class A Common Stock, voting together as a single class on an as-converted to Common Stock basis, given in writing or by vote at a meeting, consenting or voting (as the case may be) together as a class:

3.3.1. purchase or redeem or pay or declare any dividend or make any distribution on, on any capital stock, other than (i) dividends or other distributions payable on the Common Stock solely in the form of additional shares of Common Stock, (ii) redemptions of or dividends or distributions on the Series Seed Preferred Stock as expressly provided herein and (iii) stock repurchased from former employees, officers, directors, consultants or other persons who performed services for the Corporation or any subsidiary in connection with the cessation of their employment/services at the lower of the original purchase price or the then current fair market value thereof, unless otherwise approved by the Board of Directors;

3.3.2. create or hold capital stock in any subsidiary that is not a wholly-owned subsidiary (either directly or through one or more other subsidiaries); or

3.3.3. permit any subsidiary of the Corporation to do any of the foregoing.

3.4. Preferred Stock Protective Provisions. At any time when at least 70,596,360 shares of Preferred Stock are outstanding (subject to appropriate adjustment in the event of any stock dividend, stock split, combination or other similar recapitalization with respect to the Preferred Stock), the Corporation shall not, either directly or indirectly by amendment, merger, consolidation or otherwise, without (in addition to any other vote required by law or the Certificate of Incorporation) the written consent or affirmative vote of the holders of at least a majority of the then outstanding shares of Preferred Stock, voting together as a single class on an as-converted to Common Stock basis, given in writing or by vote at a meeting, consenting or voting (as the case may be) separately as a class, amend, alter or repeal any provision of the Certificate of Incorporation in a manner that substantially and disproportionately adversely affects the powers, preferences or special rights of the Preferred Stock (in addition to any other vote required by law or the Certificate of Incorporation) (it being understood that any increase in the authorized number of shares of Series Seed Preferred Stock, any authorization of any additional class or series of capital stock or any Deemed Liquidation Event shall not constitute such an adverse effect).

4. Optional Conversion.

The holders of Class A Common Stock, Class B Common Stock, and Preferred Stock shall have conversion rights as follows (the "**Conversion Rights**"):

4.1. Right to Convert.

4.1.1. Conversion Ratio. Each share of Preferred Stock shall be convertible, at the option of the holder thereof, at any time and from time to time, and without the payment of additional consideration by the holder thereof, into such number of fully paid and nonassessable shares of either (i) Class A Common Stock or (ii) only with the written consent of the Corporation, Class AAA Common Stock, in either case, as is determined by dividing the applicable Original Issue Price by the applicable Conversion Price (as defined below) in effect at the time of conversion. The "**Series Seed Conversion Price**" shall be equal to $0.01345679. The Series Seed Conversion Price shall be considered a **"Conversion Price**". Each such initial Conversion Price, and the rate at which shares of Preferred Stock may be converted into shares of Common Stock, shall be subject to adjustment as provided below. Each share of Class A Common Stock and Class B Common Stock shall be convertible, at the option of the holder thereof but only with the written consent of the Corporation, at any time and from time to time, and without the payment of additional consideration by the holder thereof, into one share of Class AAA Common Stock.

4.1.2. Termination of Conversion Rights. In the event of a liquidation, dissolution or winding up of the Corporation or a Deemed Liquidation Event, the Conversion Rights shall terminate at the close of business on the last full day preceding the date fixed for the payment of any such amounts distributable on such event to the holders of Preferred Stock.

4.2. Fractional Shares. No fractional shares of Class A Common Stock or Class AAA Common Stock shall be issued upon conversion of the Preferred Stock. In lieu of any fractional shares to which the holder would otherwise be entitled, the Corporation shall pay cash equal to such fraction multiplied by the fair market value of a share of Class A Common Stock or Class AAA Common Stock (as applicable) as determined in good faith by the Board of Directors of the Corporation. Whether or not fractional shares would be issuable upon such conversion shall be determined on the basis of the total number of shares of Preferred Stock the holder is at the time converting into Class A Common Stock or Class AAA Common Stock, as applicable, and the aggregate number of shares of Class A Common Stock Class or AAA Common Stock, as applicable, issuable upon such conversion.

4.3. Mechanics of Conversion.

4.3.1. Notice of Conversion. In order for a holder of Preferred Stock to voluntarily convert shares of Preferred Stock into shares of Class A Common Stock or Class AAA Common Stock (or a holder of Class A Common Stock or Class B Common Stock to voluntarily convert shares of Class A Common Stock or Class B Common Stock into shares of Class AAA Common Stock), such holder shall surrender the certificate or certificates for such shares of Preferred Stock, Class A Common Stock or Class B Common Stock (or, if such registered holder alleges that such certificate has been lost, stolen or destroyed, a lost certificate affidavit and agreement reasonably acceptable to the Corporation to indemnify the Corporation against any claim that may be made against the Corporation on account of the alleged loss, theft or destruction of such certificate), at the office of the transfer agent for the Preferred Stock, Class A Common Stock or Class B Common Stock (or at the principal office of the Corporation if the Corporation serves as its own transfer agent), together with written notice that such holder elects to convert all or any number of the shares of the Preferred Stock, Class A Common Stock or Class B Common Stock represented by such certificate or certificates and, if applicable, any event on which such conversion is contingent. Such notice shall state (A) such holder's name or the names of the nominees in which such holder wishes the certificate or certificates for shares of Class A Common Stock or Class AAA Common Stock to be issued and (B) if the shares to be converted are Preferred Stock, whether such shares will be converted into Class A Common Stock or Class AAA Common Stock. If required by the Corporation, certificates surrendered for conversion shall be endorsed or accompanied by a written instrument or instruments of transfer, in form satisfactory to the Corporation, duly executed by the registered holder or his, her or its attorney duly authorized in writing. The close of business on the date of receipt by the transfer agent (or by the Corporation if the Corporation serves as its own transfer agent) of such certificates (or lost certificate affidavit and agreement) and notice shall be the time of conversion (the "**Conversion Time**"), and the shares of Class A Common Stock or Class AAA Common Stock issuable upon conversion of the shares represented by such certificate shall be deemed to be outstanding of record as of such date. The Corporation shall, as soon as practicable after the Conversion Time, (i) issue and deliver to such holder of Preferred Stock, Class A Common Stock or Class B Common Stock, or to his, her or its nominees, a certificate or certificates for the number of full shares of Class A Common Stock or Class AAA Common Stock issuable upon such conversion in accordance with the provisions hereof and a certificate for the number (if any) of the shares of Preferred Stock, Class A Common Stock or Class B Common Stock represented by the surrendered certificate that were not converted

into Class A Common Stock or Class AAA Common Stock, (ii) pay in cash such amount as provided in Section 4.2 in lieu of any fraction of a share of Class A Common Stock or Class AAA Common Stock otherwise issuable upon such conversion and (iii) pay all declared but unpaid dividends on the shares of Preferred Stock, Class A Common Stock or Class B Common Stock converted.

4.3.2. Reservation of Shares. The Corporation shall at all times when the Preferred Stock shall be outstanding, reserve and keep available out of its authorized but unissued capital stock, for the purpose of effecting the conversion of the Preferred Stock, such number of its duly authorized shares of Class A Common Stock as shall from time to time be sufficient to effect the conversion of all outstanding Preferred Stock; and if at any time the number of authorized but unissued shares of Class A Common Stock shall not be sufficient to effect the conversion of all then outstanding shares of the Preferred Stock, the Corporation shall take such corporate action as may be necessary to increase its authorized but unissued shares of Class A Common Stock to such number of shares as shall be sufficient for such purposes, including, without limitation, engaging in best efforts to obtain the requisite stockholder approval of any necessary amendment to the Certificate of Incorporation. In the event that a holder of any shares of Preferred Stock, Class A Common Stock or Class B Common Stock elects to convert any such shares to Class AAA Common Stock and the Corporation consents to such conversion, the Corporation shall take such corporate action as may be necessary to increase its authorized but unissued shares of Class AAA Common Stock to such number of shares as shall be sufficient for such purposes. Before taking any action which would cause an adjustment reducing any applicable Conversion Price below the then par value of the shares of Class A Common Stock issuable upon conversion of the Preferred Stock, the Corporation will take any corporate action which may, in the opinion of its counsel, be necessary in order that the Corporation may validly and legally issue fully paid and nonassessable shares of Class A Common Stock at such adjusted Conversion Price.

4.3.3. Effect of Conversion. All shares of Preferred Stock, Class A Common Stock or Class B Common Stock which shall have been surrendered for conversion as herein provided shall no longer be deemed to be outstanding and all rights with respect to such shares shall immediately cease and terminate at the Conversion Time, except only the right of the holders thereof to receive shares of Class A Common Stock or Class AAA Common Stock in exchange therefor, to receive payment in lieu of any fraction of a share otherwise issuable upon such conversion as provided in Section 4.2 and to receive payment of any dividends declared but unpaid thereon. Any shares of Preferred Stock, Class A Common Stock or Class B Common Stock so converted shall be retired and cancelled and may not be reissued as shares of such series, and the Corporation may thereafter take such appropriate action (without the need for stockholder action) as may be necessary to reduce the authorized number of shares of Preferred Stock, Class A Common Stock or Class B Common Stock accordingly.

4.3.4. No Further Adjustment. Upon any such conversion, no adjustment to the Conversion Price for any share(s) of Preferred Stock surrendered for conversion shall be made for any declared but unpaid dividends on such share(s) of Preferred Stock or on the Class A Common Stock and/or Class AAA Common Stock delivered upon conversion.

4.3.5. Taxes. The Corporation shall pay any and all issue and other similar taxes that may be payable in respect of any issuance or delivery of shares of Class A Common Stock and/or Class AAA Common Stock upon conversion of shares of Preferred Stock, Class A Common Stock or Class B Common Stock pursuant to this Section 4. The Corporation shall not, however, be required to pay any tax which may be payable in respect of any transfer involved in the issuance and delivery of shares of Class A Common Stock and/or Class AAA Common Stock in a name other than that in which the shares of Preferred Stock, Class A Common Stock or Class B Common Stock so converted were registered, and no such issuance or delivery shall be made unless and until the person or entity requesting such issuance has paid to the Corporation the amount of any such tax or has established, to the satisfaction of the Corporation, that such tax has been paid.

4.4. Adjustments to Conversion Price for Diluting Issues.

4.4.1. Special Definitions. For purposes of this Article Fourth, the following definitions shall apply:

(a) "**Option**" shall mean rights, options or warrants to subscribe for, purchase or otherwise acquire Common Stock or Convertible Securities.

(b) "**Original Issue Date**" shall mean the Series Seed Original Issue Date.

(c) "**Series Seed Original Issue Date**" shall mean the date on which the first share of Series Seed Preferred Stock was issued.

(d) "**Convertible Securities**" shall mean any evidences of indebtedness, shares or other securities directly or indirectly convertible into or exchangeable for Common Stock, but excluding Options.

(e) "**Additional Shares of Common Stock**" shall mean all shares of Common Stock issued (or, pursuant to Section 4.4.3 below, deemed to be issued) by the Corporation after the Series Seed Original Issue Date, other than (1) the following shares of Common Stock and (2) shares of Common Stock deemed issued pursuant to the following Options and Convertible Securities (clauses (1) and (2), collectively, "**Exempted Securities**"):

(i) shares of Common Stock, Options or Convertible Securities issued as a dividend or distribution on Preferred Stock;

(ii) shares of Common Stock, Options or Convertible Securities issued by reason of a dividend, stock split, split-up or other distribution on shares of Common Stock that is covered by Section 4.5, 4.6, 4.7 or 4.8;

(iii) shares of Common Stock, including Options therefor (subject to appropriate adjustment in the event of any stock dividend, stock split, combination or other similar recapitalization affecting such shares), issued to employees or directors of, or consultants or advisors to, the Corporation or any of its subsidiaries pursuant to a plan, agreement or arrangement approved by the Board of Directors of the Corporation;

(iv) shares of Common Stock or Convertible Securities actually issued upon the exercise of Options or shares of Common Stock actually issued upon the conversion or exchange of Convertible Securities, in each case provided such issuance is pursuant to the terms of such Option or Convertible Security;

(v) shares of Common Stock, Options or Convertible Securities issued to banks, equipment lessors or other financial institutions, or to real property lessors, pursuant to a debt financing, equipment leasing or real property leasing transaction approved by the Board of Directors of the Corporation;

(vi) shares of Common Stock, Options or Convertible Securities issued to suppliers or third party service providers in connection with the provision of goods or services pursuant to transactions approved by the Board of Directors of the Corporation;

(vii) shares of Common Stock, Options or Convertible Securities issued pursuant to the acquisition of another corporation by the Corporation by merger, purchase of substantially all of the assets or other reorganization or to a joint venture agreement, provided, that such issuances are approved by the Board of Directors of the Corporation; or

(viii) shares of Common Stock, Options or Convertible Securities issued in connection with sponsored research, collaboration, technology license, development, OEM, marketing, corporate partnering or other similar agreements, business combinations or strategic partnerships approved by the Board of Directors of the Corporation.

4.4.2. No Adjustment of Conversion Price. No adjustment of any Conversion Price shall be made as the result of the issuance or deemed issuance of Additional Shares of Common Stock if the Corporation receives written notice from the holders of a majority of the then outstanding shares of Preferred Stock, voting as a single class on an as-converted to Common Stock basis, agreeing that no such adjustment shall be made as the result of the issuance or deemed issuance of such Additional Shares of Common Stock.

4.4.3. Deemed Issue of Additional Shares of Common Stock.

(a) If the Corporation at any time or from time to time after the Series Seed Original Issue Date shall issue any Options or Convertible Securities (excluding Options or Convertible Securities which are themselves Exempted Securities) or shall fix a record date for the determination of holders of any class of securities entitled to receive any such Options or Convertible Securities, then the maximum number of shares of Common Stock (as set forth in the instrument relating thereto, assuming the satisfaction of any conditions to exercisability, convertibility or exchangeability but without regard to any provision contained therein for a subsequent adjustment of such number) issuable upon the exercise of such Options or, in the case of Convertible Securities and Options therefor, the conversion or exchange of such Convertible Securities, shall be deemed to be Additional Shares of Common Stock issued as of the time of such issue or, in case such a record date shall have been fixed, as of the close of business on such record date.

(b) If the terms of any Option or Convertible Security, the issuance of which resulted in an adjustment to a Conversion Price pursuant to the terms of Section 4.4.4, are revised as a result of an amendment to such terms or any other adjustment pursuant to the provisions of such Option or Convertible Security (but excluding automatic adjustments to such terms pursuant to anti-dilution or similar provisions of such Option or Convertible Security) to provide for either (1) any increase or decrease in the number of shares of Common Stock issuable upon the exercise, conversion and/or exchange of any such Option or Convertible Security or (2) any increase or decrease in the consideration payable to the Corporation upon such exercise, conversion and/or exchange, then, effective upon such increase or decrease becoming effective, the applicable Conversion Price computed upon the original issue of such Option or Convertible Security (or upon the occurrence of a record date with respect thereto) shall be readjusted to such applicable Conversion Price as would have obtained had such revised terms been in effect upon the original date of issuance of such Option or Convertible Security. Notwithstanding the foregoing, no readjustment pursuant to this clause (b) shall have the effect of increasing a Conversion Price to an amount which exceeds the lower of (i) the applicable Conversion Price in effect immediately prior to the original adjustment made as a result of the issuance of such Option or Convertible Security, or (ii) the applicable Conversion Price that would have resulted from any issuances of Additional Shares of Common Stock (other than deemed issuances of Additional Shares of Common Stock as a result of the issuance of such Option or Convertible Security) between the original adjustment date and such readjustment date.

(c) If the terms of any Option or Convertible Security (excluding Options or Convertible Securities which are themselves Exempted Securities), the issuance of which did not result in an adjustment to a Conversion

Price pursuant to the terms of Section 4.4.4 (either because the consideration per share (determined pursuant to Section 4.4.5) of the Additional Shares of Common Stock subject thereto was equal to or greater than the applicable Conversion Price then in effect, or because such Option or Convertible Security was issued before the Series Seed Original Issue Date), are revised after the Series Seed Original Issue Date as a result of an amendment to such terms or any other adjustment pursuant to the provisions of such Option or Convertible Security (but excluding automatic adjustments to such terms pursuant to anti-dilution or similar provisions of such Option or Convertible Security) to provide for either (1) any increase in the number of shares of Common Stock issuable upon the exercise, conversion or exchange of any such Option or Convertible Security or (2) any decrease in the consideration payable to the Corporation upon such exercise, conversion or exchange, then such Option or Convertible Security, as so amended or adjusted, and the Additional Shares of Common Stock subject thereto (determined in the manner provided in Section 4.4.3(a)) shall be deemed to have been issued effective upon such increase or decrease becoming effective.

(d) Upon the expiration or termination of any unexercised Option or unconverted or unexchanged Convertible Security (or portion thereof) which resulted (either upon its original issuance or upon a revision of its terms) in an adjustment to a Conversion Price pursuant to the terms of Section 4.4.4, the applicable Conversion Price shall be readjusted to such Conversion Price as would have obtained had such Option or Convertible Security (or portion thereof) never been issued.

(e) If the number of shares of Common Stock issuable upon the exercise, conversion and/or exchange of any Option or Convertible Security, or the consideration payable to the Corporation upon such exercise, conversion and/or exchange, is calculable at the time such Option or Convertible Security is issued or amended but is subject to adjustment based upon subsequent events, any adjustment to a Conversion Price provided for in this Section 4.4.3 shall be effected at the time of such issuance or amendment based on such number of shares or amount of consideration without regard to any provisions for subsequent adjustments (and any subsequent adjustments shall be treated as provided in clauses (b) and (c) of this Section 4.4.3). If the number of shares of Common Stock issuable upon the exercise, conversion and/or exchange of any Option or Convertible Security, or the consideration payable to the Corporation upon such exercise, conversion and/or exchange, cannot be calculated at all at the time such Option or Convertible Security is issued or amended, any adjustment to a Conversion Price that would result under the terms of this Section 4.4.3 at the time of such issuance or amendment shall instead be effected at the time such number of shares and/or amount of consideration is first calculable (even if subject to subsequent adjustments), assuming for purposes of calculating such adjustment to the applicable Conversion Price that such issuance or amendment took place at the time such calculation can first be made.

4.4.4. Adjustment of Conversion Price Upon Issuance of Additional Shares of Common Stock. In the event the Corporation shall at any time after the Series Seed Original Issue Date issue Additional Shares of Common Stock (including Additional Shares of Common Stock deemed to be issued pursuant to Section 4.4.3), without consideration or for a consideration per share less than the applicable Conversion Price in effect immediately prior to such issue for a series of Preferred Stock, then the Conversion Price for such series shall be reduced, concurrently with such issue, to a price (calculated to the nearest one-hundredth of a cent) determined in accordance with the following formula:

$$CP_2 = CP_1 * (A + B) \div (A + C).$$

For purposes of the foregoing formula, the following definitions shall apply:

(a) "CP_2" shall mean the applicable Conversion Price in effect immediately after such issue of Additional Shares of Common Stock

(b) "CP_1" shall mean the applicable Conversion Price in effect immediately prior to such issue of Additional Shares of Common Stock;

(c) "A" shall mean the number of shares of Common Stock outstanding immediately prior to such issue of Additional Shares of Common Stock (treating for this purpose as outstanding all shares of Common Stock issuable upon exercise of Options outstanding immediately prior to such issue or upon conversion or exchange of Convertible Securities (including the Preferred Stock) outstanding (assuming exercise of any outstanding Options therefor) immediately prior to such issue);

(d) "B" shall mean the number of shares of Common Stock that would have been issued if such Additional Shares of Common Stock had been issued at a price per share equal to CP_1 (determined by dividing the aggregate consideration received by the Corporation in respect of such issue by CP_1); and

(e) "C" shall mean the number of such Additional Shares of Common Stock issued in such transaction.

4.4.5. Determination of Consideration. For purposes of this Section 4.4, the consideration received by the Corporation for the issue of any Additional Shares of Common Stock shall be computed as follows:

(a) Cash and Property: Such consideration shall:

(i) insofar as it consists of cash, be computed at the aggregate amount of cash received by the Corporation, excluding amounts paid or payable for accrued interest;

(ii) insofar as it consists of property other than cash, be computed at the fair market value thereof at the time of such issue, as determined in good faith by the Board of Directors of the Corporation; and

(iii) in the event Additional Shares of Common Stock are issued together with other shares or securities or other assets of the Corporation for consideration which covers both, be the proportion of such consideration so received, computed as provided in clauses (i) and (ii) above, as determined in good faith by the Board of Directors of the Corporation.

(b) Options and Convertible Securities. The consideration per share received by the Corporation for Additional Shares of Common Stock deemed to have been issued pursuant to Section 4.4.3, relating to Options and Convertible Securities, shall be determined by dividing:

(i) the total amount, if any, received or receivable by the Corporation as consideration for the issue of such Options or Convertible Securities, plus the minimum aggregate amount of additional consideration (as set forth in the instruments relating thereto, without regard to any provision contained therein for a subsequent adjustment of such consideration) payable to the Corporation upon the exercise of such Options or the conversion or exchange of such Convertible Securities, or in the case of Options for Convertible Securities, the exercise of such Options for Convertible Securities and the conversion or exchange of such Convertible Securities, by

(ii) the maximum number of shares of Common Stock (as set forth in the instruments relating thereto, without regard to any provision contained therein for a subsequent adjustment of such number) issuable upon the exercise of such Options or the conversion or exchange of such Convertible Securities, or in the case of Options for Convertible Securities, the exercise of such Options for Convertible Securities and the conversion or exchange of such Convertible Securities.

4.4.6. Multiple Closing Dates. In the event the Corporation shall issue on more than one date Additional Shares of Common Stock that are a part of one transaction or a series of related transactions and that would result in an adjustment to the applicable Conversion Price pursuant to the terms of Section 4.4.4, and such issuance dates occur within a period of no more than ninety (90) days from the first such issuance to the final such issuance, then, upon the final such issuance, the applicable Conversion Price shall be readjusted to give effect to all such issuances as if they occurred on the date of the first such issuance (and without giving effect to any additional adjustments as a result of any such subsequent issuances within such period).

4.5. Adjustment for Stock Splits and Combinations. If the Corporation shall at any time or from time to time after the Series Seed Original Issue Date effect a subdivision of the outstanding Class A Common Stock, the applicable Conversion Price for each series of Preferred Stock in effect immediately before that subdivision shall be proportionately decreased so that the number of shares of Class A Common Stock issuable on conversion of each share of such series shall be increased in proportion to such increase in the aggregate number of shares of Class A Common Stock outstanding. If the Corporation shall at any time or from time to time after the Series Seed Original Issue Date combine the outstanding shares of Class A Common Stock, the Conversion Price for each series of Preferred Stock in effect immediately before the combination shall be proportionately increased so that the number of shares of Class A Common Stock issuable on conversion of each share of such series shall be decreased in proportion to such decrease in the aggregate number of shares of Class A Common Stock outstanding. Any adjustment under this Section 4.5 shall become effective at the close of business on the date the subdivision or combination becomes effective.

4.6. Adjustment for Certain Dividends and Distributions. In the event the Corporation at any time or from time to time after the Series Seed Original Issue Date shall make or issue, or fix a record date for the determination of holders of Common Stock entitled to receive, a dividend or other distribution payable on the Common Stock in additional shares of Common Stock, then and in each such event the Conversion Price for each series of Preferred Stock in effect immediately before such event shall be decreased as of the time of such issuance or, in the event such a record date shall have been fixed, as of the close of business on such record date, by multiplying the applicable Conversion Price then in effect by a fraction:

(1) the numerator of which shall be the total number of shares of Common Stock issued and outstanding immediately prior to the time of such issuance or the close of business on such record date, and

(2) the denominator of which shall be the total number of shares of Common Stock issued and outstanding immediately prior to the time of such issuance or the close of business on such record date plus the number of shares of Common Stock issuable in payment of such dividend or distribution.

Notwithstanding the foregoing, (a) if such record date shall have been fixed and such dividend is not fully paid or if such distribution is not fully made on the date fixed therefor, the applicable Conversion Price shall be recomputed accordingly as of the close of business on such record date and thereafter the applicable Conversion Price shall be adjusted pursuant to this Section 4.6 as of the time of actual payment of such dividends or distributions; and (b) no such adjustment shall be made if the holders of the applicable series of Preferred Stock simultaneously receive a dividend or other distribution of shares of Class A Common Stock in a number equal to the number of shares of Common Stock as they would have received if such series of Preferred Stock had been converted into Class A Common Stock on the date of such event.

4.7. Adjustments for Other Dividends and Distributions. In the event the Corporation at any time or from time to time after the Series Seed Original Issue Date shall make or issue, or fix a record date for the determination of holders of Common Stock entitled to receive, a dividend or other distribution payable in securities of the Corporation (other than a distribution of shares of Common Stock in respect of outstanding shares of Common Stock) or in other property and the provisions of Section 1 do not apply to such dividend or distribution, then and in each such event the holders of Preferred Stock shall receive, simultaneously with the distribution to the holders of Common Stock, a dividend or other distribution of such securities or other property in an amount equal to the amount of such securities or other property as they would have received if all outstanding shares of Preferred Stock had been converted into Class A Common Stock on the date of such event.

4.8. Adjustment for Merger or Reorganization, etc. Subject to the provisions of Section 2.3, if there shall occur any reorganization, recapitalization, reclassification, consolidation or merger involving the Corporation in which the Common Stock (but not the Preferred Stock) is converted into or exchanged for securities, cash or other property (other than a transaction covered by Sections 4.4, 4.6 or 4.7), then, following any such reorganization, recapitalization, reclassification, consolidation or merger, each share of each series of Preferred Stock shall thereafter be convertible in lieu of the Class A Common Stock or Class AAA Common Stock into which it was convertible prior to such event into the kind and amount of securities, cash or other property which a holder of the number of shares of Class A Common Stock of the Corporation issuable upon conversion of one share of such series of Preferred Stock immediately prior to such reorganization, recapitalization, reclassification, consolidation or merger would have been entitled to receive pursuant to such transaction; and, in such case, appropriate adjustment (as determined in good faith by the Board of Directors of the Corporation) shall be made in the application of the provisions in this Section 4 with respect to the rights and interests thereafter of the holders of such series of Preferred Stock, to the end that the provisions set forth in this Section 4 (including provisions with respect to changes in and other adjustments of the applicable Conversion Price) shall thereafter be applicable, as nearly as reasonably may be, in relation to any securities or other property thereafter deliverable upon the conversion of such series of Preferred Stock.

4.9. Certificate as to Adjustments. Upon the occurrence of each adjustment or readjustment of any Conversion Price for a series of Preferred Stock pursuant to this Section 4, the Corporation at its expense shall, as promptly as reasonably practicable but in any event not later than ten (10) days thereafter, compute such adjustment or readjustment in accordance with the terms hereof and furnish to each holder of Preferred Stock a certificate setting forth such adjustment or readjustment (including the kind and amount of securities, cash or other property into which such series of Preferred Stock is convertible) and showing in detail the facts upon which such adjustment or readjustment is based. The Corporation shall, as promptly as reasonably practicable after the written request at any time of any holder of any series of Preferred Stock (but in any event not later than ten (10) days thereafter), furnish or cause to be furnished to such holder a certificate setting forth (i) the applicable Conversion Price for such series of Preferred Stock then in effect, and (ii) the number of shares of Common Stock and the amount, if

any, of other securities, cash or property which then would be received upon the conversion of such series of Preferred Stock.

4.10. Notice of Record Date. In the event:

(a) the Corporation shall take a record of the holders of its Common Stock (or other capital stock or securities at the time issuable upon conversion of the Preferred Stock) for the purpose of entitling or enabling them to receive any dividend or other distribution, or to receive any right to subscribe for or purchase any shares of capital stock of any class or any other securities, or to receive any other security; or

(b) of any capital reorganization of the Corporation, any reclassification of the Common Stock of the Corporation, or any Deemed Liquidation Event; or

(c) of the voluntary or involuntary dissolution, liquidation or winding-up of the Corporation,

then, and in each such case, the Corporation will send or cause to be sent to the holders of the Preferred Stock a notice specifying, as the case may be, (i) the record date for such dividend, distribution or right, and the amount and character of such dividend, distribution or right, or (ii) the effective date on which such reorganization, reclassification, consolidation, merger, transfer, dissolution, liquidation or winding-up is proposed to take place, and the time, if any is to be fixed, as of which the holders of record of Common Stock (or such other capital stock or securities at the time issuable upon the conversion of the Preferred Stock) shall be entitled to exchange their shares of Common Stock (or such other capital stock or securities) for securities or other property deliverable upon such reorganization, reclassification, consolidation, merger, transfer, dissolution, liquidation or winding-up, and the amount per share and character of such exchange applicable to the Preferred Stock and the Common Stock. Such notice shall be sent at least ten (10) days prior to the record date or effective date for the event specified in such notice.

5. Mandatory Conversion.

5.1. Trigger Events. Upon either (a) the closing of the sale of shares of Common Stock to the public in a firm-commitment underwritten public offering pursuant to an effective registration statement under the Securities Act of 1933, as amended (the "**Securities Act**"), at a price per share (prior to underwriting commissions and expenses) equal to no less than three (3) times the Series Seed Original Issue Price or (b) the date and time, or the occurrence of an event, specified by vote or written consent of the holders of at least a majority of the then outstanding (i) shares of Preferred Stock, voting together as a single class on an as-converted to the Common Stock basis, and (ii) shares of Common Stock held by Key Holders (as such term is defined in that certain Voting Agreement by and among the Corporation and other parties thereto dated on or about the date hereof as such agreement may be amended from time to time) providing services to the Corporation as officers, employees or consultants (the time of such closing (or, with respect to the Class B Common Stock, Class C Common Stock or Class AAA Common Stock, a

closing under the next sentence) or the date and time specified or the time of the event specified in such vote or written consent is referred to herein as the "**Mandatory Conversion Time**"), (A) all outstanding shares of Preferred Stock shall automatically be converted into shares of Class A Common Stock, at the then effective conversion rate and (B) such shares may not be reissued by the Corporation. Each share of Class B Common Stock, Class C Common Stock and/or Class AAA Common Stock shall automatically be converted into one (1) share of Class A Common Stock immediately upon the earlier of (x) the closing of a firmly underwritten public offering pursuant to an effective registration statement under the Securities Act covering the offer and sale of Common Stock for the account of the Corporation or (y) an election by the Board of Directors of the Corporation to effect any such conversion.

5.2. Procedural Requirements. All holders of record of shares of Preferred Stock and, if applicable, Class B Common Stock, Class C Common Stock and/or Class AAA Common Stock shall be sent written notice of any applicable Mandatory Conversion Time and the place designated for mandatory conversion of all such shares of Preferred Stock, Class B Common Stock, Class C Common Stock, and/or Class AAA Common Stock pursuant to this Section 5. Such notice need not be sent in advance of the occurrence of the applicable Mandatory Conversion Time. Upon receipt of such notice, each holder of shares of Preferred Stock, Class B Common Stock, Class C Common Stock, and/or Class AAA Common Stock, as applicable, shall surrender his, her or its certificate or certificates for all such shares (or, if such holder alleges that such certificate has been lost, stolen or destroyed, a lost certificate affidavit and agreement reasonably acceptable to the Corporation to indemnify the Corporation against any claim that may be made against the Corporation on account of the alleged loss, theft or destruction of such certificate) to the Corporation at the place designated in such notice. If so required by the Corporation, certificates surrendered for conversion shall be endorsed or accompanied by written instrument or instruments of transfer, in form satisfactory to the Corporation, duly executed by the registered holder or by his, her or its attorney duly authorized in writing. All rights with respect to the Preferred Stock, Class B Common Stock, Class C Common Stock, and/or Class AAA Common Stock converted pursuant to Section 5.1, including the rights, if any, to receive notices and vote (other than as a holder of Class A Common Stock), will terminate at any applicable Mandatory Conversion Time (notwithstanding the failure of the holder or holders thereof to surrender the certificates at or prior to such time), except only the rights of the holders thereof, upon surrender of their certificate or certificates (or lost certificate affidavit and agreement) therefor, to receive the items provided for in the next sentence of this Section 5.2. As soon as practicable after the Mandatory Conversion Time and the surrender of the certificate or certificates (or lost certificate affidavit and agreement) for Preferred Stock, Class B Common Stock, Class C Common Stock, or Class AAA Common Stock as applicable, the Corporation shall issue and deliver to such holder, or to his, her or its nominees, a certificate or certificates for the number of full shares of Class A Common Stock issuable on such conversion in accordance with the provisions hereof, together with cash as provided in Section 4.2 in lieu of any fraction of a share of Common Stock otherwise issuable upon such conversion and the payment of any declared but unpaid dividends on the shares of Preferred Stock, Class B Common Stock, Class C Common Stock or Class AAA Common Stock converted. Such converted Preferred Stock, Class B Common Stock, Class C Common Stock, and/or Class AAA Common Stock, as applicable, shall be retired and cancelled and may not be reissued as shares of such series, and the Corporation may

thereafter take such appropriate action (without the need for stockholder action) as may be necessary to reduce the authorized number of shares of Preferred Stock, Class B Common Stock, Class C Common Stock, and/or Class AAA Common Stock accordingly.

6. Redeemed or Otherwise Acquired Shares. Any shares of Preferred Stock or Common Stock that are redeemed or otherwise acquired by the Corporation or any of its subsidiaries shall be automatically and immediately cancelled and retired and shall not be reissued, sold or transferred. Neither the Corporation nor any of its subsidiaries may exercise any voting or other rights granted to the holders of such Preferred Stock or Common Stock following redemption. To the extent permissible under Section 244(a)(2) of the General Corporation Law, the paid-in capital of the Corporation shall be automatically reduced by the amount of any redemption payments made pursuant any such redemption or acquisition. This Section 6 shall not prohibit the Corporation from issuing any new shares under any authorized equity incentive plan of the Corporation as a result of such cancelled and retired shares being cancelled and retired and no longer included in the outstanding shares under such plan.

7. Waiver. Any of the rights, powers, preferences and other terms of the Preferred Stock set forth herein may be waived on behalf of all holders of Preferred Stock by the affirmative written consent or vote of the holders of at least a majority of the shares of Preferred Stock then outstanding, voting together as a single class on an as-converted to Common Stock basis.

8. Notices. Any notice required or permitted by the provisions of this Article Fourth to be given to a holder of shares of Preferred Stock shall be mailed, postage prepaid, to the post office address last shown on the records of the Corporation, or given by electronic communication in compliance with the provisions of the General Corporation Law, and shall be deemed sent upon such mailing or electronic transmission.

FIFTH: Subject to any additional vote required by the Certificate of Incorporation or Bylaws, in furtherance and not in limitation of the powers conferred by statute, the Board of Directors is expressly authorized to make, repeal, alter, amend and rescind any or all of the Bylaws of the Corporation.

SIXTH: Subject to any additional vote required by the Certificate of Incorporation, the number of directors of the Corporation shall be determined in the manner set forth in the Bylaws of the Corporation.

SEVENTH: Elections of directors need not be by written ballot unless the Bylaws of the Corporation shall so provide.

EIGHTH: Meetings of stockholders may be held within or without the State of Delaware, as the Bylaws of the Corporation may provide. The books of the Corporation may be kept outside the State of Delaware at such place or places as may be designated from time to time by the Board of Directors or in the Bylaws of the Corporation.

NINTH: To the fullest extent permitted by law, a director or officer of the Corporation shall not be personally liable to the Corporation or its stockholders for monetary damages for breach of fiduciary duty as a director or officer. If the General Corporation Law or any other law of the State of Delaware is amended after approval by the stockholders of this Article Ninth to authorize corporate action further eliminating or limiting the personal liability of directors or officers, then the liability of a director or officer of the Corporation shall be eliminated or limited to the fullest extent permitted by the General Corporation Law, as so amended.

Any repeal or modification of the foregoing provisions of this Article Ninth by the stockholders of the Corporation shall not adversely affect any right or protection of a director or officer of the Corporation existing at the time of, or increase the liability of any director or officer of the Corporation with respect to any acts or omissions of such director or officer occurring prior to, such repeal or modification.

TENTH: The following indemnification provisions shall apply to the persons enumerated below.

1. Right to Indemnification of Directors and Officers. The Corporation shall indemnify and hold harmless, to the fullest extent permitted by applicable law as it presently exists or may hereafter be amended, any person (an "**Indemnified Person**") who was or is made or is threatened to be made a party or is otherwise involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative (a "**Proceeding**"), by reason of the fact that such person, or a person for whom such person is the legal representative, is or was a director or officer of the Corporation or, while a director or officer of the Corporation, is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation or of a partnership, joint venture, limited liability company, trust, enterprise or nonprofit entity, including service with respect to employee benefit plans, against all liability and loss suffered and expenses (including attorneys' fees) reasonably incurred by such Indemnified Person in such Proceeding. Notwithstanding the preceding sentence, except as otherwise provided in Section 3 of this Article Tenth, the Corporation shall be required to indemnify an Indemnified Person in connection with a Proceeding (or part thereof) commenced by such Indemnified Person only if the commencement of such Proceeding (or part thereof) by the Indemnified Person was authorized in advance by the Board of Directors.

2. Prepayment of Expenses of Directors and Officers. The Corporation shall pay the expenses (including attorneys' fees) incurred by an Indemnified Person in defending any Proceeding in advance of its final disposition, provided, however, that, to the extent required by law, such payment of expenses in advance of the final disposition of the Proceeding shall be made only upon receipt of an undertaking by the Indemnified Person to repay all amounts advanced if it should be ultimately determined that the Indemnified Person is not entitled to be indemnified under this Article Tenth or otherwise.

3. Claims by Directors and Officers. If a claim for indemnification or advancement of expenses under this Article Tenth is not paid in full within thirty (30) days after a written claim therefor by the Indemnified Person has been received by the Corporation, the

Indemnified Person may file suit to recover the unpaid amount of such claim and, if successful in whole or in part, shall be entitled to be paid the expense of prosecuting such claim. In any such action the Corporation shall have the burden of proving that the Indemnified Person is not entitled to the requested indemnification or advancement of expenses under applicable law.

4. Indemnification of Employees and Agents. The Corporation may indemnify and advance expenses to any person who was or is made or is threatened to be made or is otherwise involved in any Proceeding by reason of the fact that such person, or a person for whom such person is the legal representative, is or was an employee or agent of the Corporation or, while an employee or agent of the Corporation, is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation or of a partnership, joint venture, limited liability company, trust, enterprise or nonprofit entity, including service with respect to employee benefit plans, against all liability and loss suffered and expenses (including attorneys' fees) reasonably incurred by such person in connection with such Proceeding. The ultimate determination of entitlement to indemnification of persons who are non-director or officer employees or agents shall be made in such manner as is determined by the Board of Directors in its sole discretion. Notwithstanding the foregoing sentence, the Corporation shall not be required to indemnify a person in connection with a Proceeding initiated by such person if the Proceeding was not authorized in advance by the Board of Directors.

5. Advancement of Expenses of Employees and Agents. The Corporation may pay the expenses (including attorneys' fees) incurred by an employee or agent in defending any Proceeding in advance of its final disposition on such terms and conditions as may be determined by the Board of Directors.

6. Non-Exclusivity of Rights. The rights conferred on any person by this Article Tenth shall not be exclusive of any other rights which such person may have or hereafter acquire under any statute, provision of this certificate of incorporation, bylaws, agreement, vote of stockholders or disinterested directors or otherwise.

7. Other Indemnification. The Corporation's obligation, if any, to indemnify any person who was or is serving at its request as a director, officer or employee of another Corporation, partnership, limited liability company, joint venture, trust, organization or other enterprise shall be reduced by any amount such person may collect as indemnification from such other corporation, partnership, limited liability company, joint venture, trust, organization or other enterprise.

8. Insurance. The Board of Directors may, to the full extent permitted by applicable law as it presently exists, or as may hereafter be amended from time to time, authorize an appropriate officer or officers to purchase and maintain at the Corporation's expense insurance: (a) to indemnify the Corporation for any obligation which it incurs as a result of the indemnification of directors, officers and employees under the provisions of this Article Tenth; and (b) to indemnify or insure directors, officers and employees against liability in instances in which they may not otherwise be indemnified by the Corporation under the provisions of this Article Tenth.

9. Repeal or Amendment. Any repeal or modification of the foregoing provisions of this Article Tenth shall not adversely affect any right or protection hereunder of any person in respect of any act or omission occurring prior to the time of such repeal or modification. The rights provided hereunder shall inure to the benefit of any Indemnified Person and such person's heirs, executors and administrators.

ELEVENTH: The Corporation renounces, to the fullest extent permitted by law, any interest or expectancy of the Corporation in, or in being offered an opportunity to participate in, any Excluded Opportunity. An "**Excluded Opportunity**" is any matter, transaction or interest that is presented to, or acquired, created or developed by, or which otherwise comes into the possession of, (i) any director of the Corporation who is not an employee of the Corporation or any of its subsidiaries, or (ii) any holder of Preferred Stock or Common Stock or any partner, member, director, stockholder, officer, manager, employee or agent of any such holder, other than someone who is an employee of the Corporation or any of its subsidiaries (collectively, "**Covered Persons**"), unless such matter, transaction or interest is presented to, or acquired, created or developed by, or otherwise comes into the possession of, a Covered Person expressly and solely in such Covered Person's capacity as a director of the Corporation.

TWELFTH: Unless the Corporation consents in writing to the selection of an alternative forum, the Court of Chancery in the State of Delaware shall be the sole and exclusive forum for any stockholder (including a beneficial owner) to bring (i) any derivative action or proceeding brought on behalf of the Corporation, (ii) any action asserting a claim of breach of fiduciary duty owed by any director, officer or other employee of the Corporation to the Corporation or the Corporation's stockholders, (iii) any action asserting a claim against the Corporation, its directors, officers or employees arising pursuant to any provision of the General Corporation Law or the Corporation's certificate of incorporation or bylaws or (iv) any action asserting a claim against the Corporation, its directors, officers or employees governed by the internal affairs doctrine, except for, as to each of (i) through (iv) above, any claim as to which the Court of Chancery determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten (10) days following such determination), which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery, or for which the Court of Chancery does not have subject matter jurisdiction. If any provision or provisions of this Article Twelfth shall be held to be invalid, illegal or unenforceable as applied to any person or entity or circumstance for any reason whatsoever, then, to the fullest extent permitted by law, the validity, legality and enforceability of such provisions in any other circumstance and of the remaining provisions of this Article Twelfth (including, without limitation, each portion of any sentence of this Article Twelfth containing any such provision held to be invalid, illegal or unenforceable that is not itself held to be invalid, illegal or unenforceable) and the application of such provision to other persons or entities and circumstances shall not in any way be affected or impaired thereby.

THIRTEENTH: The Corporation shall not be governed by or subject to Section 203 of the General Corporation Law.
